

Electors of Grey-Bruce

LADIES AND GENTLEMEN;

I am soliciting Your Support in this Election for the following reasons

- A—I believe that the King Government has successfully administered the affairs of Canada and should be returned to office.
- B—I believe that the Canadian war effort has been magnificent. This united effort was only possible under the leadership of Mr. Mackenzie King, who recognized that his most important duty was to maintain the unity of Canada.
- C—I believe that the Government, by the appointment of the Wartime Prices and Trade Board has effectively controlled prices and prevented profiteering—a lesson learned from the last war.
- D—I believe that if peace comes during the lifetime of this Parliament, as we hope it will, the Liberal Party offers the best means of re-establishing trade in Canada and promoting trade with other countries.
- E—I believe that Grey-Bruce requires representation in Ottawa by a follower of the party which will undoubtedly form the Government of Canada.

If you favor such a Policy—
If you wish the King Government Returned

Vote HARRIS

* First name on the ballot.

Owen Sound had 585 persons on relief at end of February. A year ago there were 1956.

The FIRESIDE PHILOSOPHER

- Time dries all tears.
- Don't advertise your good deeds.
- We generally get what we deserve.
- Say neither too much nor too little.
- Advice is the cheapest kind of help.
- Only a small part of what we learn stays with us.
- Nature provides strength enough for most burdens.
- Deeds are greater than words, but thoughts can be greater than both.

CARE OF FARM MACHINERY

(Experimental Farms News)
Statistics compiled from several extensive surveys indicate that farm machinery which is well cared for and properly housed may be expected to give satisfactory service for approximately twice as long as similar machinery which is abused and exposed to weathering elements. Experiments conducted at the Dominion Experimental Station, Kapuskasing, states J. K. Knights show conclusively that the yield of some spring sown grains decreases an average of more than a bushel per day for each day's delay beyond the earliest possible seeding date. It is also known that a definite decrease in yield and in nutritive value occurs when hay or grain is left standing after it has reached the right stage for harvesting. Considering these facts, it behooves a farmer to care for his machinery and have it ready for use when needed. Generous applications of the prop-

er grade of oil or grease preserve moving parts and effect substantial savings in motive power. When left standing outside for any length of time, or when being stored for winter, all metal parts which may suffer from rust should be well smeared with oil, used-crankcase oil being excellent for this purpose.

Adequate housing is essential to preserve machinery from weathering elements. Left exposed, the wood will steadily decay and the metal parts rust, until eventually some part gives way, often causing a costly delay. A shed 50 feet by 24 feet will conveniently house the machinery on an average 100-acre farm. At one end of the shed should be a workshop 20 feet by 24 feet where machines may be repaired on wet days or during the winter. The farmer will be amply repaid if he invests a few dollars in tools and some arrangement for heating the shop, so that repairing and painting may be done in cold weather. If at all possible, mechanical power should be available to operate a grindstone and emery wheel, for well sharpened hand tools and the cutting parts of plows, cultivators, disks, mowers and binders, are much more efficient and save much in the power necessary for their operation.

After use, machines should be cleaned before being housed. Note should be made of any repairs needed, the necessary parts and materials obtained and the machine put in good working order before it will be needed. During the winter, each machine should be taken into the shop for a thorough examination and reconditioning. Frequent applications of weatherproofing, rust-resistant paint will greatly prolong the life of the machine and will certainly add to its appearance.

The good workman derives much of life's enjoyment from doing his work well and from satisfactorily viewing a job well done. This condition can only be when he works with adequate and properly functioning equipment. Much truth lies in the old adage that a poor workman grumbles at his tools. Find a successful farmer and you will find a good caretaker.

OWEN SOUND 100 YEARS OLD

Owen Sound will be 100 years old in a few months. John Telfer was appointed land agent for this district in 1840 by Lord Sydenham, then Governor General and he arrived in Owen Sound early in the fall to take up residence here. Telfer was the first white man to take up permanent abode there and was quickly followed by hundreds of others, as land in the surrounding township was taken up.

