Farmers... BORROWERS

Like ploughing and harvesting, the need to borrow for productive purposes occurs with the seasons. There are numerous purposes for which you may wish to borrow: to meet seed and harvesting expenses; to purchase fertilizer and equipment; to purchase and feed live stock or to finance shipments of livestock, poultry or other farm produce to market; or to undertake farm improvements under the Home Improvement Plan. The manager of our branch nearest you will understand your seasonal needs and be glad to receive your application for a loan.

The A.Y.P.A. held a crokinole social in the parish hall of St. Luke, 12. The fault of this man was not in his being rich and the story says nothing of his getting his wealth dishonestly but the trouble was that his heart was set on his riches and his plans were all for this world. God said to him, "Thou fool this night thy soul shall be required of thee." He had to leave his riches behind and the devil who had led him astray would glory in his downfall. KNOX CORNERS

Our pastor had a good message on Sunday on the parable of the foolish rich man as found in St. Luke, 12. The fault of this man was not in his being rich and the story says nothing of his getting his wealth dishonestly but the trouble was that his heart was set on his riches and his plans were all for this world. God said to him, "Thou fool this night thy soul shall be required of thee." He had to leave his riches behind and the devil who had led him astray would glory in his downfall. May this sad story be a warning to us. Mr Kaye also had an interesting story for the boys and girls on the value of little things.

SCALE OF RATIONS

Calories, vitamins and all elements beloved of dieticians have played an important role in preparing a new scale of rations for the Canadian Military and Air Forces. Plenty of fresh fruit, eggs and milk are contained in the modernized list. A committee of scientists and dietetic experts of the National Research Council of Canada provided the new scale upon request of the Department of National Defence. The new list presents a varied and balanced diet of health-giving foods, in all instances arising from commodities which Canada produces in abundance.

Why do people talk to themselves? One chap explains it: "For two reasons: I like to talk to a sensible person and I like to hear a sensible person talk."
