THE GODERICH HARBOUR CON-

TRACT.

The pertinacity with which the average Tory politician adheres to a piece of scandal, reflecting injuriously on the character of an opponent, is something extraordinary. It is to no purpose that the charge and again been refuted. If it can only be some selfish object, the story is once more moment's consideration. To gain point, or perchance to injure a political opponent, is the one thing to be desired. everything else must be sacrificed. The Goderich Harbour matter, which

was fully discussed last year in the House of Commons, and one would have supother day. It is simply this :- The Detised for tenders for certain improvements peacefully those results that have gone Moore, of Walkerton. Tolton's was and his colleagues would have been over passed over as his tender on the testimony of the chief Engineer of the Department. was far below the actual cost of the work al pride. The reaction will doubtless come having been a defaulter in former Government contracts, and Ellis' as he refused to reply to certain interrogatories put to him by the Department, so that the contract was finally awarded to Moore, his tender sure of the British fleet before Constantibeing the next in order.

One could scarcely suppose that even an ultra Tory possessed of the keenest sense for jobbery could have detected anything wrong in this transaction. But not so, Not only is the Premier charged with robbing the treasury of \$30,000, this sum being the difference between Tolton's tender and that of Moore, but also that the contract was corruptly awarded to Moore on front, and should England be instrumenthe ground that he was a political supporter of the late Minister of Justice. Now, Greeks, the name of Earl Beaconsfield the only tangible reason alleged by the may yet be handed down in history equal-Opposition for making this extraordinary ly illustrious with that of Benjamin Discharge is a letter of introduction given by racli, the restorer of British household suf-Mr. Blake to Moore at the time the latter frage. Dr. Landerkin's Speech the Goderich Harbour Contract.

week, on the Goderich Harbour Contract Mr. Landerkin said the discussion had taken a wide range, and many matters had had showed his usual industry in bringing forward new matter. That hon, gentleman had referred to the case the failure of the attempt of the Opposition

to make political capital out of it. Mr. Speaker called the hon. member order, and stated that he had previously called the. hon, member for North Hast ings to order when introducing that mat-Mr. Landerkin said he approved the course taken by Mr. Speaker and had only mentioned the subject as an illustration of the stock charges of the Opposition. the hon, gentleman had to appeal to the country was the so-called outrage perpetrated at Goderich. What he desired action was that the work was let to Messrs. Moore & Wilson at a reasonable price and on the advice of the Chief Engineer of the the more sincere their profession the more Public Works Department. On it being who believed it was always absolutely nesuch a course would have been very preju dicial to the public interest; and it was desirable that the Government should not be bound by any such rule. He remembered a case in which a gentleman whom at a price too low, and in endeavoring to carry it out lost his property, and the pubthe money expended on it lost. That contract was disastrous, disastrous to the individual and to the public service. As warm supporter of the Government, believing they had honestly discharged the duties of their high position, and honestly administered the affairs of the country with efficiency, and great capability, he did not consider they should be bound down precedent for the guidance of the present Administration. The Government would way which he was represent not be guided by any precedent established however, it was of vast importance that ple were to judge, when called upon to deand he thought he would show why the hon, gentleman objected to any comparison (Mr. Sutton) was a most capable man, who being instituted. for Kingston, was \$120,569, and the reason alleged for giving the contract to the latter company was that the other tender was far below the value of the work, He dinilar cases to show how unwilling the hon, members of the Opposition were that these statements should be made and presented before the people of this country. The leader of the Opposition was appealing -he might say, frantically appealing to the people to restore him to power, and he (Sir John A. Macdonald) was desirous of relation ignored, he did not wish to depend

and acts in the past in asking for the sunport of the people in the future ; the hon gentleman desired to have these acts ignored, but though hon, members of the Oppo sition had .ande diligent search through the Departments in order to discover any. hing that might be amiss, all they had btained as the result of their search, be believed, was the matter of the Goderick contract, and it was very plainly proven by the hon, the Premier, that no wrong was done, that the person who tendered (Mr. Tolton), according to the opinion of the engineer, was too low in his tender. Ther these hon, gentlemen said Mr. Stirten claimed that Mr. Tolton was good and work. He had no desire to say anything tractor, and a contractor of great experience, and indicated that Messrs. Moore & Co. were not contractors of any eminence were many cases where the adoption of or reputation whatever, he felt bound to wealthy, received a Government contract buying grain, and this was honestly the on which was destroyed by storms and all was very efficient in that capacity. If he connection with Mr. Hall at Southampton, and at some other places on the lake cast, two Administrations, for by them the peo. & Co. were qualified men who had carried cide which party should govern the coun- that the Government had acted wisely in

efficient man. The hon, member for Niamember for Kingston had tendered for a man, he could not then be relied upon to 000, though his contract was nearly \$15,-000 less than that of the person who got it. He would ask the hon, member for Kingston, why he threw these \$15,000 into the bay? He would like to know the reasons which induced the hon, gentleman, or the former Minister of Public Works to pass over this distinguished individual who was now paraded before the House as being able, capable and efficient; and rejected and set aside his tender for one that was nearly \$15,000 higher? He did not know that he would have spoken at all on this question had not the hon, member for Kingston said he thought it unfair for the Government or their friends to examine into the conduct of those who had let contracts in former times. It was to these things that they had to look for guidance and direction; and if he had found when he came into the House that contracts were being fairly let and that the Government was administrating public affairs honestly,

this contract corruptly all these contracts while was quite prepared to a working for the pur richism.
