## Ensol Treatment For Cancer Gets Government Aid

Special Grant Made To Assist Research in Dr. Henry Connell Foundation at Kingston, Ontario

In order to insure a continued supply of "Ensol," the cancer treatment developed and produced by the Dr. Henry Connell Foundation at Kingston, the Ontario Government made a special grant of from \$2,000 to \$4,000 to the foundation for the month of January.

At the same time, the foundation's own clinic which is making additional researches into the treatment is being continued. It is understood that the Connell Foundation has been short of funds to carry on the production of "Ensol" which still is being distributed free. If the foundation was forced by financial reasons to discontinue the work, the Ontario Government clinic would have to close down for lack of supplies.

**OTHER MEANS OF FINANCING**  
Therefore Hon. Harold Kirby, Ontario minister of health, agreed, not only to continue the work of the government clinic but to assist the foundation itself in a financial way for the month of January at least.

It was hoped that before the end of the month the foundation would find other means of financing. Some time ago it was indicated that the duPont interests in the United States had agreed to advance the foundation \$100,000. It is said, however, that this support was dependent upon the foundation securing from the federal government a permit to manufacture "Ensol" for sale. This permit has not been forthcoming.

**DOCTORS SUPPLIED FREE**  
Some 500 doctors throughout the province are said to have been supplied with "Ensol" free by the foundation. They, of course, collect fees from their patients but the Connell Foundation is unable to accept payment without a federal permit.

## Captures Skating Crown

Barbara Ann Scott of Ottawa carried off the Junior Canadian Women's figure skating championship. Dennis Ross, also of Ottawa, carried off top honors in the Junior men's event at the Canadian figure skating championships held in Ottawa.

## Swollen Beans Scuttle Vessel

"They Get Wet and Swell After Danish Ship Damaged by Mine—Sink It"

A cargo of soy beans and not a mine which badly damaged it was the reason the 11,000-ton Danish liner Canada sank off the coast of England.

Captain Carl Knudsen, who was in command of the Canada when it struck a mine near Hull, England, last November, has revealed that chances of taking the Canada into port for repairs were good until 8,000 tons of soy beans were swelled three times their size by sea water.

Even the steel sides of the vessel couldn't stop the swelling.

The plates burst and the Canada sank in shallow water, where later it was cut in two when another ship rammed it.

## Tummy Ache For Burglar

Police of Montebello, Calif., hunting a schoolhouse burglar last week, wondered if they wouldn't find him with a stomach ache. The loot:

Ice cream, valued at \$2.70.  
Four bottles of milk.  
Four jars of cookies.  
Candy, valued at \$7.  
Nine bottles of orange juice.  
Barefoot prints indicated the intruder was a small boy.

## Sunday School Lesson

**LESSON V**  
**HOLDING LIFE SACRED.** (A Principle of Temperate Living)  
Genesis 1:27-31; 1 Corinthians 6:19-20; 2 Corinthians 6:16-7:1.  
**GOLDEN TEXT:** "Ye were bought with a price: glorify God therefore in your body." 1 Cor. 6:20.

**THE LESSON IN ITS SETTING**  
Time—The First Epistle of Paul to the Corinthians was written in A.D. 57, and it is generally believed that the Second Epistle was written not many months later, probably in the same year.

Place—The First Epistle of Paul to the Corinthians was written from Ephesus. The Second was written in Macedonia, possibly from the city of Thessalonica.

27. And God created man in his own image, in the image of God created he him; male and female created he them. We gather from the present chapter that God is a spirit, that he thinks, speaks, wills, and acts. The great points of conformity to God that man possesses are reason, speech, will and power. In the reason is evolved the distinction of good and evil. In the will is unfolded that freedom of action which chooses the good and refuses the evil. God formed the body of man in such a way as to make it a suitable habitation and instrument for its rational tenant. The mind and the body were compatible and complementary. It was specifically the mind of man that was created in the divine image; God is spiritual or physical substance, and so is man's mind or soul.

