

of our well-to-do farmers from
attended the Cattle Fair on Tues-
day, having sold some stock, received
dollars. Soon after a young man
him to Chambers hotel, to inspect
poultry and on reaching there, an-
stranger made his appearance, and
said that No 1 stranger was about to
be sold for fifty dollars that No 1
did not open the box. No 1 attempted
to open the box open, but appeared to
be either strength or means to do so
No 2 demanded the \$50 on the spot.
In vain did No 1 protest his lack
of funds, and pleaded for time. His credit
was absolute. He quietly asked the
owner of the \$50, which sum was
in a highly magnanimous spirit in
a prompt manner. No 2 was there
in a very short time both strangers
disappeared, and no trace being found
of either, our farmer began to see things in
a real aspect, and that he had been
led. Without delay, Constable Reed
and overtook the charpers near
Norton. On arriving here they were
at the Magistrate's Court and next
conveyed to Walkerton.—Paisley
reale.

Miscellaneous.

Field Marshal Baron Von Wrangel, the
Swiss, is dead.

Switzerland, has been designated as
place for the next meeting of the Evange-
lical Alliance.

London cotton mill at Ollham, Eng-
land, which contained about 40,000 spindles
has been burned.

The General run of prices paid for cattle
the last fair at Woodstock was from \$28
to \$30 per head.

Pembina dispatch states that in the
past, Sitting Bull will be assigned, by the
Indian authorities, a reservation on Red
River.

The Australian mails by the new route
to San Francisco and New York—
which London in forty-two days, against
sixty days by the old route.

The Fort group by-law granting a bonus
of \$75,000 by the Toronto and Ottawa
Railway, if constructed by way of that
route, has been carried by a majority of
the shareholders.

The entire amount of money diverted
from the treasury of New York City, from
the last by the Tweed Ring, is estimated
at between \$45,000,000 and \$50,000,000.

Considerable damage to lake shipping is
being done during the late gales. In Rhode
Island and along the Hudson and Delaware
rivers the storms are violent.

A petition against the return of Mr.
Drummond and Arthabaska
has been filed. The grounds on which
the petition is founded are bribery, corruption
and undue influence.

Mr. Giles H. Fowler, of Burford, has
developed a Spitzberg apple which has de-
veloped such a marvelous growth as to
weigh 17 1/2 ounces, and measures as many
in circumference.

A violent shock of earthquake was felt
two o'clock on Sunday morning at Otta-
wa along the St. Lawrence from Cornwall
to Montreal, in north-eastern New York
and in the New England States.

Another shock of earthquake was felt on
the 29th ult. at Lima and Callao, Peru.
English insurance companies lose \$70,000
by the damage caused in May by the
earthquake and tidal wave on the Pacific
coast.

News from Cape Town states that the
British troops have burnt the kraal of the
renegade Galeska chief, without any loss
on their side; and that the Govern-
ment of Cape Colony has disposed the chief
and annexed his territory.

A young man named Louis Henry Com-
pau has been sentenced to eighteen months
imprisonment in the Central Prison at
Waterloo for stealing a span
of horses, a wagon and ten dollars from
John Shantz, of Waterloo.

About a dozen of the best farmers in
London are now in the Nipissing district
where they took up a fine tract of land near
proposed station of the Canada Pacific
Railway, and not far from the Magnetawan
River. Mr. W. F. Clark went to prospect
and selected the land last July. He gives
good account of it.

On Sunday morning between two and
three o'clock, the Bruce agricultural works
at Tecumseh were totally destroyed by
fire. Messrs. Frazer & Gillies loss will
be about \$20,000, on which there is an insur-
ance of \$4,000. By great efforts the adjoin-
ing buildings were saved, though they were
burned several times. Origin of the fire
unknown.

