

Parliamentary Summary.

HOUSE OF COMMONS.

Ottawa, April 17th.

Hon. Mr. Cartwright presented a Report of His Excellency's reply to the address of the House.

After various enquiries were made by the Government in reference to the Pacific Railway, opening of new post offices, lighting and buoying of Red River, etc.

Hon. Mr. Gibbs called the attention of the House to articles which appeared in the Globe and other newspapers alluding to the conduct of some members during the debate of Friday and Saturday on the Quebec crisis, denying the correctness of the statements made as to the intricate state of Sir John A. Macdonald and other members, and characterizing these statements as being slanderous.

Other members of the Opposition following in the same strain. Mr. Wright (Ottawa) said that he had met Sir John Macdonald at tea on Saturday morning three o'clock in company with the member for South Grey and others, and he thought that that hon. gentleman would agree with him in saying that the leader of the Opposition was perfectly sober on that occasion. After some remarks from Mr. Currie and Dr. Orton in defence of the leader of the Opposition, Dr. Landerkin said that he had not been appealed to he would not have said anything upon the subject. It was true that he had taken tea that morning in company with the member for Ottawa (Mr. Wright), but he had had no conversation with the member for Kingston. He had not seen him drink anything, and it was not his duty to ascertain whether he was in a state of ebriety or inebriety. He had no desire to be dragged into a discussion on a personal matter of this kind, but since he had been appealed to he would say that he had never been more astonished in his life than to hear the hon. member for South Ontario (Mr. Gibbs) get up in his place and denounce the article in the Globe as a calumny and a slander, considering what had happened at the tea-table that morning in his (Mr. Landerkin's) presence and in the presence of the hon. member for Ottawa (Mr. Wright). When they were sitting at the table an hon. Senator had come in and said he had been accused by the hon. member for South Ontario (Mr. Gibbs) of getting the member for Kingston drunk that night. (Hear, hear. The Senator had made this statement publicly and openly, and denied the charge, and had made the further remark that "Brother Gibbs had better mind his own business." (Hear, hear.)

Hon. Mr. Gibbs (South Ontario) said that all he could say was that this was news to him.

After some further remarks by Mr. Bunker, Hon. Mr. Mills, and others, the matter dropped.

Mr. McCarthy moved for a return of the names of persons who had been appointed to office between January and March, 1873 inclusive, with the salaries attached. Also the names of persons whose salaries were increased. The hon. gentleman complained that the return brought down was not full enough.

Mr. Irving moved the House into Committee on the Bill to amend the law relating to stamps on promissory notes and Bills of Exchange. After some discussion and slight amendments being made the Committee rose and reported, and the House adjourned at 11:45.

April 18th.

Hon. Mr. Cartwright moved that when the House adjourns to-day it shall stand adjourned until three o'clock on Saturday.

Hon. Mr. Laflamme moved the second reading of the Bill to amend the election Act, explaining that the object of the Bill was to abolish election envelopes and to require the oath, before the returning officer, of the party putting his mark on the ballot paper, that he was unable to read. The motion was carried and the House went into Committee on the Bill. After some verbal amendments being made the Committee rose, reported progress, and the House adjourned at 12:15.

April 20th.

The Speaker took the chair at three o'clock.

Hon. Mr. Mills moved the resolution and non-concurrence of the House in the amendments proposed by the Senate to the Act respecting conflicting land claims in Manitoba. The hon. gentleman said the amendments were useless, were at variance with the policy of the administration of public affairs, and would have the effect of referring matters to a commissioner on which the Government would have ultimately neglect.

After some discussion the motion was carried.

The House then went into Committee of Supply, when a number of navigation items were agreed to, and the House adjourned at ten o'clock.

April 22nd.

The Speaker took the chair at three o'clock.

The House went into Committee of Supply.

On the item of salaries, &c., of Fishery officers, &c., a rambling discussion took place, in which several members took part. The item finally passed. Thereafter various items were agreed to for the support of fish breeding establishments, Marine Hospitals, inspection of Insurance Companies, &c. On the item for Geological surveys, Hon. Mr. Mills reported that 18,000 square miles had been explored by Prof. Dawson, 100 on the eastern coast of Hudson's Bay, and a great deal of interesting and important information as to the mines of the Dominion. After the grants to Indians of Quebec and British Columbia, and the amounts expended for agricultural implements, seed grains, tools, &c., for the Sioux on the Saskatchewan had been sustained, the House adjourned.

April 23rd.

The House went into Committee on the Bill to amend the Election Law. After some discussion the Committee rose and reported the Bill.

The House then went into Committee of Supply, when Mr. Bland moved that all duties on tobacco grown in Canada be

abolished. Hon. Mr. Laurier opposed the amendment on the ground that the climate of Quebec was unfavourable to the growth of good tobacco, that the present tax while contributing materially to aid the revenue, was not paid by the producer, and that the Opposition while in power imposed a protection duty on tobacco in face of the many objections thereto, and that if the hon. gentleman opposite got into power once more they would be running counter to the policy they now advocated.