**Be Fruitful and Multiply**  
28. And God blessed them; and God said unto them, Be fruitful, and multiply, and replenish the earth, and subdue it; and have dominion over the fish of the sea, and over the birds of the heavens, and over every living thing that moveth upon the earth. 29. And God said, Blessed be ye, every green herb for food; and it was so. The words spoken by God to our first parents are in the form of a command: man is to bear children; he is to subdue the earth, he is to have dominion over all living creatures; he is to live physically by the herbs and fruits and cereals which God planted in the earth. Some day the whole creation will be again in perfect subjection to man, as it was ordained to be

at the time of his creation (see Romans 8:18-23).  
**Temple of the Holy Spirit**  
1 Cor. 6:19. Or know ye not that your body is a temple of the Holy Spirit which is in you, which ye have from God? and ye are not your own. Man has not only body and soul, but also spirit. Deeper down than where the soul with its consciousness can enter, there is a spirit-nature linking man with God. In some people it is nothing more than a dormant power, a possibility waiting for the quickening of the Holy Spirit. (We are familiar with the division of the temple into three parts: there was its exterior with the outer court, seen by all men; the holy place, into which alone the priest might enter; God dwelt in the holiest of holies, where none might venture nigh.)  
20. For ye were bought with a price: glorify God therefore in your body. The price or ransom which Christ, our purchaser, paid for our redemption from slavery, was his own soul. Let our bodies be God's so that through one eyes

## Canadian Couple Have Military Wedding in England

Lieut. H. Z. Palmer, of the Canadian Field Artillery, son of Mrs. A. Z. and the late Col. Palmer, of Ottawa, Canada, is pictured with his bride, the former Peggy Crerar, daughter of Brig.-Gen. H. D. G. Crerar, chief of staff at the Canadian military headquarters in England, as they left St. George's, Aldershot Garrison church, after they were married. Trumpeters of the Royal Military College of Music, Ketcher Hall, stand behind them.

shall flash the light of his love. From this lesson we should realize anew the sanctity of the physical body in which we live, the high purpose of physical life as such.

**The Separated Life**  
2 Cor. 6:16. And what agreement hath a temple of God with idols? For we are a temple of the living God; even as God said, I will dwell in them, and walk in them; and I will be their God, and they shall be my people. The city of Corinth was full of temples which were an insult to God. Their idols spoke of and demanded uncleanliness on the part of their worshippers. God is infinitely holy, and demands holiness on the part of those who approach him. Wherefore, come ye out from among them, and be ye separate, saith the Lord, and touch no unclean thing; and I will receive you, and will be to you a Father, and ye shall be to me sons and daughters, saith the Lord Almighty. This separation from the world was not to be physical and local and social, but moral and spiritual. These Corinthians were not to migrate to other cities, but to keep free from the intimacies and fellowships which might ally them with idolatry, and today the Christians are to live in the world, while they are not of the world.

7. I Having therefore these promises, beloved, let us cleanse ourselves from all defilement of flesh and spirit, perfecting holiness in the fear of God. As the source of all defilement, so self-seeking is at the root of all defilement of the spirit.

20. For ye were bought with a price: glorify God therefore in your body. The price or ransom which Christ, our purchaser, paid for our redemption from slavery, was his own soul. Let our bodies be God's so that through one eyes

## FARM NOTES

### USE BETTER SEED

Opposition to ploughing poor marginal land to provide increased crop production to meet wartime needs, was expressed by W. R. Reek, deputy minister of agriculture, at a meeting of the agriculture committee of the Ontario Legislature. "The only way we can capitalize on high and dairy products is to produce more barley, oats, and mixed grains," said Mr. Reek.

"We know definitely that by use of better seed, farmers in Ontario can step up their crop production appreciably," said Mr. Reek.

