## Durham, May 16, 1878.

-The dastardly attempt made upo the life of the Emperor of Germany the other day has most fortunately failed in its purpose. The would-be assassin and an accomplice are under arrest. The Emperor is deservedly receiving the cangratulations of his own people and the Governments of Europe at his fortunate escape.

-The By-law granting \$25,000 to the Wellington and Georgian Bay Railway will be submitted to the ratepyers of this town on the first day June next. As our citizens are quite alive to the imance of securing railway accommodation it is not necessary for us to say anything as to the merits of the scheme which is thus blaced before them. We observe that similar By-laws of \$15,000 each are to be submitted to the ratepayers of Mount Forest and Palmerston this week. There does not appear to be any doubt whatever about all these being carried.

-The Eastern Question still continues thing yet to cause uneasiness in the minds men so evidently lost to all right principle. town in Ontario. Company to enable them to com- always repudiated by them. "I do not

#### TENDENCY TO EXTREMES.

We have just seen that Plymouthism had its origin in a revulsion of earnest pious minds, from that ceremonialism, clerisy, ritualism which has been developing so fast, of late, into Pusevism in the English Church. Dr. John Duncan, one of the acutest thinkers of our day, and one whose thoughts have often the pith ar terseness of oriental proverb, has put the whole history of the movement in six words :- "Puseyism a carcass : Plymouthism a ghost" These two opposite, contending religionisms did not at once sume the extreme form attributed to them by Dr. Duncan: but no sound intelligent Protestant, no matter what Church he belongs to, can fail to see that as the tendency of Puseyism is to eliminate from the Church individual life, energy independ- have gone most in favor of baptism by imcase; so the tendency, on the other hand Plymouthism is by eliminating organization, order, rule, government, to pervert the Church into a bodyless ghost. There This may be made out almost to a moral Craig, of Walkerton, seized an illicit still clearly showing, that in the direction indicated above there lies the inevitable de- Christians," the "primitive Christians," as copper, and is said to have been, at one velopment of these two opposite poles of they are called by the advocates for dip- time, in use in the highlands of Sectthe religious thoughts of our day-extreme ping, that is, Christians of about the age land.
