

West Is Reaping Wild Rice Crop

Unique Harvest Garnered In By Boatloads In Eastern Manitoba — Indians Sell It To U. S.—Get. 30c a Pound

Western Canada's most unique harvest is underway in Eastern Manitoba where hundreds of Indians are reaping boatloads of wild rice from a number of lakes in or near the Whiteshell Forest Reserve.

The wild rice is generally harvested by teams of two Indians in canoes. One does the paddling while the other bends over the tops of plants which fringe the lakes and flail the seed heads into the bottom of the canoe.

Get 30c A Pound

Indians take off most of the harvest.

The main market is in the United States where it is used partly for transplanting in wild game areas and partly as a food delicacy. The average price for wild rice is 35 cents a pound.

Plants Fringe The Lakes

The rice fields in Eastern Manitoba are confined mainly to Jessica Lake, White Lake, Star Lake, Cabela Lake and other waters near the Manitoba-Ontario boundary.

The plant is an annual with long linear glabrous leaves which spread out into compound branched spikes, each of which bears the fruit or grain. It is cultivated and apparently requires a special kind of water.

Build Up Health And Avoid Flu

If You're Feeling Tired, Chilly and Depressed, You're Less Likely to Throw Off the Germs

There's no doubt that good general health is a fine defence against catching 'flu — or anything else for that matter. So it's obvious we have all got to keep as well as we can this winter.

Air Borne Disease

The first thing to realize is that the 'flu germ is air borne. When a person with influenza coughs or sneezes he puts a fine invisible, germ-laden spray round him. People who get in the way of these germs are bound to breathe them into their systems. If they are feeling fit and cheerful there's a good chance they will throw the germs off with no harm done. If they feel tired, chilly and depressed, it's an even chance the germs will get to work and another victim go shivering to bed.

First keep as well as you possibly can. The hated enemies of the influenza germ are fresh air, cleanliness and good food.

Make sure of the fresh air; don't rush to shut the windows every time; put on a light jacket instead.

