And will waken in the morn." They are weeping, sadly weeping; Tears so bitter, vet are bright; When they think he is but sleeping And will wake when flees the night. For the wind that's slowly creeping Says unto their hearts forlorn: "See, he is not dead but sleeping, And will waken in the morn.'

"See, he is not dead but sleeping!

He is lying, calmly lying— Folding hands upon his breast. Oh! what other is his dying Than a lying down to rest? For the wind that's softly creeping, Whispers to his friends forlorn: "See, he is not dead but sleeping! And will waken in the morn.'

They are waiting, weary waiting, Knowing he has gone before; Soon they'll hear the keel agrating Of the boat upon the shore. Of the boat that comes to bear them Whether he has gone before, Soon our listening hearts will hear then Singing on the other shore.

Singing songs that he will teach them, When they reach that sunny realm, Where no wintry wind can reach them, No temptation overwhelm. Now the wind that's gently creeping Says unto the heart forlorn: "Those who go are only sleeping! They will waken in the morn."

-By R. Morrison, Student of Trinity seated Consumption. College, Toronto.

Two severe shocks of earthquake were felt at Lisbon on Thursday morning, but no damage was done.

A meddlesome old woman was sneering at a young mother's awkwardness with her infant, and said, "I declare, a woman ought never to have a baby unless she either," quietly responded the youn

Mitchell's Belladonna Improved India Rubber Porous Plaster.

There never has been a time when the healing of so many different diseases has been caused by outward application as the present.

It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making

these Plasters are Gum Olibanum-or better known as the Frankincense of the Bible-Rubber, and Burgunday Pitch; which, when scientifically compounded, isfull of electricity, and when combined with the pure medicinal gums, is found to be one of the greatest healing mediums ever brought before the human

They are acknowledged by all who have used them to act quicker than any other Plasters they ever before tried, and that one of these Plasters will do more real service than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one is applied the patient will feel its effect. They possess all the soothing, warming, supporting and strengthening qualities of al other Plasters. Many who have been relieved of RHEUMATISM, TICDOLOREUX, and various other pains in the Kidneys, Breast or Side, and believe it is solely done by the electrical qualities which the Porous Plasters contain, and which is imparted to the system, thus

restoring them to a healthy condition.

They are very soft and phable, still very adhesive; and a sure cure for WEAS BACKS, PAINS IN THE SIDE AND BREAST; and are invaluable to those who have a COLD of long standing, and often prevents Consumption. Some even tell us they believe they were entirely cured by the use of them of a long-Prepared by George E. MITCHELL, Lowel
