

Canada the Big Game Hunters' Paradise

Big Grizzly British Columbia

Canada is still the finest big game area in North America. Moose, deer and caribou abound in the provinces of Nova Scotia, New Brunswick, Quebec, Ontario, Alberta and British Columbia — the latter two offering mountain sheep, mountain goats and grizzly bears for good measure, but caribou may not be shot in Nova Scotia or New Brunswick. Early reports from veteran guides in all these provinces indicate that game will be more plentiful this year than for many seasons past.

Nova Scotia, fascinating country of Longfellow's Acadia, has in South Milford its most famous "jumping-off" place to the hunting districts bordering Lake Kedgemakooke, and Lake Rossignol. These lake regions are the haunt of the finest specimens of moose, deer and black bear. In New Brunswick, the hunter has thousands of square miles of big game country. From Plaster Rock, on the Canadian Pacific Railway, there is easy access to the wild life areas of the Tobique, Nepisiguit and Upland rivers. Other noted game districts border the Miramichi, Keswick, Gaspereaux, Serpentine and Restigouche Rivers. Quebec, with its 700,000 square

miles, its enormous game resources and favorable water routes, is a most attractive prospect for the sportsman. Moose, deer and black bear abound in the Kipawa and Timiskaming districts, Upper Gatineau River, Lake Megantic, and the Laurentian Mountains, which Champion Gene Tunney visited last spring. Noted "jumping-off" places to this hunter's paradise are at La-Belle, Nominique, Lac Saguy and Mont Laurier. Similar attractions are found in the province of Ontario, whose 407,000 square miles are heavily wooded and plentifully stocked with wild life. Attractive regions here include Georgian Bay, French River, Metagama, Schreiber, Jackfish and Nipigon. Alberta has a great plenty of mountain goats, mountain sheep, deer, moose, grizzlies, caribou and a variety of small game, all of which can be conveniently reached from such noted "jumping-off" places as Banff, Calgary, Edmonton and High River. British Columbia Caribou and Cassiar districts offer the very biggest of big game in the Canadian Rockies. From Achroft, B.C., the hunter enters the Cariboo Country where, with other big game, are found the great shaggy grizzlies whose very ferocity lures the ambitious and daring sportsman. From Field, Kamloops, Revelstoke and Sicamous great numbers of hunters go every season in quest of the giant game in which these regions abound.

WAR GIVES CANADA  
TWENTY NEW INDUSTRIES

Twenty new firms have been established in Canada by refugees from Europe in the past year. These manufacturers have come from Belgium, Czechoslovakia, Poland, Hungary, Austria and France. The largest of these is the Bata Shoe Company now located at Frankford, Ontario, engaged in an ever-growing business of making footwear for export in spite of the handicaps which war establishes against international trade. Other products being made by these new Canadian firms include: Egyptian perfumes, hat shapes, glass, silk hosiery, artificial flowers, canned meats, pottery, dental waxes, fine chemicals and industrial chemicals, foundation garments, gloves, skirts and raquets. While the new capital brought into the country by these manufacturers is not believed to be more than five million dollars, because it has been so difficult to get money out of European countries, the settling of these people here is said to be highly beneficial to Canada. They produce some goods which used to be imported into this country, and they have brought skilled craftsmen in their type of work, men who are already teaching other Canadians the art of their trades.

GETTING AFTER SPEEDERS,  
AND RECKLESS MOTORISTS

The Ontario Government has decided to pay \$500 to those responsible for the apprehension and conviction of hit-and-run motorists. Efforts are being made to put a definite check on the mounting toll of fatal motor car accidents. Attorney General Conant called a meeting last week at which business men and traffic officers discussed ways and means of combating this growing menace. While it has been shown that the reduction in the speed limit has lowered the number of accidents, it has been found almost impossible to enforce the law adequately because of the small number of provincial traffic officers available. An appeal is being made to the individual motorist to cut down his speed on good roads, especially after dark.

HAPPY BIRTHDAY, ADOLF,  
PROVIDED IT'S YOUR LAST

A poem written by A. P. Herbert of London, on Adolf Hitler's 51st birthday last April 29th, was published only last week. The poem: "God moves in a mysterious way; The devil still must have his fun; And it is not for us to say Why you have lived to fifty-one. But this new candle on the cake Should be the last they light for you God will not make the same mistake; The devil soon must have his due, (And recollect, you little fake, Napoleon died at fifty-two.)"

"PUT UP OR SHUT UP"

In an editorial on its front page "The Canadian Veteran" (September 30) has this to say about the Canadian Red Cross:—"Not once, but on a number of occasions in recent months, we have been told that the Red Cross is selling socks, etc. which have been given to it to be distributed to men on service. Invariably, as in the years past, we have endeavoured to trace the rumours to their source—to establish the truth of the story. Invariably, again, we have failed. "Pinned down, the narrator of such tales will every time lead his story back through a winding maze of 'I heard' or something of that sort. Never, in all our investiga-

tions, have we been able to find a glimmer of truth in the rambling stories of this character.

"We do not believe that the Red Cross is a 100 per cent perfect organization. But we do believe that for the many years of its existence the Red Cross has, as a society, administered its affairs honestly and in the highest sense of trusteeship. We believe that the world without it would be a much worse place than it is today. We believe that the sum total of its accomplishments, in peace and war, constitutes one of the greatest contributions to human welfare that the world has ever known. "Our faith may be shattered—but on the production of definite and incontrovertible proof that the Red Cross, as an organization, is guilty of malfeasance—that it has sold, as a commercial organization, the goods entrusted to it in order that those who need might be cared for—we will pay the man or woman who brings the original story to us the sum of one hundred dollars. "In other words, our present answer to anonymous letters, to malicious recitals, is, "Put up or shut up." "And to those who are guilty of spreading false and scurrilous rumours we say this: That they are just as guilty of sabotage, of destruction of the national morale and faith as any "Fifth Columnist." Well-meaning as they may be, they are assisting nobody but the enemy. They are harming their own country—and stabbing in the back those who depend upon the Red Cross for assistance when it is vitally needed."