An elopement is reported from the town-
ship of King. Eli Farrar a hired man,
working for Walter Travis, eloped with his
employer's wife on Wednesday morning.
The couple took with them \$200 in money
and a quantity of clothing. Travis tracked
them to Aurora, where he saw Farrar, who
had purchased a ticket for Toronto. The
husband determined not to lose sight
of his man, procured a ticket for the same
place. The affair was settled by Travis
paying the conductor of the train, who re-
ported it to Mr. Harvey, Traffic Superinten-
dent of the Northern Railway, who happened
to be on board. The latter sent a tele-
gram to police headquarters, and on the
arrival of the train here, Farrar was ar-
rested and charged with stealing his employer's
money and clothing. On being brought
before the Police Magistrate, he was re-
manded till the 5th. The guilty wife
coming to Toronto on the mixed train pre-
ceding that on which her husband and
lover travelled so as to avoid suspicion.
She is believed to be still in the city and
cannot be found.

For the Guide.
A ROMANCE OF THE FOREST.
BY PAUL
CHAPTER VI.
Tale was the chief of Lunala
Who quickly whisked, in her nap;
He smiled and answered by a nod;
And raised on high his sacred rod;
Then all around did silence fall
On the assemblage like a pall—
"Two manifestly quite unfair;
That one should match the giant pair;
Besides it had been understood
No one should wrestle Ogion's brood,
Let the twins wrestle—the untrodden
Must match with all and stand alone.
The word of Buno ne'er was broken;
The game proceeds—your king has spoken."
Out Life sprang, still smarting sore—
Baying with that deafest he bore,
And with the warriors' jibes still more—
"When the wild war in his leary lair
Heard round his den the leary step of fear;
And rushes bristling forth with eyes aglare,
And gleaming tusks, to meet the haggard
stars
Of brain; thus they strode around,
Spring for chance to make a sudden bound,
Clasping they wrestled and each great torso
swelled.
As each the other in a grim vice held,
In vain did Buno's quiver bearing down,
"Fie! Lefe, or that laggard wears the
crown."
Mad Lefe's ear was deaf to all appeals,
And presently he staggered Buno's heels
Across the mark and to the leary lair
Fled Buno, who would rather die had died:
And thus it came that all were thrown,
Or hurled across the mystic line,
And Ogion's blood alone,
Gazing with neckless quills sublime,
Straight rose a stout that rent the azure
sky,
Through which was heard one voice the
roi.
From Saint Le Mont, the French envoy.
Soon the great warriors were upon the way,
For there was ever danger in delay—
"E'en then as now;
As many a swain does this day know right
well,
Who gulps the griefs that in his bosom
swell,
For being slow,
'Twas better for that they should straight
lie wed:
The blushing bride the gallant Oia led
Within the ring,
Great Medicine walked out with lordly air;
Gazing a space upon the happy pair,
Began to sing,
At first with guttural sounds that seemed
to rise
From some deep cavern rumbling to the
skies,
With a booming sound did upward
spring,
And vaulted over like a harlequin—
A perfect wonder.
All his attendants raised a mighty sound,
While he lay fawning, wreathing on the
ground.
They brought in fire;
And set a crucible filled to the mouth
With all the healing fragrances of the South,
Upon the pyre.
This round they bore still boiling, fuming,
spouting,
All the soft, springtime air perfuming
L'ce Ceylon's gale.
The soft, spring turf they sprinkled as with
hail;
And touched the prophet's bow, producing
calm
Of great avail.
Next all their relations supposed to dance
In circle round, jingling their shells to en-
hance
The imposing scene.
Then came the prophet and his train,
Singing a somewhat dismal strain
The dance between—
See us in circle round,
Binding, trying
Which never can be broken,
Severed,
Stems may break the forest,
Lend the oak and maple,
Fire-cloud—
What the sacred three now bind
Cannot be broken,
Their symbol, the great sun,
Geezis,
Now looks,
Hear, the Great Father—
Warning;
Light, Son of the Father—
Shining;
Fire, the Merchant Spirit—
Burning.
Now these two are one,
No man can sever,
So let them journey on
Forever! forever!!!
Forever!!!
A dark cloud settled on Oia's brow!
What hap was coming now?
What fate was dawning?
The dog of the dog's leaping, fawning,
Filled with joy expressing her master;
Dark, scowling eyes gathering closer, faster,
Gleaming, burning his soul away.
Ah this unhappy day!
On Wednesday, at Woodstock, Detective
Wm. Smith, on behalf of the Medical So-
ciety, for which he is acting, had a man
named Galloway, of Ingersoll, kept for
being a store for the sale of poisons without
a registered chemist. Messrs. Hill,
Fairburn and Windsor, of Beachville,
were also charged with a similar offence.
They were each fined \$5 and warned not
to repeat the offence, or the fine would be
more severe.

