We have received the grand things must be done by the ones, the grand things must be done by the ones, is and bodies and societies sometimes are a loss of strength, instead of a gain. It is said that if Noah's ark had had to be built by a company, they would not have laid the keel yet; and it is perhaps true. There is scarcely anything done by a body; it a lmost always fails; because what is many men's business is just nobedy's business at all.
