IN DAYS OF YORE

SWINTON PARK

A very severe electric storm on Monday p.m. put both hydro and telephone out of business here. It still continues warm and sticky. We feel old and musty.

Mr and Mrs Neil McMillan have got comfortably settled in their home in the Park. We hope to enjoy hours of pleasant chat with them in the coming months and years.

Mr and Mrs Carlyle McMillan, who were wed on 3rd of August, arrived home from their honeymoon trip last Wednesday evening, and were royally entertained that night by their best friends and neighbors by way of a chivaree. Then on Friday evening a great gathering at Black's Beach tendered them a welcome; also made presentation of a purse. Carlyle nicely thanked them, and a good dance was enjoyed.

Mr and Mrs John L. MacDonald, and son Huh of Ottawa, spent Monday with aunt, Mrs Ferguson; also gave us a pleasant hour's call.

Mr and Mrs James Hardy and Eleanor visited friends in Stratford at the week end.

Mr and Mrs Martin Nelson, who have been managers-in-chief on the Campbell ranch here, tendered their resignation some time ago. Yesterday they moved out, and Mr and Mrs Neil Campbell are now in charge. We all welcome them back to the Park.

Mrs. Delbert Haw and baby boy are spending a couple of weeks with mother, and brother at Bayfield.

On Monday a number of people were picking berries in a nearby bush when one elderly lady, while eating lunch, had cause to remove her teeth. She carefully laid them down and forgot to replace them. The thunderstorm coming on caused everyone to leave hurriedly. After going quite a distance, teeth were missed and a rush back in the approaching storm located them alright. No wild animal had yet appropriated them. Another young lady while bathing at Black's Beach on Monday, hurriedly left without her belongings so be careful you are not caught in a storm.

Anniversary services will be held at Hopeville United Church the first Sunday in Sept.

A very severe electrical storm swept over this district Monday afternoon. Several bolts came a little too close for comfort although no material damage was done. In one instance fire was flashing from a radio set.

Canada As Empire Arsenal.

Many of the industrial plants which have been built in Canada for British and Canadian account over the last 10 months are already engaged in the production of ammunition ranging from artillery shells and their components, including anti-aircraft shells and also a variety of heavy and field gun ammunition, down to rifle bullets. Canada is now producing not merely shells but cartridge cases, fuses, primers and all components included in a round of ammunition.

Much of the success of the local flower show had been due to Councilor Smith, who had organized it all and, being an ardent horticulturist, had won several prizes.

Later on, he was reading the report in the local paper, when he jumped to his feet, with an angry remark.

"Why, what's wrong" asked Mrs Smith, drooping her knitting.

"Listen to this!" he roared. "It says here: 'As Mr Smith mounted the platform to open the show, all eyes were fixed on the large red nose he displayed. Only years of careful cultivation could have produced an exhibit of such brilliance.'"