SINGER DOUBLES AS SCULPTOR

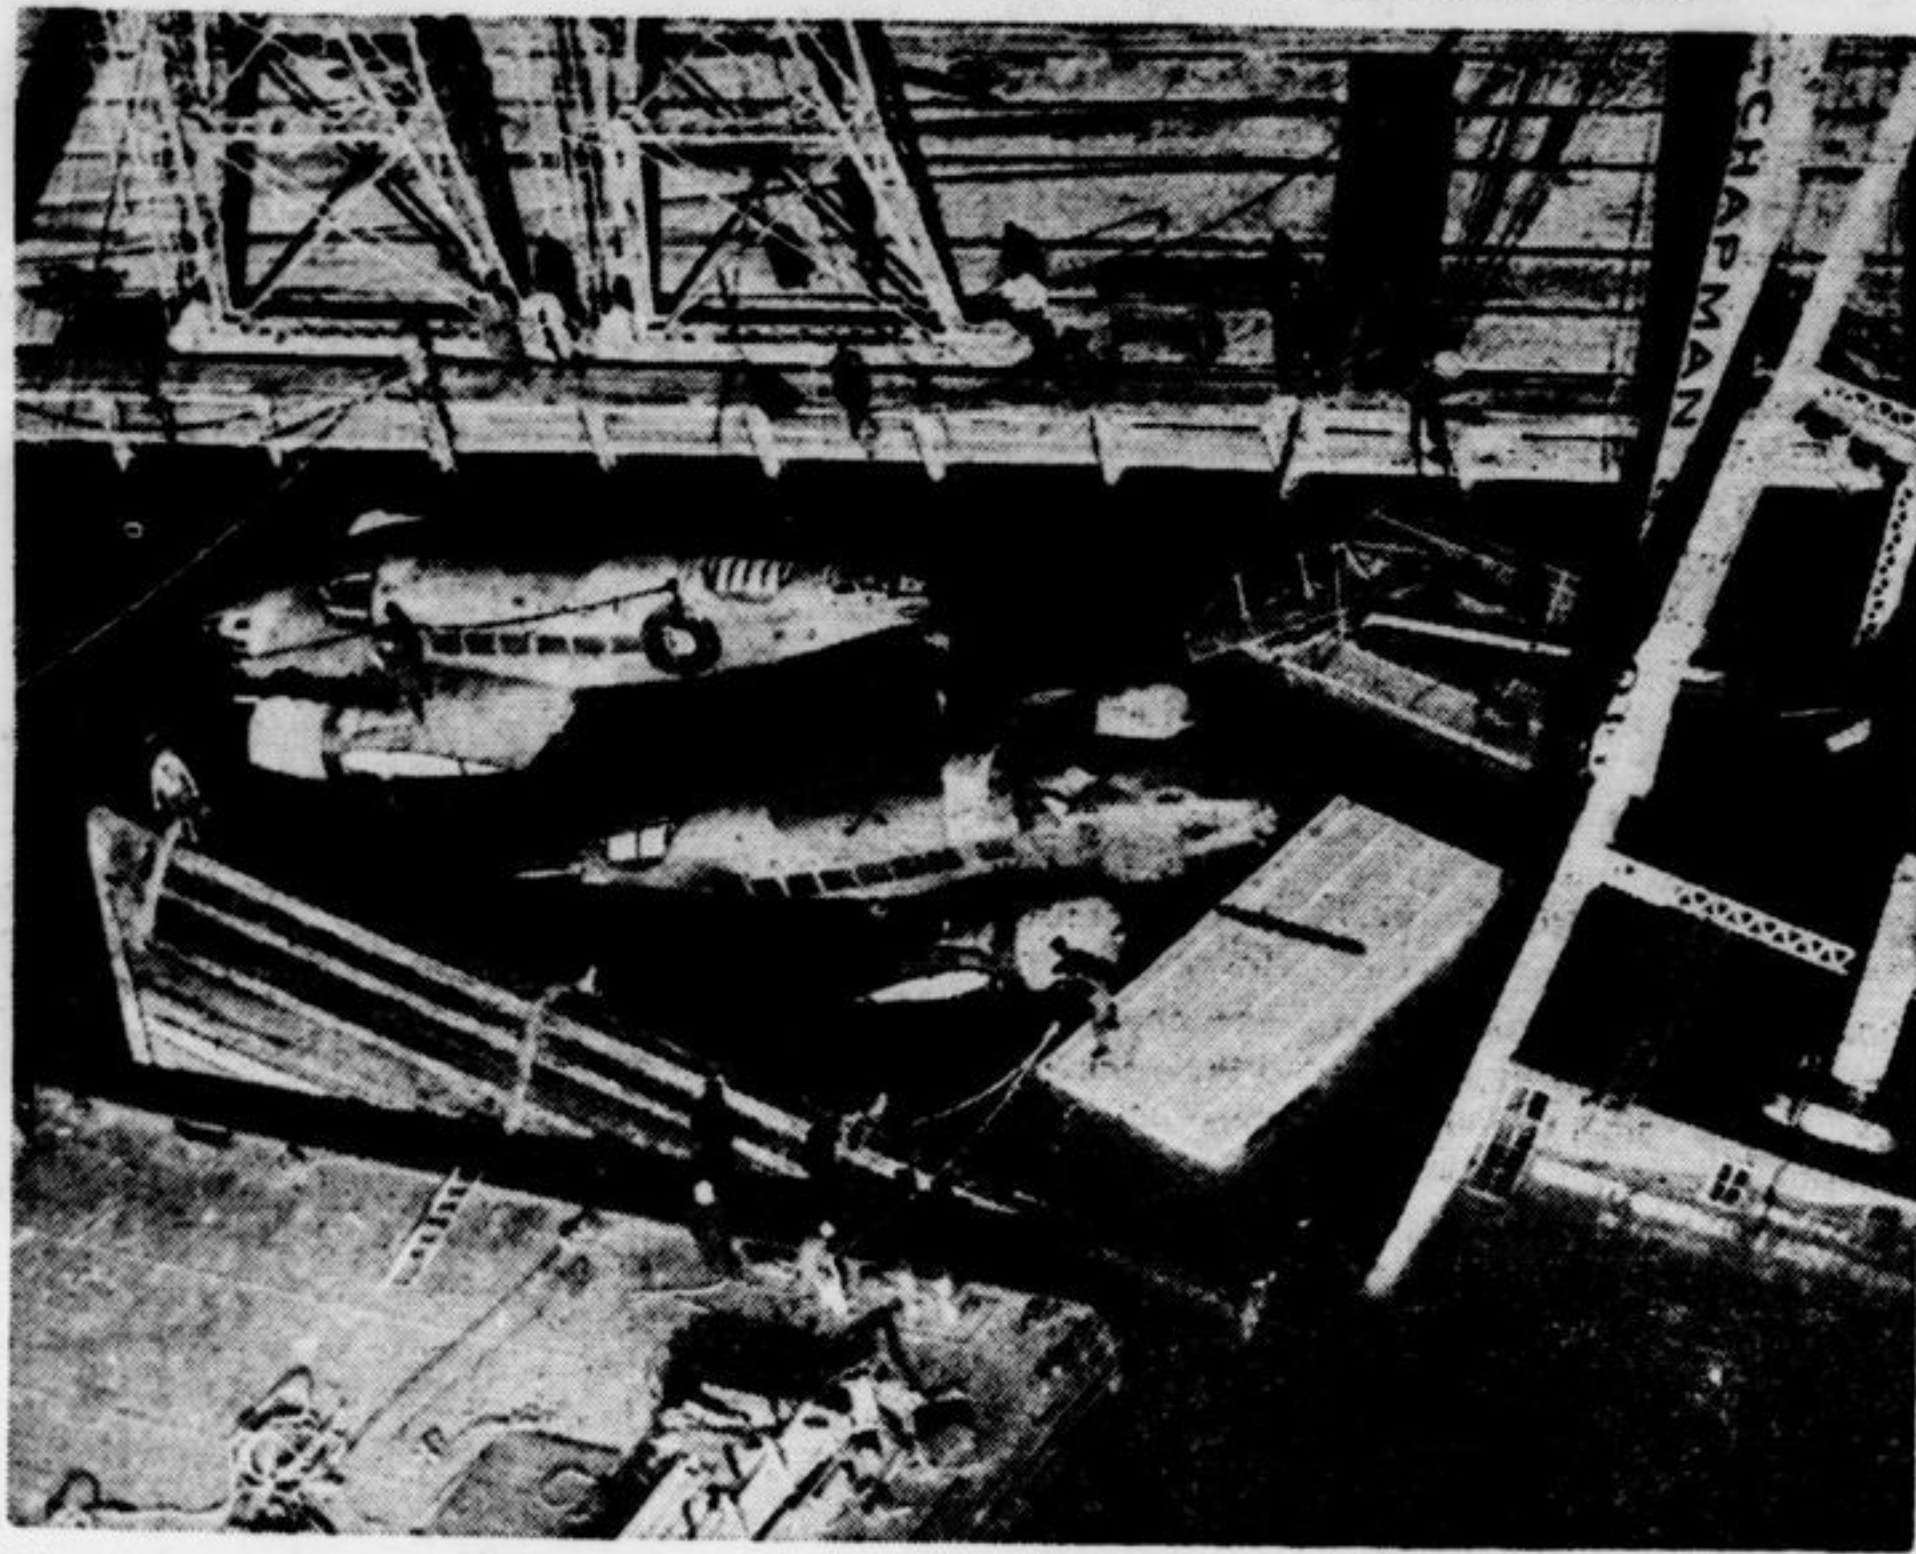

Nelson Eddy when not working goes in for sculpturing. This new hobby has been a secret for more than a year because the star was fearful about his first effort. Eddy is seen working upon his prize undertaking, a head and shoulders of Mrs. Eddy.

