

## Dutch Display At Exhibition

Netherlands' Exhibit Is Expected To Arrive For the Opening of the C. N. E.

Even though the Netherlands government has prepared for any eventuality in the European war situation and is ready to defend itself against invasion, that country will be represented again this year at the Canadian National Exhibition according to a cable received at the C. N. E. The trade display will not be made by the Netherlands proper but by the Netherlands East Indies which comprise Java, Madura, Borneo, Sumatra and Celebes.

**NETHERLANDS, EAST INDIES**

Netherlands East Indies authorities in Batavia, Java, capital of the East Indies colonies, have reserved display space in the International Pavilion amounting to 2,400 square feet. Last year the Netherlands exhibit was among the most impressive in the International Pavilion and it was proposed to return this year with an even more comprehensive display of the products of the country. Not deterred by the situation in Europe the Dutch colonies in the East will endeavor to expand their trade in the Western Hemisphere by means of displays at the Canadian National Exhibition this year. Work has commenced on the preparation of the exhibit which will be shipped in time to arrive in Toronto early in August.

## Plan A Trip To The Coast

Uncertain How to Spend Your Summer Holidays? Canadian Rockies and "Inside Passage" Up the Pacific Are Ideal Vacation Objectives

Those who are undecided whether they will spend their holidays this summer at the seaside or mountains will find a solution of their problem in a folder just issued by the Canadian National Railways entitled "Canadian Rockies and the Pacific Coast" according to C. W. Johnston, general passenger traffic manager of the company. "The magnificent Canadian Rockies and the added charm of delightful cities and resorts and the wonderful coastal scenery of the famed 'Inside Passage' route to Alaska complete the ideal vacation of two weeks or longer presented in this folder."

**Triangle Route**

The Triangle Route of the Canadian National Railways covers a 2,000-mile travel trail across four different routes, from either Jasper, Alberta, or from Vancouver, B. C. It also takes to water and, by steamship, follows the Inside Passage for the full length of the mountainous coastline of British Columbia. Then if you decide on the Alaska cruise of 9 days duration, you continue on the same Inside Passage route up to Skagway, Alaska, the land of gold and romance.

Spiced with a variety of scenery and activity, it is well worthwhile to plan your Triangle Tour ahead for the maximum of vacation pleasure," stated Mr. Johnston. "The colorful and illustrated folder supplying all details."

## How Can I?

BY ANNE ASHLEY

Q. How can I revive lemons that have become dry and hard from standing?

A. Cover the lemons with boiling water for a few minutes.

Q. How can I renew old raveled yarn?

A. Raveled yarn can be made to look like new by wrapping it in a towel and then placing it for a short time in a colander or a steamer over a vessel of hot water.

Q. How can I treat a corn?

A. A small piece of lemon bound to the corn and changed daily for three or four days is said to loosen it. Then soak the foot in warm water and the corn can be removed.

Q. How can I make celery very tender for serving?

A. Allow the celery to lie in water for about seven or eight hours before serving, and it will be very tender.

Q. How can I remove tar from the hands?

A. Rub them with the outside of a fresh lemon or orange peel. Dry immediately. The oil in the peeling will dissolve the tar and it can then be rubbed off.

Q. How can I prevent cocoa from lumping?

A. Cocoa will not lump if a little sugar is mixed with it before pouring on the milk or hot water. A pinch of salt will greatly improve the flavor.

## Modern Etiquette

BY ROBERTA LEE

When a young woman is traveling alone and a man persists in trying to form an acquaintance, what should she do?

1. Is it vulgar to be extravagant?
2. Should a person always rise when performing an introduction?
3. Would it be all right for a girl to send a young man a birthday card, even though he has never sent her a card or given her a gift?
4. If a bride has no relatives nor intimate friends, who should issue the wedding invitations?
5. From which side of the guest, and with which hand, is the plate removed from the table?

**Answers**

1. Show by her indifference that she is not interested. If the man persists, she should ask the conductor to change her seat.
2. Extravagance could not be called vulgar unless there is an ostentatious display to impress others. Extravagance is many times unwise, where one cannot afford it, and should not be cultivated.
3. Yes, always. 4. Yes; there is nothing wrong in doing so. This is merely a thoughtful gesture, and the young man would be presumptuous to think it anything else. 5. Under these conditions the invitations may be extended by the girl and her fiancé. 6. From the left side of the guest, and with the left hand.

