

FOREIGN EXCHANGE ACQUISITION ORDER IMPORTANT NOTICE

As announced by the Minister of Finance, the Foreign Exchange Acquisition Order, 1940, has been enacted by Order-in-Council under the authority of the War Measures Act.

Unless exempted by the Order, every resident of Canada who, on May 1st, 1940, has any foreign currency in his possession, ownership or control, whether in Canada or outside Canada, is required forthwith to sell such foreign currency to an Authorized Dealer (i.e. a branch of a chartered bank) for payment in Canadian dollars at the official buying rate of the Foreign Exchange Control Board.

"Foreign currency", for the purposes of the Order, means any currency (excluding coin) other than Canadian currency and includes bank notes, postal notes, money orders, cheques, travellers' cheques, prepaid letters of credit, bank drafts and other similar instruments payable in any currency other than Canadian currency, and also includes any amount in foreign currency of which a resident has a right to obtain payment by reason of a deposit, credit or balance of any kind at or with a bank, savings bank, trust company, loan company, stockbroker, investment dealer or other similar depository.

The Order does not require the sale of any foreign securities.

The Order does not affect any foreign currency, deposit or securities of any non-resident of Canada and for greater certainty the Order expressly declares that a non-resident visiting Canada for business or pleasure for a period or periods not exceeding six months in the year continues to be a non-resident for the purposes of the Order unless such person enters or has entered Canada with the intention of becoming a permanent resident.

No resident is required to sell any foreign currency if he satisfies the Foreign Exchange Control Board that he held such foreign currency on May 1st, 1940, solely as trustee or agent for a non-resident and that the non-resident's interest therein had not been acquired from a resident since September 15th, 1939, except in a manner approved by the Board.

Under certain conditions stipulated in Section 1 (b) of the Order, a resident who is not a Canadian citizen may be granted exemption, but only after application for exemption is approved by the Board.

No life insurance company incorporated in Canada is required by the Order to sell any foreign currency which it needs for the purpose of carrying on its business outside Canada.

Further particulars may be obtained from branches of chartered banks. Any resident who has any foreign currency in his possession, ownership or control on May 1st, 1940, regardless of amount, should consult his bank at once in order to ascertain the extent to which he is affected by the Order.

HOL. WEED MEETINGS IN EVERY COUNTY

Having in mind the serious footlock gained in Ontario by noxious weeds during and after the last great war, the Ontario Dept. of Agriculture is planning a provincial-wide weed control campaign for 1940. Weed meetings have been arranged for every county in the province this month at which all phases of the weed problem will be discussed by provincial, federal and local officials, who point out noxious weeds must not be allowed to curtail war time food production.

It is expected that every member of municipal councils, weed inspectors, and all road officials will attend and a special invitation is given to farmers to bring their weed problems to their county meeting. Meetings will be held at ten o'clock, Standard Time, on May 23rd, for Grey Co. in Department of Agriculture office, Markdale; and on May 27th in Walkerton for Bruce Co.

A CHIRRUPODIST

Two boys halted before a brass plate fixed on the front of a house. On it was inscribed in bold letters the word, "Chirrupodist."
"Chirrupodist!" remarked one of them. "What's that?"
"Why," replied his companion, "a chirrupodist is a chap who teaches canaries to whistle."

SUNNYVIEW INST. TO PLACE FIRST AID KITS IN SCHOOLS

The Sunnyview Branch of the women's Institute members gathered in the home of Mrs. R. Noble with Mrs. J. Petty presiding.

The speaker for the day was Mrs. Nelson McGuire of Holstein, who gave a very timely paper entitled "A Woman in a Garden." This was followed by the singing of "In the Garden" by Mrs. John Petty. Mrs. Wallace Adams was also present and gave a humorous reading. The branch decided to place first aid kits in three schools, Ebenezer and Huton Hill in Bentinck and Watson's Normandy. They decided to continue their work in connection with the Candain Greys Chapter of the I.O.D.E. The contest of the year was won by Mrs. A. McDonald's side and Mrs. J. W. Petty's side will put on the next program and lunch. Mrs. Adams of Holstein drew the ticket on the quilt which brought in some \$35 and the winning ticket was held by Stanley Mountain. The secretary-treasurer reported the finances for the year and that they had over \$56 on hand. Twelve meetings were held during the year.

Mrs. McGuire presided for the election of officers which are as follows: President, Mrs. A. McDonald; vice-president, Mrs. Thos. Wallace and Mrs. Walter McAllister; secretary-treasurer, Mrs. C. McAllister; auditors, Mrs. Arthur Petty and Mrs. Arthur Mountain; pianist, Mrs. H. Caldwell; district-director and press reporter, Mrs. J. Petty; directors and conveners of standing committees, Mrs. J. W. Petty, Mrs. S. Mountain, Mrs. T. Lawrence.