Fatal Whiskers

A mayor of Barnau, Germany, who died in 1572, was inordinately proud of his beard, which reached from his chin to his feet, and 6 inches farther. In order not to stumble over it he used to drape the beard over one arm when walking. One morning he forgot this precaution, started down the Town Hall steps, trod on his whiskers, fell and broke his neck.

Boys' and Girls' Farm Clubs in Canada have a combined total membership of approximately 37,000.

Barge, Carrying Two British Bombers, Sinks Off U.S. Coast

A possible victim of saboteurs, this barge carrying two bombing planes consigned to the British air ministry, is shown sinking off Stapleton, Staten Island. The barge mysteriously sprang a leak before dawn and went to the bottom in 30 feet of water before the planes could be removed. Only the wings, which had been detached from the planes, remained afloat. John Hansen, only crew member aboard the barge, made his escape just before the craft made its plunge. Authorities are investigating the possibility that sabotage was responsible.

RADIO NOTES AND NEWS

By MADGE ARCHER

Donald Dickson returns to the Chase and Sanborn Hour, replacing Nelson Eddy who resigned from the program on November 5. Dickson made his first appearance on the program as guest soloist last winter. Chase and Sanborn have one spot in the most coveted appointment in radioland. Rudy Vallee will continue to act as m.c. until the return of Don Ameche.

TREATS FOR MUSIC LOVERS

Saturday, December 2nd, will be a red letter day for all music lovers. In the afternoon the Metropolitan Opera Company will inaugurate a new season of broadcasts straight from the stage of the Metropolitan Opera House in New York. On Saturday evening the NBC Symphony orchestra under Toscanini will present Beethoven's Ninth Symphony. The Westminster Choir, one of America's best-known choral organizations will provide the background for the presentation of Beethoven's Ninth Symphony and the soloists will be Jarmla Novotna, soprano, who is to make her Metropolitan Opera debut later in the season, Kerstin Thorberg, Metropolitan Opera contralto, Jan Preece, tenor and Nicola Moscona, bass of the Metropolitan. The choir will also be heard in Beethoven's Choral Fantasy for Piano, Chorus and Orchestra and will feature Ania Dorfman as piano soloist.

PUCK CHASERS

SENIOR "A" SET-UP

Hamilton Dominions and Galt Moose Club made a successful start as new entrants in Senior O.H.A. "A" Hockey at Galt Arena early this month and their excellent showing indicates a lively season for Senior hockey game in Ontario this winter.

Hamilton and Galt are the new clubs replacing Oshawa and Brantford teams of last season. Back again with strengthened line-ups are Niagara Falls, St. Catharines Saints, Port Colborne Sailors, and the Toronto Goodyears, who are defending the Senior O.H.A. "A" championship.

Team colors in the Senior "A" series for this season follow: Niagara Falls, maroon and white; Galt—purple and gold; Hamilton—red and white; Port Colborne—old gold and blue; St. Catharines—blue and white; Goodyears—gold and blue.

Goodyear's List

Goodyears ran away with the league race last season, not losing a game, although they ran into the odd tie game. Such will not be the case this season in the opinion of the Senior hockey followers. The Tirennes have lost four key-men in Goalie Harry McQueen, defense player and Captain Wilfred Sutcliffe, Don Metz and Hank Goldup. They have added Jimmy Drummond and Abner Grant to their blue line division, and Paul Mundrick, Bus Benson, Bert Turney and Jerry Cooper from Oshawa, in an effort to make up for the last winter's star performers. Goodyears have their best front line in Inglis, O'Flaherty and King. Imlach, Robertson, Laurant, O'Brien, Bowman and Goalie Herbie Mortimer are back again.