## Newmarket Editor Wins Trophy For Best Editorial Page

At the annual convention of the Ontario-Quebec division of the Canadian Weekly Newspapers Association in Windsor, Mr. Andrew O. Hebb, of Newmarket, (right), editor of the Newmarket Era, and new president of the division here seen with Mr. Bruce M. Pearce of Simcoe, was presented with the Pearce Trophy for having the best editorial page.

## Swing Relegated To Phonograph

Radio Dance Orchestras Have Nearly All Gone Back To "Smooth" Style

Swing is over, say the advocates of the "smooth" or "commercial" style of popular music. Insofar as wide public acceptance of swing is concerned they are probably right. What has actually happened, however, is that swing and jive have gone back to the places they came from to the musicians' informal sessions, to the "jake boxes" (pay phonographs), to college dormitory disk collections, or to whatever sanctuaries the "cats" or "swingers" have elected to pursue their art.

So, except for warmer radio dance orchestra sessions in the "wee sma" hours, the phonograph, for all practical purposes, remains today the only medium where one may hear genuine swing.

## What Science Is Doing

**THE ROLE OF SCIENCE**

"The role of science in the culture of this continent is three-fold," last week declared Dr. Arthur H. Compton, Chicago's cosmic ray man, one of the world's best known scientists. "First, it supplies more adequate means of living, giving men longer life, better health and a richer variety of experience. Second, it stimulates man's social growth by rewarding more abundantly co-operative effort and punishing more severely his antagonisms. Third, science serves as a direct means of expression of the human spirit."

**SILVER KILLS GERMS**

Discovery has recently been made of the secret of the ability of silver to kill germs. Silver is widely used to sterilize drinking water supplies.

The discovery proved that a single atom of silver can kill a living cell, despite the fact that the cell is as much bigger than the bit of silver as Mt. Everest is larger than a mouse.

**HUMAN GUINEA PIGS**

Some 200 staff members of the Department of Pensions and National Health at Ottawa are acting as human guinea pigs to test immunity to diphtheria.

The 200 have given blood samples and submitted to injections of a new anti-diphtheria toxin.

The toxin varies slightly from that approved by the world health organization of the League of Nations, and if proved effective will be released for national use.

## HEALTH TOPICS

**Whooping Cough Test**

The recent development by a Montreal scientist of an effective skin test to determine a child's susceptibility to whooping cough was described last week by Dr. Lyon P. Strem of Montreal. Dr. Strem's discovery marks a new advance in the control of the disease.

While the present test will only determine the susceptibility of a child to whooping cough, it may lead to the development of a new type of vaccine for immunization and a serum for treatment of the active disease.

**Unhealthy Noise**

Professor H. E. Heilly, McGill University, in a recent radio address dealt with the effects of noise on human health.

Noise has been instrumental in bringing about a collapse of the nervous system, the speaker declared.

He said also that noise impair-

ed the digestive system and caused occupational deafness among printers, bus drivers, road makers and traffic policemen. He cited Edison who said that he believed mankind would grow deaf as city noises increased.

The address was closed by the statement: "Less noise, better health, more wealth."

## CLASSIFIED ADVERTISEMENTS

**AGENTS WANTED**

LIGHTNING ROOF AGENT WANTED to sell Phillips Lightning Protective Coatings. Phillips Company Limited, 22 Osborne Avenue, Toronto.

**Just Released From Pawn**

MEN'S SUITS LATEST STYLES in all colors. Cost when new up to \$75.00. A real opportunity for you to pick up your Spring suit for \$12.00. Come in and see when in the city. 100 Dundas Street East, 1st floor. Canadian, Hughes and Hughes, Post, 255 Yonge, Toronto, Ontario.

**ARTIFICIAL LIMBS**

HANGER LIMB CO., 124 WELLINGTON Street West, Toronto. Improvements without shoulder straps. Free catalogue.

**BAKERY EQUIPMENT**

BAKERS' OVENS AND MACHINERY also rebuilt equipment always on hand. Terms arranged. Correspondence invited. Hubbard Portland Oven Co., 104 Bathurst St., Toronto.