**Mitchell's Balladonna Improved
India Rubber Porous Plaster.**
There never has been a time when the heal-
ing of so many different diseases has been
caused by outward application as the present it.
It is an unpaired fact that over half of the
entire population of the globe resort to the
use of ordinary plasters.
The principal ingredients used in making
these Plasters are Gum Olibanum—or better
known as the Frankincense of the Bible—
Bubbar, and Bergamot Pitch; which, when
scientifically compounded, is full of electricity,
and when combined with the pure medicinal
gums, is found to be one of the greatest heal-
ing means ever brought before the human
race.
They are acknowledged by all who have
used them to act quicker than any other
Plasters they ever before tried, and that one
of these Plasters will do more real service
than a hundred of the ordinary kind. All
other Plasters are slow of action, and require
to be worn continually to effect a cure; but
with these it is entirely different; the instant
one is applied the patient will feel its effect.
They possess all the soothing, warming,
supporting and strengthening qualities of all
other Plasters. Many who have been relieved
of Rheumatism, Pains, Sprains, and various
other pains in the KNEES, ELBOWS or SHINS,
and believe it is solely done by the electrical
qualities which the Porous Plasters contain,
and which is imparted to the system, thus re-
storing them to a healthy condition.
They are very soft and pliable, still very
adhesive; and a sure cure for Warts, Blisters,
Pains in the SIDE AND BACK; and are in-
valuable to those who have a Cold of long
standing, and often prevents CONSUMPTION.
Some even tell us they were cured of
trouble caused by the use of them of a long-continued
Consumption.
Prepared by GEORGE E. MITCHELL, Lowell,
Mass.
Sold by all Druggists.

BIRTHS.
WILSON.—In Melancton, on November
1st, the wife of Mr. Wilson, of a son.

PROCLAMATION!
Wool Carding
—AND—
Cloth Dressing.
JAMES McM REID
Leads, the onward movement in his
motto, and he now brings his banner to the
breec, notifying the inhabitants of Proton,
and surrounding Townships, that he has
purchased the Carding and Filling Ma-
chinery formerly owned by Mr. J. J.
Middleton, and has fitted them up in first-
class style, and is now ready for Roll Car-
ing and Cloth Dressing, and hopes by strict
attention to business and good work, to
merit a share of public patronage. Hav-
ing had an experience of over twenty-five
years he has no hesitation in saying that
all work shall be warranted according to
quality. The following gentlemen can
testify to his ability as a workman in the
dial; Mr. H. Graham, Merchant, Dun-
dalk; Mr. J. Agnew, Councillor, New Sur-
vey; Mr. W. Hoskinson, New Survey; Mr.
J. Nixon, New Survey. Those from a
distance calling early in the morning will
get their rolls home with them the same
day.
JAMES McM REID,
Dundalk, May 23, 1877. 17-41

Cure for 'Pay Up.'
Pay up is a nostrum got up by people to
delude their creditors and to injure Dundalk.
The words "Pay Up," have spread over the
country like the Potatoe Bug. If a distance
from home and the people know you are
from Dundalk, the children will be crying
after you "pay up, pay up!" I am a
citizen of Dundalk and tradesman and have
no trouble with my customers. It so hap-
pens that when they become customers of
mine they soon get well-to-do. The experi-
ment is worth trying.