Stereoscope, Old Parlour Favorite Sees Camouflage

A gadget that was the life of the party in the gay 90's is now helping fight the war in Europe. It is the old-fashioned stereoscope, with which you looked through eye-pieces at double postcards and got three-dimensional views of Niagara Falls and the Taj Mahal. Its wartime use is the detection of concealed military structures and apparatus.

From Slightly Different Positions

The principle of the stereoscope is that through two pictures taken from slightly different positions, you get the same effect of perspective as when you look at something with two eyes. In camouflage detection, one picture in the stereoscope is a picture taken as nearly as possible from the same viewpoint after any suspected military emplacements have been made.

You May Keep Both Dog, Cat

If You Start With Both Animals Young — Mature Cat Also Will Tolerate Puppy

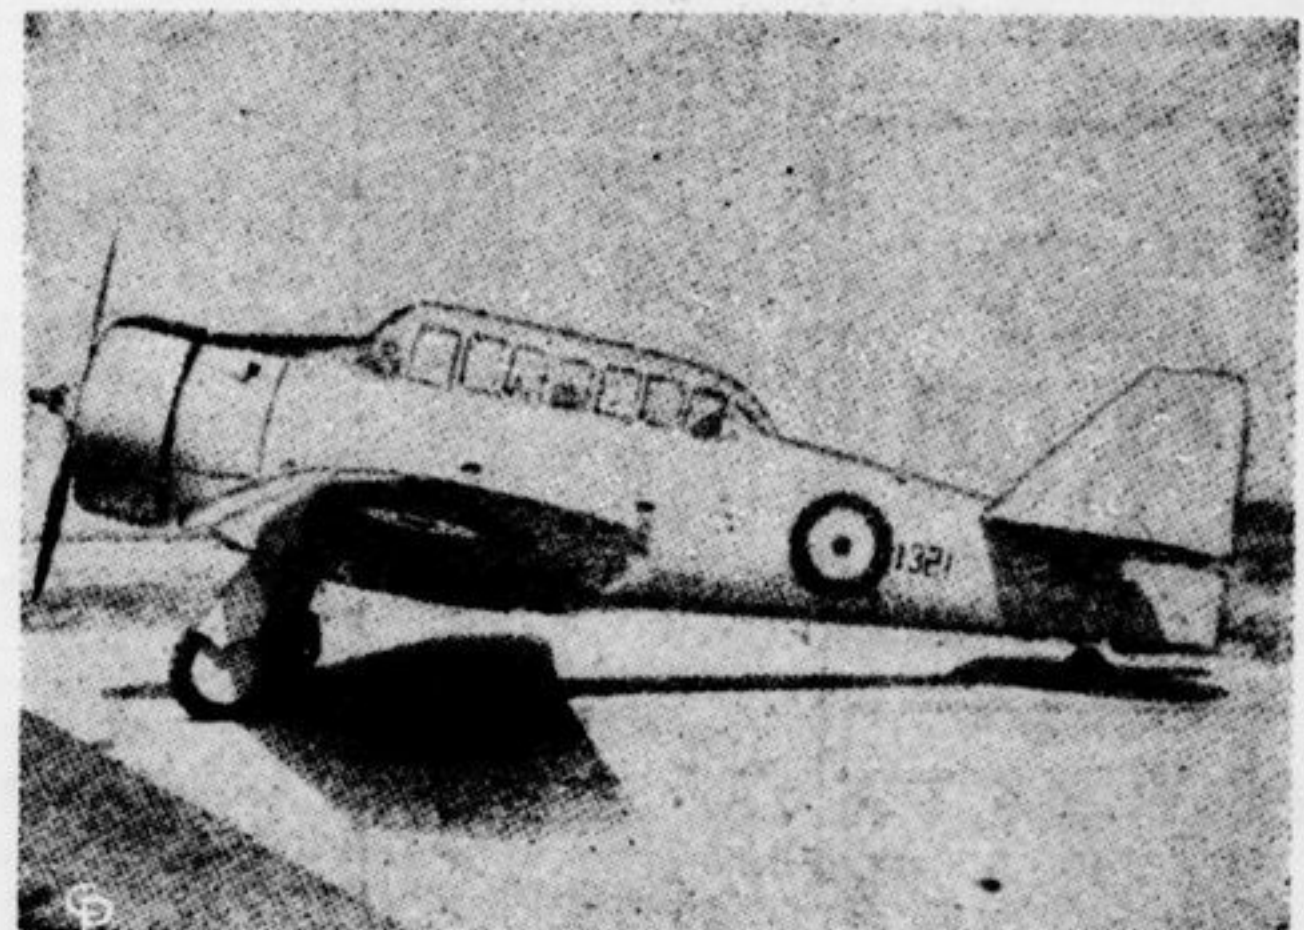

Dogs and cats are the most popular pets. Many dog lovers detest cats, and a large percentage of cat owners dislike dogs. But I have been surprised, after some inquiry, at the number of people who like both dog and cat, says a writer in "Our Dumb Animals." Off hand, I can't think of more than a dozen acquaintances who actually keep both, but I know a great many others who would do so, but for the belief that it is possible or extremely difficult to establish compatibility between these animals.

If you start with both animals when babies, the thing is entirely simple. And usually you can bring a puppy into a household where there is a mature cat. It depends, of course, on the cat's disposition, and specifically on her attitude toward dogs. While it is not the usual thing for Pass to be the aggressor, occasionally she is; and if you know your cat to be one of that kind, don't get a dog—not even a mature one. You won't be able to change that cat's mind, and you'll have no end of trouble.

Rover is the aggressor, generally; and unless you know your dog to be exceptional in regard to cats, don't get a cat. Take this as a rule (with exceptions): a mature cat will tolerate a puppy, but a mature dog is likely to injure, perhaps kill a kitten.