THE CAMPAIGN CLOSES

Before another issue, the Dominion election of 1940 will have passed into history, after one of the quietest campaigns on record. No doubt all the candidates are working hard, under unusual difficulties of travelling at this season, but few others appear to be much excited about it, or over-interested.

It is generally anticipated that Prime Minister Mackenzie King will be returned to power with a safe majority. We believe the Liberals, while not holding their present unprecedented lead, will have a few more members than all other parties combined. There is little difference of opinion of the importance of the issue before the electors. "How best to marshal our energies to win the war." The issue has resolved into a controversy as to which party is best able to conduct the war—the Liberals under Mr. King, or National Conservatives under Manion. There is no doubt as to whom the electors should choose. Premier King with an experienced cabinet around him and close cooperation with Britain, is much to be preferred to Mr. Manion's National Government of all parties—of unknown personnel—who are liable to have varied viewpoints.

In Grey-Bruce, the contest promises to be closer than in 1935, with all candidates picked as winners in their own ranks. Miss Macphail had a majority of 1484 last time; it is generally admitted it will be cut, but will it be wiped out? Some think so, but personally we think that Miss Macphail has best prospects, if the roads hold fair, and election day is fine. If stormy and rural vote is cut down, it's hard to guess how the race will go. The vote in the towns will be polled 90 per cent, no matter what the condition of weather or roads.

GONE WITH THE WIND!

(Teaswater News)
The caption to this article is, and has been used, on many occasions and in various ways. Let us acquaint you with the way we are using it in this case.

By accident, and you can bet it was purely by accident, we stumbled upon a case where a local business place had purchased certain printed stationery from a city firm. Now that in itself is quite all right, as anyone has the right to purchase where they please. Same individual, however, came to the News one day last year, complaining about outside opposition coming in and stealing their rightful trade. It was suggested that the News do something about it, and try to persuade Teaswater public to buy at home. As our readers know, we have endeavoured throughout the past year to show the public the advantage of home purchasing, through these columns.

And yet this is what we get in return. The favour-asking business place passes us by when they have a little printing to pass out. May we pass to them a word of sound advice—When you buy at home your money stays here and you benefit indirectly from it again yourself, but when you pay out to an outside source it's "Gone With the Wind"!!!

SIMCOE PROV. MEMBER MAKES CHARGE

One of the wildest addresses we have listened to for some time was that of a minister, Rev. Downer of Dutton on at the Tory meeting here Saturday. Some of his assertions, which he made no attempt to prove, were:

"Our local market is flooded with American bacon. The Gov't doesn't control bacon price. It says 'Grind the poor old farmer down; he'll vote Liberal anyway.'"

"It costs 2c more per bushel to put Can. barley into Halifax than it does to send American barley to Copenhagen, Denmark."

"I challenge anyone to name one thing the King Gov't. has done to help the farmer," and again "I challenge anyone to show one thing the King Gov't has done for the workingman."

"A cabinet minister, Hon. Mr. Euter, welcomed the German Nazi Congress to Kitchener 2 years ago. Is that the kind of man you want in your government?"

"In the first five months of war, the Dominion Gov't. let 37 million dollars worth of war contracts to One-bec, and only 13 million to Ontario."

One thing we must say about the King Gov't. and the present war—there has been no sudden increase in certain commodities. No matter what politics a man is, this is one fact we should all appreciate.

The Prov. Dept. of Highways is worrying, because despite frequent warnings, the demand for new motor licenses and permits remains the lowest in the province's history and overcrowding is expected around March 31st. If spring weather were here, the rush would be on, but since winter persists, few are at present in the action. Like ourselves, most wait until it is compulsory to buy 'em.

This so-called "National Gov't." hopes to gather all parties to its support, yet all its candidates are Conservatives. Rev. Downer of North Simcoe hopes the title will fool the electors, when he says "Let's forget our party politics now and vote for National Government." You can still be a Liberal or U. F. O. and vote for National Government. Of course they can, but few Liberals or U. F. O.'s. are so easily hoodwinked.

