Eskimo and Loucheaux Indian children come as far as 1,000 miles to attend All Saint's Anglican school at Aklavik, Northwest Territories, according to Miss Hazel Keyes who has taught at the school for the last four years.

100 CHILDREN "They come from such places as King William's Land," she said, in and interview at Winnipeg recently. "Most of them can't speak any English when they arrive, but they soon learn. From five to fifteen years of age they all enter Grade I. The type of education they receive encourages them to make fuller use of their native arts and talents for making a living in the North."

PREPARED FOR NORTHERN LIFE

Sewing is one of the chief delights of the girls, and the boys are quite good mechanics, she said. There are about 100 children in the school.

Miss Keyes was in charge of the Brownie pack, junior members of the most northerly Girl Guide pack in the world.

**New Minister of Education** 

Dr. Duncan McArthur, deputy minister of the late Dr. L. J. Simpson, Ontario minister of education, has been sworn in as minister of education to succeed Dr. Simpson who died recently.

# Record Is Set In Gold Output

Quantity and Value in 1939 at All-Time Peak for Canada

Quantity and value of gold produced in Canada during 1939 were the greatest ever recorded in the history of the Canadian mining industry, the Dominion Bureau of Statistics said recently in its annual review of the industry.

Production of new gold from all primary sources totalled 5.094.379 fine troy ounces, compared with 4,-725,117 the previous year. Gross value of output was \$184,115,951, an increase of 10.8 per cent. from 1938.

TOP-RANKING PRODUCER Ontario mines contributed 3,086,-976 fine ounces, Quebec 953,377, British Columbia 626,970 and Manitoba 180,875. Lesser quantities were recovered in the Yukon, Saskatchewan, Nova Scotia. The Northwest Territories and Alberta.

Occording to preliminary statistics of world production, Canada probably ranked second or third as a gold producing country, being exceeded only by the Union of South Africa and possibly Russia. Output in the Transvaal in 1939

was approximately 12,819,000 fine ounces. Data on production in Russia is not available but it has been stated that Russian output is between 4,000,000 and 5,000,000 fine ounces a year, the bureau reported.

## New Highways **Invite Tourists**

Topnotch Scenic Highwaysthe Banff - Jasper And Big Bend - Are Famed Outside Canada

The fame of Canada's two newest scenic highways - the Banff-Jasper and the Big Bend - is widespread. according to a recent letter received by the Department of Mines and Resources, Ottawa, from a Vancouver motorist who sends in a vivid description of his first trip over the new roads.

"We took particular pains," he states. "to check with American tourists on their trip over the Banff-Jasper Tighway and they were all most enthusiastic. Other tourists encountered on roads leading to Banff were apparently well aware of the new highway and we had many enquiries on the condiapplies to the Big Bend Highway." at his discretion "for the most vital immediate air force needs."

ESCORT FOR GRACIE AT JASPER

Appearing at Jasper Park Lodge in her first charity concert in the Canadian Rockies recently, Gracie Fields made excellent use of the spare time during her mountain visit. It was a red letter hour when she met two of Canada's famous Royal Canadian Mounted Police while strolling in the environs of Outlook Cabin where King George and Queen Elizabeth stayed during their visit a year ago. Walking with the popular comedienne are Sgt. J. W. Faulkner, at Gracie's right, and Const. B. C. R. Wcods.

# HEALTH TOPICS

DECLINE IN HEALTH FADS Health-conscious Americans-and they are legion-are about to abandon their "screwy" health fad ideas, says Prof. Arthur H. Steinhaus of George Williams Col-

Unscientific Beliefs

They are going to drop beliefs that a strong sun tan is good for one, that shrimps and straw. berries should never be taken to gether, that irregular eating is a common cause of stomach trouble and many others unsupported by scientific investigation, Prof. Steinhaus asserted in an interview at Chicago last week.

"Screwy" Ideas "Some other 'screwy' ideas still entertained by some health enthusiasts are these:

"Bow legs result when babies are permitted to walk too early in life. (It's the diet that's responsible).

"An outdoor walk is invigorating because there is more oxygen in the open air.

"The human body renews all of its parts once every seven

"Acid foods never should be taken with milk. "Poor posture is one of the

causes of tuberculosis. "Regular physical exercise will increase one's resistance to most disease germs. (This has been proved false by scientific tests. Healthful living, but not exercise of itself helps resist germs.)