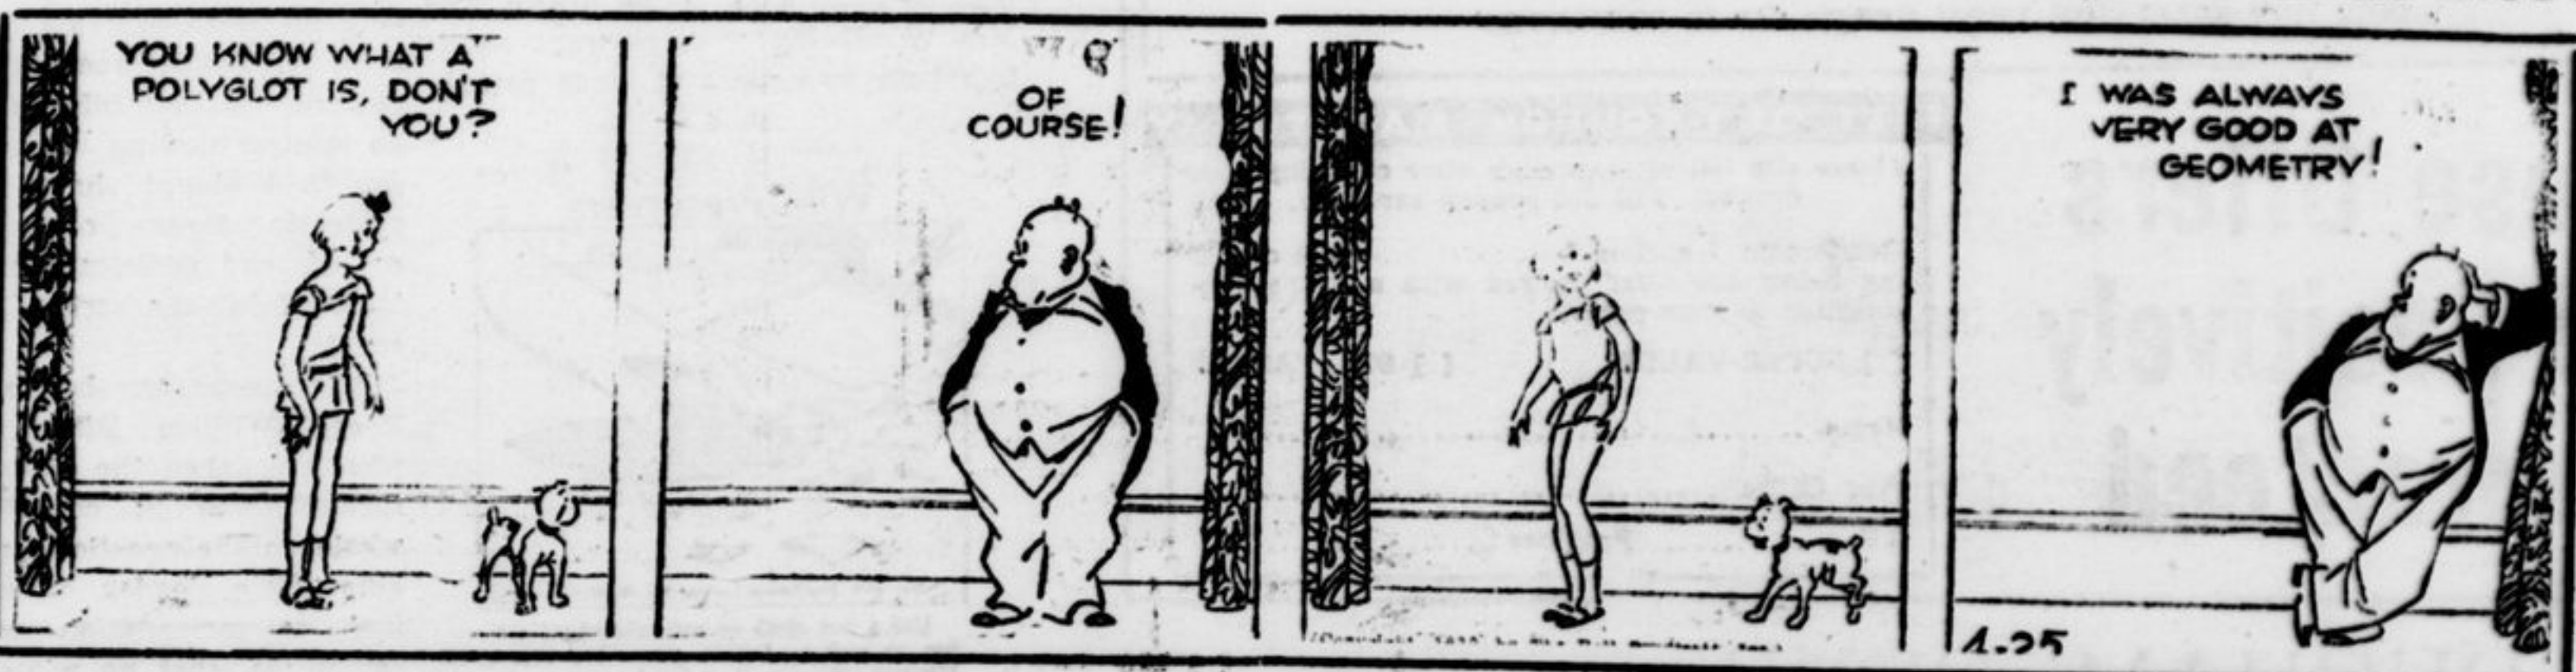

Passengers carried on electric railways in Canada during 1938 totalled 629,778,738.