**THREE-GRAIN DIET**

J. E. Bergey, extension specialist of the poultry department of the Ontario Agricultural College at Guelph, suggests that a single grain diet is not satisfactory for laying hens. The 5 main grains are wheat, oats, barley, corn and buckwheat, any three of which should be used, but oats is the best single grain and should be one of the three used in a feed mixture. Milk is the most outstanding protein food, he said. Others may be meat, fish or liver meal. Minerals, he outlined, may include oyster shell or bone meal and for vitamins, cod liver oil, greens or yellow corn.

## Change Alphabet Into "Phonobet"?

An American Has Now Invented A System He Hopes to Make A Common Language: Symbols for Sounds

The late Frank H. Vizetelly, the famed lexicographer, once said the English-speaking people need a new alphabet, and John E. Leavitt of Cincinnati believes he has it in his "phonobet."

Leavitt, a retired carpenter, machinist and shoe designer, defines the "phonobet" as a "scientific arrangement of letters in a logical sequence according to their sound values and the vocal mechanics of their utterances."

**40 CHARACTERS ARRANGED LOGICALLY**

Believing that a common language—the greatest single factor in establishing and maintaining perpetual peace throughout the world, Leavitt has offered his invention to the League of Nations.

Leavitt prefers English because more than one-quarter of the people of the world use it. But he says foreigners could not master the language until its varieties of spelling and pronunciation are standardized.

**WITH SPELLING AUTOMATIC**

The "phonobet" includes symbols adopted to represent the "orphan sounds" that have no characters in the present English language. It has 40 characters instead of the 26 now in use.

The additional characters, Leavitt says, permit each letter to have its own sound and each sound its own letter in the "phonobet," making all pronunciation and spelling 100 per cent. automatic.

## Wise Bird Lays A Breakfast Egg

A hen which prefers a warm kitchen chair to a cold nest saves N. J. Detweiler, of Middlefield, O., a shivering trip to the henhouse for his breakfast egg.

"Every morning about dawn," says Detweiler, who insists this is no yarn, "this hen scratches on the kitchen door. When I let her in she climbs on a cushioned chair and a few minutes later cackles to announce that she has laid her egg."

Havana, the Cuban capital, which recently celebrated its 425th anniversary, stood as a city 100 years before the first houses were built in what was to become New York.

## Sees Improved Fruit Outlook

Federal Farm Economist Encourages Growers of Niagara

All factors considered, Canadian growers of tender fruits can look forward to 1940 with "a reasonable degree of optimism," W. C. Hopper, chief agricultural economist for the federal department of agriculture told the annual convention of the Niagara Peninsula Fruit Growers' Association.

"A general rise in the level of commodity prices would have a tendency to push up the prices of tender fruit," he said "if we have a long war and a large number of men are taken into service, there is likely to be a significant rise in the prices of all agricultural products."

## POP—Boston Tea Party

## THIS CURIOUS WORLD

**POD CORN**  
HAS A SEPARATE HUSK FOR EACH INDIVIDUAL KERNEL

**THE MIDNIGHT SUN**  
IS NOT LIMITED TO THE TWO POLAR AREAS!  
IT CAN BE SEEN SOUTH OF THE ARCTIC CIRCLE AND NORTH OF THE ANTARCTIC CIRCLE

**THE HIPPOPOTAMUS**  
IS A FRESH WATER ANIMAL, BUT IT WILL TRAVEL THROUGH SALTY SEA WATER FROM ONE RIVER MOUTH TO ANOTHER.

**THEORY**  
THEORETICALLY, the midnight sun is visible only within the polar circles, but due to the fact that the earth is slightly flattened at the poles, combined with the refraction of rays near the earth's surface a person considerably south of the Arctic Circle and north of the Antarctic Circle can see the sun at midnight, at certain times of the year.

**NOTE:** How can poison sumac be recognized?

## MUSICAL INSTRUMENT