"The chewing of hard foods will strengthen the enamel of the teeth. (It helps the gums, but not the enamel.)

"An athlete should refrain from eating sweets and ice cream while he is in training. (On the contrary sweets form the most rapid source of energy.)"

Nixon: "By the way, what is your profession?" Dixon: "Mine is not a profession, it is a pursuit. I am a debt collector."

\$1,000,000 For R.A.F.

J. W. McConnell, publisher of the Montreal Star and Montreal Standard, has offered Lord Beaverbrook, \$1,000,000 to be used

## Old Binder Has Fine Farm Record

A binder, 34 years old, is the possession of Vernon McArthur, well-known Nelson township (Ont.) farmer. The machine has not been idle a single season, and has cut a total of more than 2,000 acres of wheat and grain. Charles Readhead, also of Nelson, made regular use of the binder for 26 years. Following this, the machine was purchased b his son-in-law, Vernon Mc-Arthur, who has used the binder for the last eight years, and says it is still in good working order.

# Modern Etiquette

BY ROBERTA LEE

1. When a husband and wife have invited guests for a motor drive, should the wife sit in front with her husband?

2. When your hostess places you next to a person at the dinner table, with whom you have recently quarreled, is it necessary to talk to this person?

3. What kind of person would make derogatory remarks about a religion, with which he or she does not agree?

4. Should a young man, who has had numerous dates with a girl, feel free to enter one of her family's arguments?

5. Where should the mother of the bride stand at a wedding reception when receiving guests? 6. Where should the water glass be placed on the table? Answers

1. The wife should ask one of the guests to sit in front, while she sits in the back with the other guest or guests. 2. Yes; it would be rude and unfair to your hostess if you did not. 3. Such a person is very ill-bred, tactless, and rude. 4. Never. If he does, the girl's father or brother would probably feel justified in giving him a seat on the sidewalk, 5. She usually stands at the door of the room where the bridal party is. 6. At the tip of the knife.

# Canada's Oldest **Printing Press**

Lost For 15 Years It Has Been Discovered In Basement of Parliament Buildings Toronto - Dates From 1770's

Lost for 15 years, the oldest existing printing press in Canada has been discovered in the basement of the Ontario Legislative buildings at Toronto. The press, built about 1770 was presented to the Toronto Normal School Museum by the late

John Ross Robertson. The "500 Years of Printing Celebration Committee" sought the press for months. It was discovered by W. S. Wallace, University of Toronto librarian. The press was set up at Niagara-On-The-Lake, Ont., in 1793 to print The Upper Canada Gazette. Its owner was Louis Roy, the first printer in Upper Canada, who brought it from Que-

# · HAVE ·

After the class had been photographed, teacher was trying to persuade the children to buy prints.

"Now, children," she said, "just think how much pleasure you'll get from this photograph when you're grown up. You'll be able to look at it and say: "There's Jean, she's a nurse; there's Tom, he's in the Army; and—' "

Then the bad boy of the class chipped in:

"There's teacher, she's dead!"

Dancer: "What is the name of that piece they are playing?" Partner: "I don't know. Let's ask one of the boys in the orches-

Dancer (to saxaphone player): "What's that you're playing?" Player (halting for a moment): "A saxophone - lady - a saxophone!"

Children don't study geography any more; they fol-

A party of Americans was being shown round an ancient English church and they paused in front of an effigy of a knight who had lived in the days of Henry VIII:

"Isn't he cute?" commented one of the ladies rapturously. "Why! He's actually wearing the same clothes as Charles Laughton."

-0-It's easy enough to be When there isn't a jolt or

The young man wrapped his arms round the shapely blonde. "My darling," he breathed, "you're all the world to me. don't know what I'd do without

you. I love-' At that moment, the doorbell rang. The blonde jumped up. "It's my fiance," she gasped. "You must leave at once. Oh, hurry! Please hurry!"

The young man looked round nervously. "But how am I going to leave?" he asked anxiously. "I can't go out by the door. Your fiance would see me." The blonde thought quickly.

"Jump out of the window," she advised. The young man turned white.

"But honey," he quavered, "we're on the thirteenth floor."

The blonde stamped her foot. "So what?" she rasped. "At this stage of the game, are you going to tell me you're superstitious?"