Low-Winged Monoplane Will Be Used Here For Training

Several hundred Harvard training planes, ordered in the United States by Great Britain, will be delivered in Canada and used to train Empire pilots, according to a spokesman for the British air mission, now in Canada. The spokesman said that mass delivery of the low-winged monoplane would not take place immediately, but sometime in the near future. Capable of a speed of 250 m.p.h., the Harvards are powered by a 550 h.p. Pratt and Whitney Wasp engine.

POP—Just a Mixture

Power Over Destructive Forces

23. And when he wa. entered into a boat, his disciples followed him. 24. And behold, there arose a great tempest in the sea, inasmuch that the boat was covered with the waves; but he was asleep. 25. And they came to him, and awoke him, saying, Save, Lord; we perish. 26. And he saith unto them, why are ye fearful, O ye of little faith? Then he arose, and rebuked the winds and the sea;

and there was a great calm. 27. And the men marvelled, saying, What manner of man is this, that even the winds and the sea obey him?

Other miracles recorded in Chapters 8 and 9 of Matthew were the healing of the leprous man, and the palsied servant; the casting out of demons from the unhappy youth; the delivery of a paralytic from his affliction; and further prodigies of healing.

Sunday School Lesson

THE WORKS OF THE MESSIAH

Matt. 8 and 9

Printed Text, Matt. 8:14-27 Golden Text.—Jesus of Nazareth . . . went about doing good. Acts 10:38.

THE LESSON IN ITS SETTING

Time.—All these ten miracles were performed from the spring through the winter of A.D. 28.

Place.—Practically all of the miracles took place around the Sea of Galilee, the majority in the city of Capernaum; Gergesa is six miles southeast of the Sea of Galilee.

The great Teacher came down from the mountain and made himself known on the plain and among the city crowds as the mighty Healer. The healing is quite as essential as the teaching.

14. And when Jesus came into Peter's house, he saw his wife's mother lying sick of a fever. 15. And he touched her hand, and the fever left her; and she arose, and ministered unto him. This, the third miracle in the series, took place in the home of Simon Peter at Capernaum, where his wife's mother was sick of a fever. As Christ's coming into Simon Peter's household made it impossible for sickness to remain there, so always will evil flee before him, and the fever of sin be cooled at his touch. 6. And when even was come, they brought unto him many possessed with demons; and he cast out the spirits with a word, and healed all that were sick; 17. that it might be fulfilled which was spoken through Isaiah the prophet, saying, Himself took our infirmities, and bare our diseases. The passage that Matthew quotes here is 53:4. Did it mean that Christ sympathized with the sufferers, that he really felt their weaknesses and pains? There are many interpretations.

"Follow Me"

18. Now when Jesus saw great multitudes about him, he gave commandment to depart on the other side. 19. And there came a scribe, and said unto him, Teacher, I will follow thee whithersoever thou goest. 20. And Jesus saith unto him, The foxes have holes, and the birds of the heaven have nests; but the Son of man hath not where to lay his head. Jesus does not question the sincerity of the scribe, but his understanding and his call. He points out the nature of an apostolic life, and leaves him to decide for himself in the face of the reality. 21. And another of the disciples said unto him, Lord, suffer me first to go and bury my father. 22. But Jesus saith unto him, Follow me; and leave the dead to bury their own dead. Could it be that the person here was already following the Lord, but when he heard what Christ said about the hardships that his followers could expect, his enthusiasm chilled, and he offered an excuse which would give him permission to go home?

THIS CURIOUS WORLD By William Ferguson

FOR THE FRENCH MOTOR HIGHWAYS, IN NORTH AFRICA, IS BROUGHT TO THE SURFACE BY ANTI-CARE IS TAKEN NOT TO REMOVE THE MOUNDS COMPLETELY, AND THE INSECTS KEEP THEM REPLENISHED.

IT is believed that the first men to use bows and arrows were of the Aurignacian race, of at least 25,000 years ago. On the walls of caves, in France and Spain, there are pictures of hunters carrying these weapons, and some of these ancient drawings show animals with arrows sticking in their bodies.
