**ONE-WAY FARE FOR  
CHRISTMAS OR**

**NEW YEAR'S LEAVE**

All ranks of the C.A.S.F. proceeding on leave during Christmas or New Year's will be able to secure a return ticket to their destination at the cost of one-way fare. The duration of the leave will be six days and no more than 50 cent. of the strength of any unit, in any rank will be permitted to be away at one time. The Defence Department expressly stipulates that whether leave can be granted will depend in all cases on the nature of the service being undertaken by the man concerned the direct necessity of having certain types of training completed speedily, and the importance of the defence of Canada and of war conditions generally.

The Department adds: "The guiding factor in the consideration of leave privileges to men on Active Service must be the defence and safety of the country and the obligations we are under by virtue of our war commitments. These have been duly weighed and fully discussed and their influence is to be observed in the decision now communicated."

**BRITAIN'S INDUSTRIAL CAPACITY**

(St. John Telegraph-Journal)  
Recently announced figures of United Kingdom trade contain encouraging news. For the first seven months of the present year, in spite of extraordinary demands at home, and the threat of enemy action of the high seas, Great Britain not only maintained her position as a great exporter, but actually increased by some 10,000,000 pounds the total of her manufactured goods shipped abroad during the January-July period, as compared with same period in 1939. Total exports for the seven months aggregated 225,000,000 pounds. Naturally the character of the goods exports has changed from the pre-war years. There is an almost inexhaustible domestic demand for machinery, ships and aircraft. Offsetting declines in exports of this nature been increases in the shipment of pottery, electrical goods, chemicals and dyestuffs, and manufactured textiles.

With the greater part of the European market closed to her, Britain was obliged to find other fields for the placing of her exportable surplus, so larger quantities of British manufactures are now being sold in Canada, and also in the United States and Latin America. Canada's imports from the Motherland for the eight months ended with August, 1940, show a total value of \$105,000,000, or thirty-six per cent more than in the same period in 1939. The principal increases include: Pottery, up \$1,000,000; electrical apparatus, up \$500,000; chemicals, up \$500,000 and textiles, up \$13,000,000. Textiles accounted for forty per cent of the total British imports during the eight-month period, compared with thirty-six per cent in 1939.

When it is considered that every factory in Britain which can do so is busy turning out military supplies, the remarkable increase in the volume of the nation's exports is undeniable evidence of Britain's great industrial strength, as well as of her continued command of the Oceans' channels of commerce.

**CANADA'S WAR EFFORT**

A Weekly Review of Developments  
On Home Front: November 7-14

**SUMMARY**

1. Armistice Day: In the shadow of a new war, all Canada paid silent tribute to the men who fell in the war of 1914-18.

**1941 MOTOR VEHICLE PERMITS  
AND DRIVERS' LICENSES  
ARE NOW AVAILABLE**

**Secure Yours Early and Avoid the Usual Last Minute Rush**

There has been no increase in the fees for permits and licenses. The fees charged in Ontario are still lower than in any other province of Canada or in the neighbouring states.

Table of comparison of fees in Ontario and two neighbouring provinces and states for three popular makes of passenger cars:

CAR	ONTARIO	QUEBEC	MANITOBA	NEW YORK	MICHIGAN
No. 1-4 cyl.	\$ 2.00	\$17.80	\$14.00	\$12.00	\$ 8.40
No. 2-6 cyl.	7.00	22.00	16.50	15.00	10.50
No. 3-8 cyl.	10.00	21.30	16.50	14.50	10.15

Ontario's highway system is the largest in the Dominion, and for the very reasonable fees, indicated above, a great highway system comprising over 20,000 miles is maintained and made available to the motorists of Ontario and visitors from other parts of America.

The revenue collected from motorists by way of registration and license fees and the gasoline tax has made possible the construction and maintenance of this great system of highways.

For the convenience of motorists, permits and licenses are issued through the offices of 189 agents located throughout the Province.

Toronto, Nov. 18, 1940.