Hon. Mr. Cartwright stated that home-growers of tobacco at present enjoyed extraordinary privileges, that the revenue derived from this source amounted to \$500,000 to \$500,000 yearly, and that this sum would have to be made up by taxing the necessities of life in the event of the amendment being carried. The discussion was continued by Hon. Mr. Langbevin, Tupper, Palaise and others until eleven o'clock, when the vote was taken, and the amendment was declared lost by 53 to 90.

The Committee rose, and the House adjourned.

Grey Spring Assizes.

The Assizes at Owen Sound were closed on Monday evening, last week, but as we have a communication, part of which we give this week, which notices at length the more prominent cases, we shall only notice briefly the balance of the proceedings.

FRIDAY.

Queen vs. James May.—This was another case of perjury against the defendant, somewhat similar to that on which he had been convicted on Thursday. Mr. May having laid a similar information against J. J. Middleton, J. P., who sat on the case with H. Graham, J. P. to the one which he laid against the latter. Verdict, Guilty. A. Frost for the Crown; S. J. Lane for the defence.

Frost vs. Creighton.—This was an action of slander brought by Mr. John W. Frost, Barrister, against Mr. John Creighton, Chief Constable of Owen Sound. Verdict for plaintiff, with \$10 damages. T. Ferguson, Q. C., and Frost & Cowper J. plaintiffs; J. Mason for defendant.

The Grand Jury brought in no Bills against Dr. McGregor, Lemuel B. Fletcher and Thos. Hopkins, but a true Bill against Thos. Duncan for rioting at Chatham; also another true Bill against Jacob S. Benner for perjury.

SATURDAY.

The Grand Jury came into court and made their presentment, calling attention to the letting up of riotous and drainage of the jail, and referring to the perjury cases brought before them.

The case against Benner, the detective, for perjury, was called on, and Benner was acquitted, but on the other the Jury brought in a verdict of guilty. Judgment deferred.

James May, convicted on Thursday of perjury, was sentenced to six months in the County Jail, and six months more for the second offence.

Mary Bent, also convicted of perjury, was sentenced to three months imprisonment.

Robert Dullivant, a boy of 16, convicted of larceny, this being a second offence, was sentenced to six months imprisonment.

Jacob S. Benner gave bail in \$200, and two sureties \$100 each, to appear at the next Assizes and receive sentence for perjury.

Several civil cases yet remained to be tried, but as the Judge could not remain longer, they were made remanet.

CANADIAN ITEMS.

The population of Manitoba is increasing at the rate of one thousand per week.

A large match factory, which will employ about 125 hands, is to be started at Penetanguishene.

Extreme destitution prevails in Labrador, and fears are entertained that, unless assistance is promptly rendered, many people will die of starvation.

A ruffian who attempted an indecent assault on a little girl has been sentenced at the Norfolk Assizes to be flogged, in addition to imprisonment.

Fort Francis adieu state that the work on the canal is actively stopped, but about one hundred and fifty men are working on the rapids of Rainy River.

There has been more rioting in Montreal, the occasion in this instance being an open-air political meeting held in the Eastern Division on Saturday night. A mob of rowdies attacked the meeting—which was called in the interest of the Liberal candidates—stones were freely used, and some thirty persons were more or less injured.

The present Minister of Militia shows such an acquaintance with the affairs of his Department that even some of the Opposition are praising him. When the items of this department were under discussion the other night, his ready answers to all questions, and his thorough knowledge of every detail was remarked by every one in the House.

MISCELLANEOUS.

Raids of Indians from Mexico are causing great alarm in Texas.

The British Parliament House has sunk over two inches during the past year.

During a recent gale on the Spanish coast some 150 fishermen lost their lives.

Several large contracts have been received in the States to supply Russia with torpedoes.

Confessions are said to have been made in Florida, giving details of the frauds by which the State was carried by Hayes in 1876.

Tahiti was visited by a severe hurricane on the 7th of February, during which 120 lives were lost and much property was destroyed.

Great damage has been done by recent heavy rains and high winds in Tennessee and Iowa. In the latter State the loss of life has been considerable.

From different points in the Western portion of Ontario are reports of destruction of property during the recent thunder storm. Several barns were destroyed by lightning.

The Revolutionary excitement throughout Louisiana continues unabated, and there has been serious rioting in most of the large towns. Disturbances are also threatened at various centres of education.

It is estimated that between eighty and ninety thousand Lancashire cotton operatives are on strike, including sixty-four thousand weavers. The strike at Preston has collapsed, and the spinners at Burnley and other large towns have given way, but are unable to start work in consequence of the absence of weavers.

STRANGE BUT TRUE!
