WHEN A NATION IS AT WAR

Canada is we think, fairly well aroused over the war situation and the Budget speech brought down in Parliament on Monday, will make us pinch our dimes until it hurts. However from direct taxation, we can still do personal service in many humble ways and as we hear worthy ideas and suggestions, we are going to cite them here, with a view of passing the tip to some other district. Here are a couple of suggestions for this week:

A community not far from Durham, staged a big Red Cross tea recently. One of its business men, previous to this tea, solicited his brothers in business to deny themselves the price of their smokes for a week as a contribution to this tea. \$40 was the outcome of this gesture.

Here is another idea and a good one: Four counties of the Niagara peninsula, Lincoln, Wentworth, Welland and Haldimand, have such united welfare among their Women's Institute branches they are making a donation of 20,000 four pound tins of home-made strawberry jam, for the Canadian divisions overseas.

FRANCE SURRENDERS: BRITAIN CARRIES ON

Most disheartening was the news early this week of the Petain Government's complete capitulation of France; its army, air fleet, navy and resources to Germany. Why the French gave such power to the senile 84 year old Petain to be their premier and sacrifice the nation, is a mystery. Meanwhile the French colonies will fight on with Britain and her Dominions for European liberation. Much of the French air force fled to Africa; the French navy is uncertain, but Britain hopes to obtain it, and a new provisional French government has been set up in Britain. These are dark days for the Old Land and all democratic peoples. Britain is now the bulwark of civilization, and if she can withhold Hitler's fury the next three or four months, prospects should be bright for the overthrow of Nazism, and for a free world.

NEW BUDGET HITS LUXURIES AND INCOME MORE HEAVILY

Finance Minister Ralston's 1940 budget brought down Monday, brings the stiffest taxation ever in Canada, but the money must be raised to meet the tremendous war costs. New cars, radios, tobaccos, and cigarettes have had taxes boosted considerably, and income tax is now payable by all single persons on income over \$600, and married persons on income over \$1200.00 a year. No increase is made in gasoline tax or liquor taxes.

The new taxation is expected to produce \$280,000,000 in a year, and it is money well spent if it enables Britain and the Empire to win the war, and freedom and security for their peoples.

TACT

Talent is something, but tact is everything. Talent is serious, sober grave and respectable. Tact is all that and more, too. It is not a sixth sense, but it is the life of all the five. It is the open eye, the quick ear, the judging taste, the keen smell, the lively touch.

Talent is power—tact is skill; talent is weight—tact is momentum; talent knows what to do—tact knows how to do it; talent makes a man respectable—tact makes him respected; talent is wealth—tact is ready money. For all the practical purposes of life tact carries it against talent, ten to one. Tact is largely an intuitive gift; it may be improved by practice; to some extent even it may be acquired by those who care to cultivate it.—Selected.

Great Britain won the last war but she did not win peace.

Premier Mackenzie King accepted more responsibility than he realized, when he received the mandate of the Canadian people on March 26th last.

The plight of the refugees in the wartorn countries makes sad reading. Through no fault of their own they give up homes and everything life holds dear, all for the sake of a few war lords greedy for world domination.

At a nearby Institute meeting, the ladies, in responding to the roll call "my earliest ambition," admitted they aspired not to marry a farmer. That aspiration was made years ago, more or less, nevertheless all the married ladies present were farmers' wives.

Henry Ford has refused to make aeroplanes in his plants to sell to the British government. Yet the British navy and air force has long been a protector of America, including the Ford industries. Such a shortsighted attitude for Ford to assume will not help his new car sales in Canada, nor in United States either.

To many of the younger generation the city of Kitchener never had another name such as Berlin. The War of 1918 saw the change made. Now in 1940 this German city with an English name, has gone six thousand dollars over their objective of \$25,000 in purchasing a motor tank for the allied armies,—or what is left of them.

The Boer war of 1900 fought in South Africa, gave Great Britain a staunch and loyal friend in the person of General Jan Smuts, who says this African colony is with Britain in this conflict to a man and will equip an army to their limit. At one time, the Boer was the sworn enemy of Britain, but by Britain's just rule over their kingdom, they are a different people.

Britain's Premier, Winston Churchill, has the power to express in a few terse words the feelings of his people, when nation after nation yield before the tyranny of Nazism:

"We shall defend our island home and with the British Empire around us we shall fight on unconquerable until the curse of Hitler is lifted from the brows of men. We are sure in the end all will come right."

400 Public Schools Boarded Up.

The story of rural depopulation in Ontario is strikingly told in statistics relating to the closing of country schools because of insufficient attendance. In 1935 twenty-six schools ceased to operate on that account. In 1937 another twenty-eight schools were closed and in 1938 thirty-seven more were added to the list. This means that in three years' time nearly 100 schools were boarded up because there were not enough pupils to warrant their continued operation.

SHOT BIG BEAR IN BENTINCK TOWNSHIP

Councillor Herb. Livingstone and his son, Earl, of Bentinck Township, shot and killed a 250-pound bear last Friday on the farm of Mr. Fred Schreiner of the 8th concession, about 3 1/2 miles southeast of Elmwood. Tracking the bear, they finally treed it, and then brought it down with well-aimed shots. The animal was exhibited at the Louise school last Friday afternoon. Mr. Bruin does not seem to have been doing much damage in the vicinity, but its demise will likely save quite a few sheep being slaughtered on the hills of Bentinck.—Enterprise.

Asked Grey Co. to Buy a Bomber

At Grey County Council session Thursday afternoon, several delegations were heard.

G. E. Pentland, School Inspector for South Grey, addressed the gathering and congratulated the Grey Co. Council in moving to Hanover.

He stressed two points. He considered the assessment of Grey County much too high and recommended a more equalized assessment be made. He also urged that Grey County do something in war work in a big way, one that will make the name of Grey County stand out throughout the Dominion, such as the purchase of a big bomber with the name Grey inscribed on it. As bombers cost around \$100,000 each he thought that perhaps there were 1,000 citizens in Grey County who would subscribe \$100.00 each and thus make the purchase of a bomber possible.

Colonel T. J. Rutherford, commanding officer of the newly organized Grey-Simcoe Foresters and Colonel N. E. McDonald, second in Command, each spoke a few words.

The former explained about the raising of the new regiment and the need of uniforms until such time as the Canadian Government can supply them. He asked the Council to consider funds to help outfit this new regiment.

Erwarden Dophin and Stewart Cooper addressed the Council on the subject of the organization of a Federation of Agriculture of Grey County.

The following two clauses were added to the original report of the Co. Property Committee: "That purchase be made of two filing cabinet sections for South Grey Registry Office at cost of \$105.00 each. "That the account of S. R. Martin Co., for a number machine for South Grey Registry Office be paid."