ARMSTRONG'S
Family Medicines
Sold in Dundalk by D. DAVIDSON.
Dominion Worm Powders.
The Worm Medicines in these powders
are combined with purgative medicines.
This avoids the necessity of giving castor
oil or other opening agents after the POW-
ders; which is troublesome to the pa-
rent and disagreeable to the child. They
will positively take away the worms, and
the child has them.

COMPOUND SYRUP OF SQUILLS
AND IPECAC.
This Syrup is a specific for Croup. It
has never failed to cure the disease when
given in time. It is a prompt emetic and
will break up inflammation of the lungs,
Bronchitis, Influenza, Croup or whooping
cough. It also relieves whooping
cough when many other medicines have
failed. Keep it in your homes, it will save
your child from death some cold night.
Price 25c.

BRITISH ANODYNE.
No Pain Killer was ever offered to the
public as good as this pleasant and effectual
remedy for any pain or cramp of the
human family. Composed of 12 of the
best medicines in the Materia Medica.

AROMATIC RHUBARB CORDIAL.
For the cure of Diarrhoea, Dysentery,
Colic, Vomiting, Pain and Cramps in
the Stomach and Bowels, and
Children Teething.
This Cordial is not intended to soothe
children into an unnatural and disturbed
sleep, locking up disease and its cause in
the system, as most of the soothing syrups
and Godfrey's Cordial do. It does not con-
tain any particles of opium, or any other
narcotic, which so often produce alarming
symptoms, such as diarrhoea, violent
vomiting, stupor, spasms, convulsions,
paralysis, starting in the sleep, twitching
of the mouth, coldness of the feet, a low
pulse and often death. This Cordial will
remove all the above symptoms, and their
cause. This Cordial gently moves the
bowels and draws off poisonous matter from
the blood and eases pain the first dose. It
acts well on the Liver and Kidneys.

British Condition Powders.
These Powders are composed of nine
kinds of Medicines, all fulfilling their differ-
ent offices, viz.: Laxatives, to act on the
stomach and bowels; Alteratives, to act on
the liver and blood; Diuretics, to act on
the kidneys and bladder; Purgatives, to
act on the skin; and Tonics, to act on the
muscles and general system. They con-
tain Demulcents, Stimulants, and Carni-
vatives, to prevent griping of colic.
After the above explanations it may be
easily seen how a Medicine like these
Powders is able to effect a cure of all the
diseases to which horses and cattle are
subject.
These Powders are not recommended in
coughs or colds; although they are needed
in the cough powders when the horse is
in poor condition.
For Heaves and other the
BRITISH HEAVE POWDER
Should be used. They contain seven ar-
ticles expressly adapted to the treatment
of throat and lung disease.
We are satisfied from long experience,
that all Condition and Heave Powders act
better separately, because their ingredients
belong to classes of Medicines which neces-
sarily act in opposition to each other. The
Expectorants, Narcotics, Sedatives and
Narcotics in Heave Powders are, in their
effect upon the system, directly contrary
to the Tonics and Stimulants in Condition
Powders. For these and other reasons we
think it advisable to use the Medicines al-
ternately. If both Medicines are required
at the same time, give the Heave Powders
at night, and the Condition Powders in the
morning.
We defy the World to produce two better
Powders for general purposes.

CATARRH
CANNOT be cured by any other medicine
than the one we have discovered. It is a
disease of the bladder, and is attended with
pain, and is a source of great suffering. It
is a disease of the bladder, and is attended
with pain, and is a source of great suffer-
ing. It is a disease of the bladder, and is
attended with pain, and is a source of great
suffering. It is a disease of the bladder,
