VARNEY

Wingham.

You feel like screaming-but you can't-your throat is dry-you feel as if you were choking with apprebension-your heart is pounding, pounding, poundingwhat, how-when? Then from the burning chaos of your mind springs a clear, sparkling thought: "I've got telephone for help". Before you know what's happened, all the vast organization laboriously built and rigorously maintained by your community, firemen, police, ambulances, hospitals instantly come to your aid. Yes, there's nothing like a telephone in the house and in emergencies it's priceless.

> • Telephone service is widely used because it is courteous efficient, yet surprisingly inexpensive. Nothing else yields so much for what it costs!
