PLOWS, CULTIVATORS, PACKERS

- Adjustable Tread, Front and Rear
- Oil Filter
- Independent Rear Wheel Brakes
- Muffler
- Oil Bath Air Cleaner
- Ignition Switch and key

You are going to make more profit and going to have easier and shorter working hours. You'll have more money—and more time to enjoy it!

For here at last is an economical, easy-to-operate, and practically automatic unit of mechanized farm equipment.

Farm experts who have operated or witnessed the performance of the Ford tractor with Ferguson system agree with Henry Ford when he says it takes the drudgery out of field work; that it can materially cut costs of production.

HERE IS A SUGGESTED LIST OF MACHINES USING BELT OR DRAW BAR TRACTOR WILL OPERATE

- | | |
|--|-------------------------------|
| 6-Foot Tandem Discs. | 22 x 36 Separator. |
| 10-Foot Single Discs. | Hay Baler. |
| 5 or 6-Foot Cultivator. | 10-Inch Hammer Mill. |
| 6-Foot Two-section Spring Tooth Harrows. | 10-Inch Grain Grinder. |
| 5 or 6-Foot Combine | 17-Inch Ensilage Cutter. |
| 6 to 10-Foot Binder with power take-off. | Mowers. |
| 10 or 15-Foot Shoe Drills. | Any Standard Machine. |
| | Sprayers with power take-off. |

Why? Because tractor and implement operate as one compact unit. The Ford Tractor, with Ferguson system "downward line of draft" gives better control, lessens soil packing;

really lightweight material can successfully be used in both tractor and implement. The system can easily be made to operate efficiently under tough soil conditions; safely on ground full of hidden obstructions.

The Ford tractor with Ferguson system is completely different from anything you've ever seen. It will do things you never thought possible. Come on in—watch it work and get the facts first hand. We'll arrange an "on-your-field" demonstration. Don't put off—let's talk it over!

MIS: MACPHAIL FOR WESTERN SEAT?

According to a news despatch from Saskatoon, prospects are good for Miss Agnes Macphail becoming the United Reform candidate in Saskatchewan by-election; if chosen by the convention, her chances of election look fairly bright, as Rev. W. G. Brown who died a few weeks ago was the only U. R. candidate elected over Liberal and National Govt. opponents.

A fly in the ointment, however, is the Government's announcement that no by-election will be held before this year's session for the two vacant seats, thus no campaign is probable before fall.

Most of Grey-Bruce electors, we believe, will wish her all success should she be the candidate. She has hosts of friends throughout the Dominion who wish her well. Now in her prime, with eighteen years parliamentary experience, she while still pursuing an independent course, would add debating strength and interest in proceedings at Ottawa, where an overwhelming Liberal majority and a weaker opposition are back in power.

DAYLIGHT SAVING

AGAIN WITH US

While Durham nor any other at the homes and pick up on the municipality in the Western part of curbs, all refuse placed in suitable Ontario, except Fergus and Guelph, receptacles for lifting. Clean yards has adopted daylight saving time would give the incentive to house-

holders to make their premises more attractive, all of which would mean a more desirable Durham in which to live.

YOUR GREATEST ASSET!

The greatest of your assets, business or personal, is your credit, yet you cannot lock it in a vault nor insure it against loss. It is a part of you. You created it and you may destroy it. Your credit is something apart from what you are worth in money. Your property statement does not create your credit; it merely settles the question of "how much."

CLEAN UP TIME IS HERE

There is another war that is being waged on a big scale in Canada and one that affects almost every home. It is the annual Spring house-cleaning drive and the members of the fair sex are waging "blitzkrieg" against the common enemy, dirt. Soon the campaign will be extended to yard cleaning and the removal of winter-collected debris and rubbish from sheds and basements. This clean-up should be extended to every house lot in town and to be effective as possible, should have municipal assistance. The municipal council could follow the practice of numerous Ontario towns in setting aside a "Clean Up Week". Arrangements could be made to have a truck call