# Carelessness Is Indicted

Corelessness and discourtesy are to blame for nearly all Toronto's 48 traffic fatalities this year, Acting Inspector Norman Harper of the Toronto City Police Traffic Bureau said last

Contrary to general belief, the Acting Inspector said, most traffic accidents happen under relatively good driving conditions, with cars in good working order and drivers classed as normal.

PEDESTRIANS ALSO TO BLAME Forty-one of the fatal accidents have been the result of dircct collisisons with pedestrians. Although much of the blame lies with the drivers, pedestrians are also to blame, Acting Inspector Harper said, as they often cross streets carelessly and do not always give drivers an opportunity to avoid them.

POWERFUL NEW EXPLOSIVE A uranium explosive has been developed and tested in the United States which is "at least 15 times more powerful and perhaps almost 100 times more potent than TNT." The blast from only 100 grams of the uranium explosive accomplished 4,270 footpounds of work-with only the downward force measured.

Discovery that the rare ele-

What's in a name? Perhaps

Harking back to the time of George I (1660-1727), King of Great Britain and Elector of Hanover (Germany), is the birth of Anglo-German royal marital alliances. Later, in 1840, Queen Victoria, descendant of the House of Hanover, married Prince Albert of Saxe-Coburg and Gotha. Wettin became then the regal surname, displacing Hanover. THOROUGHLY ANGLO-SAXON

Then, on July 17, 1917, at the height of anti-Prussian sentiment in the Empire, His Majesty, the fifth George, acting with the consent of his Privy Council, informed the people that henceforth the royal house should be designated as the House of Windsor. The title comes from Windsor Town and Castle, steeped in kingly tradition since the days of Edward the Confessor More to fill the Englishman of today with a feeling of complete, historic ownership, no word more thoroughly Anglo-Saxon probably could have

At Saunderstown, R.I., Merrill Smith, determined to be the first motorist over a new \$3,000,000 toll bridge, spent the night in his car, at the bridge approach. When the bridge was officially opened nxt morning, Smith fished in his pockets, found he had forgotten

# \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\* How Can I?

BY ANNE ASHLEY

Q. How can I wash a feather

A. Dissolve 1 lb. sal-soda and 1/2 lb. soap in 1/2 gallon boiling water. Put about 5 buckets of warm water into a tub and pour in above solution. Next, dissolve 1/2 lb. chloride of lime in 1 qt. boiling water. Let it settle, then stir in tub. Beat pillows well and then put into tub, pressing down. Let soak for hour or more, stirring and pressing constantly with a stick. Rinse in several changes of water, wring, press out all water possible and hang on line to dry, turning and shaking oft-

Q. How can I make two pounds of butter out of one pound? A. Add gradually to one pint

of butter one pint of milk and a little salt, beating it with an eggbeater until smooth. Put in a mold and set in a cool place. Q. How can I make a good and inexpensive sachet powder for

dresser drawers? A. Mix 1/2 ounce of lavender flowers with 1/2 teaspoonful of powdered cloves.

Q. How can I make the meat of a fowl white, juicy, and tend-

A. After the fowl has been cleaned, rub the inside and outside thoroughly with a lemon before putting in the dressing. Adding a teaspoonful of lemon juice, or a tablespoonful of vinegar, to the water when boiling also helps to make it tender.

# Apple Pie Popular

Apple pie accompanied by a wedge of domestic cheese is the most popular dessert served on dining cars of the Canadian National Railways. In proper season, berries and other fresh fruit makes real competition but apple pie has twelve months in which to establish records.

# Perhaps It Can't Happen In Canada

An Oklahoma City reporter thought a woman newspaper reader was wrong when she complained that "women are losing their common courtesy."

He held open store doors for 60 women. He turned drinking fountain taps for 20. At store counters he stepped aside 10 times to permit women to be waited upon. Thirty times he permitted women to leave elevators ahead of him. Four times he gave women his seat in street cars. In all, he performed 124 Sir Walt-

er Raleigh gestures. Two women said "Thank you." Many gave him that "Don't flirt with me" haughty eye. He's con-

## Cod Liver Oil Painted A House

A well-known tobacco farmer living near Brantford recently made the discovery that his entire house had been painted with cod liver oil.

He had ordered the house painted with boiled oil and a can arrived bearing that label. Instead it contained cod liver oil. The painter said he noticed the difference when he did the job, but thought it was some sort of substitute "because of war conditions."

Apparently the whole job will have to be burned off. When the sun shines the oil drips freely from the walls of the house.
