The oil is piped down to the large tanks from the wells in the hills (background) and refined and pumped into the tank cars on the sidings. Rumania has ordered her already large military preparations speeded up, following authoritative reports that Germany was challenging the government's ban on export of aviation gasoline to the Reich.

Scottish troops from Canada are shown here putting on a very realistic exhibition as they engage in field bayonet practice at their training camp in England. As in the last war, the Canadian troops will maintain their identity as fighting units during their training period and later in the field.