It is now an offence punishable with a fine of not less than \$25.00 for anyone to sell or give away unpasteurized milk or cream, according to the Midway Gazette. This will mean that a farmer friend who contemplates visiting relatives or friends in the village will not be able to present a jar of milk or cream to the householder. They will now either have to bring in butter or buttermilk, but very few farmers make their own butter, so perhaps it will have to be a basket of potatoes or a bag of turnips.

If you happen to be a man, it's likely that you will agree with us, when we make the statement, that we do dislike going into a store, that is piled high with articles that the ladies wear, when we are looking for, perhaps a pair of shorts and a couple of undershirts, for ourselves. We have nothing at all, against what ever it is that fashion decrees, that ladies should wear, not at all, in fact we have to hand it to the ladies, they dress much more sensibly than we men do, who still continue to pile on the clothes, almost an inch thick, in spots. But we like to buy those clothes in a men's store with men clerks. With this as an introduction perhaps you will be able to understand, the ladies' attitude toward the Franchise. They decide to go out and vote, but when they arrive at the polling booth, there is nobody but men there, as officials. It remained for Waterloo to do something about it, and we understand, that they have appointed all Lady Poll Clerks. It will be interesting to learn, whether this innovation will bring out more of the feminine vote, or not. We think it a real idea, and suggest that it be given a trial, locally. We would even go farther, and suggest that the best looking girls possible be appointed for this position. In that case not only would it bring out more lady voters, but it should attract more men voters, as well.—J. A. Strang in Harrison Review.

Later in the evening lunch was served from a table centred with the Aladdin lamp and rose-colored candles in silver holders at either ends, and a bride's cake at the side made by Mrs. McArthur for their anniversary. The bride's cake decorated with white icing and silver leaves and beads, made for the occasion by Mrs. Jim Crutchley, owing to weather conditions, did not arrive until the next day. The following evening Mr. and Mrs. McArthur were host and hostess to a little dinner party. We all join in wishing them many happy returns of their wedding day.

ROCKY SAUGEEN U. F. W. O.
The regular monthly meeting of the Rocky U. F. W. O. Club was held at the home of Mrs. Robert Lawson, March 8th, with 20 ladies present. Mrs. Nell McLean presided. The roll call was answered by each member giving their favourite dessert.

Mrs. L. McLean and Mrs. T. Lander were chosen captains for a copper contest. Coppers to be brought in at April meeting. Proceeds of same to be used to buy yarn for Red Cross work. 9 pair of socks, 1 sweater and 1 scarf were completed since last meeting. Ladies who did not knit gave a donation of money to be used in purchasing material.

Mrs. J. A. McCuaig gave a very instructive paper on "vitamins". Mrs. Geo. Noble continued the reading of a portion from H. H. Hannam's book on "Co-operation". Mrs. L. McLean put on a "quiz" which proved both educative and humorous. Mrs. Arthur Edge led in community singing.

The meeting closed with the National Anthem after which Mrs. Lawson and committee in charge of program served lunch. Next meeting to be at Mrs. Jos Crutchley's.

There were three girls in the family and some boys, but the boys were away. Could you kindly enquire if any are living still? I myself am 73 the world since then. I would like to see some of the girls, if yet living. Their names were Minnie, Ann, years old, have been half around nie and Barbara Wilcoxon.

I am married and have a son 48 years old holding an important position in U.S.A. I've been a railroad man and followed this occupation for many years. Am now living on a farm at West Lorne, Ont. My wife is still with me.

There are few I still remember—a Dr. Gun, and Mr. Lawson who had a farm close to Mr. Wilcoxon. Mr. Lawson was my Sunday School teacher. Please advise me for putting you to any trouble.

Ronald Campbell West Lorne.

ZION

Mrs. Jim Crutchley of Dornoch spent the weekend with Mr. and Mrs. Hugh McArthur.

Mrs. W. A. Robinson returned Saturday from Markdale Hospital and is at present recuperating at the home of her parents, Mr. and Mrs. Thos. Glencross, from a nerve and heart condition.

