where now attention is paid to these make a more beautiful Canada. friends of the plant kingdom. If children are taught to love flowers The first Bren Gun has been manuand become more familiar with factured at the John Inglis Company them they will be filled with love plant in Toronto. The company is for these things and there will be five months ahead of schedule, but less room in their hearts and minds it will be some time yet before mass for the things that hurt and destree production gets under way. There

Canada is a land of rare natural are 161 machined parts to the Bren beauty from the Bras d'Or Lakes in Gun, all as delicately precisioned a Cape Breton Island to the Mountain the mechanism of a watch. Ranges of the Pacific Coast. Nature has endowed this country with the be found anywhere in the universe. mountains, lakes, streams, forests, plains, waterfalls, all are to be found in great abundance. things which are unsightly and unlovely are made by man and it would seen that the least we can do is to make these man-made places sufficiently attractive that they will, in some measure at least, be in keeping with the great natural beauty to be found throughout this great Dominion.

There are many good reasons why making the home surroundings more attractive. In the first place, the money spent for nursery stock or other planting material is a good in vestment and will increase the value of home to a much greater extent than the amount spent for planting Further, iz the full and satisfactory life there must be found time for mental and physical relaxation and where can one find a more satisfactory place to get away from war-time stress and strain than among the flowers of the garden.

Another reason for putting forth a special effort in home beautification work just now is to make Canada more attractive to tourists. The tourist trade from the United States is very important to Canada at the present time and anything that can be done to help increase it will be