O MOTHER MINE

(Mothers' Day, Sunday May 12, 1940)

This is your day, O Mother Mine!
I wish that I might cull
The sweetest flowers that ever grew
And send them every one to you:
But even the fairest flowers that blow

Only a little of my love could show,
O Mother Mine!

This is your day, O Mother Mine!
I wish that I might make
A symphony of glorious sound
Which, echoing all the world around,
Would tell of all you mean to me,
And all you make me wish that I could be.

O Mother Mine!

This is your day, O Mother Mine!
I have no flowers nor song:
Only Devotion's gifts so true—
A heart that loves and honors you,
The thought that all the sky is blue
While God's in Heaven and I still have you,

O Mother Mine!

—Alice Rogers Collins, (of Walkerton, formerly of Mt. Forest.)

CHEERFULNESS

"Cheerfulness keeps up a kind of daylight in the mind," wrote Addison. It is a quality of cheerfulness that it becomes or most avail when times are dark and difficult.

And the verdict of modern medicine does not fall so very far short of the assertion of Arthur Murphy made nearly 150 years ago: "Cheerfulness, sir, is the principal ingredient in the composition of health."

As with other spiritual properties it may be had on terms that are within common reach. Few knew its sustaining value better than Stevenson, who wrote:

"Cheerfulness arises from several causes: From health, but it is not dependent on health; from good fortune, but it does not arise solely from that; from honor and position, but it is quite independent of these. The truth is that it is a brave habit of mind, capable of being acquired and of the very greatest value, not only to oneself but to those about you."

It was a like brave habit of mind that He, who brought more cheer to the world than any other, imparted to His followers. On the same occasion that He revealed to them that a Comforter should be available in times of need, He said, as it is recorded in John XIV, 27: "Let not your heart be troubled, neither let it be afraid."

FROM A LETTER TO THE ST. THOMAS TIMES-JOURNAL

I am of the opinion that one of the most characteristic and effective voices on Parliament Hill has been temporarily blacked out. To this reader it is more the pity—because obviously, there are lamentably too few voices of that type there!

I am a westerner; never met the lady in question, but I would like to say this, that if Agnes Macphail could be induced to put her name forward in my home constituency, where the member-elect (Rev. W. G. Brown) has, unfortunately, been taken from us I think our people out there would choose this finer rural voice. Here would be a new feather in the west's parliamentary bonnet!—Saskatoon.

Simcoe restaurant keeper received a cheque from a local man, but it was no good. So he pasted it in his window so all could read, and added a notice: "Can afford to drive a car, but can't afford to pay his cheques." The restaurateur refused to take it down, and court action has been started. Of course one can make no comment about a case waiting to be tried, but we dare say the people in Simcoe have attended to that.

SEEDING OF VEGETABLE GARDEN

(Experimental Farms News)

Many attribute failure of seeds to germinate to poor seed. While it is true many seeds do fail to germinate, it is not always the fault of the seed, but too often the fault of the sower by sowing too deep or not deep enough, states J. Gallaher, head gardener, Experimental Station, Kentville, N. S.

Preparation of the seed bed or rows is very important, having to do with the germination of seed.

Assuming the land is ready for seed sowing, having been ploughed and cultivated (or dug up with the spade, forked over, and raked off), unless this loose ground has been made fairly firm by treading (or levdeller in case of larger area), the seed will be liable to rot in this loose ground following rains and cool weather at this time of the year. A garden that is ready for seed sowing or planting should be in a condition that one can walk over it and not sink to the ankles in soft ground. Seed for any purpose should be sown in rows, whether in the open or in flats in house or hotbed.

A garden line is necessary to keep the rows straight, and should be taut, not loose. A marker should be used. This could be a 2 in. by 1 in. stick six to eight feet long, with a notch ½ inch deep on the 1-inch side at one end and a notch one inch deep on the same side at the other end. Place the notch over the line and push the stick along the line, which will leave a drill for sowing. The ½ inch notch should be used for small seeds, and the other end for larger seeds such as peas, beans, etc. If a deep drill is required, bear down heavily on the marker. If a shallow drill is required, do not bear down on the marker. Remove the line to next row and so on until rows are all ready for sowing.

The rows should be spaced the distance apart required for hand or horse cultivation, whatever method is used for cultivating and keeping the weeds down. There are many devices advertised for sowing seeds, but for the average person, when there is not a large area to sow, the package the seed is in is as good (sometimes better) than any device on the market. Open end of package, bend the sides up so the package will be concave, and with a gentle quivering of the hand the seed will come out thinly.

To cover the seed, take an iron rake with teeth uppermost and draw it along the drill. This will give enough covering, then take the rake by the handle (head down and beat the surface of drill, making the soil firm around the seed.

The benefit of fairly firm to firm soil is that when seeds have germinated and roots commence to form they prefer this environment, rather than loose open soil where the tendency is for this loose open soil to dry out if drought sets in.

As to the proper depth for the various kinds of seed to be sown, a good plan is to sow all seeds about three times their own depth.