The monthly meeting of the Zion Women's Institute was held Thursday, March 14th at the home of Miss Kate MacDonald, 17 ladies present. Mrs. W. J. Ritchie presiding. Over 30 pairs of socks, a number of wristlets, a sweater and scarf were brought for the soldiers by willing knitters. It was decided to hold group socials in different homes on March 27th, to make money for war work. Mrs. W. G. Firth and Mrs. Victor Williams donated tops for two quilts to be made up by the institute workers and sent away for relief. The program was made up by a paper on "Australia" by Mrs. Howard Ritchie and a paper on "Holland" by Mrs. J. C. Cook. Mr. Hector MacDonald gave a talk on "Municipal Affairs" and also told how in pioneer days, the vote was given by open vote. It was an interesting talk and was much enjoyed. Roll call: "A place I would like to visit." Miss McDonald and assistants served lunch at the close.

Miss Katie May Firth of Durham was a recent visitor with Mr. and Mrs. Ben Mays.

A few relatives and neighbors gathered at the home of Mr. and Mrs. Hugh McArthur last Friday evening as a little surprise, it being the eve of their silver wedding anniversary. The honored couple were presented with a rose-colored Aladdin lamp by Mr. R. T. Cook on behalf of the gathering. "For they are jolly good fellows," and "We won't go home until morning" were sung. Mr. R. T. Edwards made a speech and also told a story. A duet was sung by Mrs. R. T. Cook and Mrs. Thos. Glencross. Hugh their told of some of their experiences in the West, where they lived for a few years after their marriage, before coming East again. The rest of the evening was spent in chat, sing-song and games.

Later in the evening lunch was served from a table centred with the Aladdin lamp and rose-colored candles in silver holders at either ends, and a bride's cake at the side made by Mrs. McArthur for their anniversary. The bride's cake decorated with white icing and silver leaves and beads, made for the occasion by Mrs. Jim Crutchley, owing to weather conditions, did not arrive until the next day. The following evening Mr. and Mrs. McArthur were host and hostess to a little dinner party. We all join in wishing them many happy returns of their wedding day.

MULOCK

True and heartfelt sympathy is extended to the bereaved friends of the late Mrs. Arch. McDougall who passed away at the home of Mr. and Mrs. Harry McDougall, Toronto, Monday afternoon of this week. She was a woman richly endowed with those splendid principles which enshrine her character and personality in the hearts of her friends. She had long contemplated death. Death to her was the meeting with her Saviour face to face and a reunion with her dear ones of long ago. Thou wert all faith and hope and love—

To such there is no death. Mr. and Mrs. Irvine Sharp and little daughter Jalna of Durham, spent Sunday at the home of Mr. and Mrs. Rex. Sharp.

Mr. and Mrs. Clifford Adlam visited Sunday with Mr. and Mrs. James Stinson of Crawford.

Miss Andrew Hagie accompanied by Mrs. Melvin Pego, visited friends at Lamash on Sunday, the former with Mr. and Mrs. Eric Ashton, the latter with Mr. and Mrs. Chris. Pogl.

The B.Y.P.U. members held a successful crokinole party at the home of Mr. and Mrs. Spence Hopkins last Friday evening. Miss Isabel Hopkins won the girls' prize and Mr. Wallace Hetherington the boys'. A couple of contests were solved at the close and a delicious lunch served. A vote of thanks was tendered Mr. and Mrs. Hopkins for giving their home for the occasion.

A joint meeting of the Ladies' Aid and Mission Circle was held in the church on Thursday afternoon. The president, Mrs. Gibbons, presided. Prayer was offered by Mrs. Anderson, scripture reading by Florence McLean, and correspondence was read by Mrs. Fulton. Next meeting will be held at home of Mrs. Wm. Anderson. All members are requested to make something to be sold at this meeting, fixing the price of the article to be sold.

Mrs. H. Crickington presided over Women's Mission Circle and offered prayer. Readings were given by Ulva MacDonald, Florence McLean and Mrs. Gibbons, and the meeting closed with prayer.
