REVIEW

Durham, November 21, 1878

-There is a project on foot to build branch line from Waterloo on the Grand Trunk Railway to Drayton, and thence to the Georgian Bay by way of Mount Forest or Walkerton. In the future there will surely be no lack of rival railroads and reduced tariffs.

-The United States Government have interested, a further amount has been conat last after indulging in a considerable tributed by the shareholders, the Ontario torrent of high-fallutin' resolved to pay Government has promised to give the cash the \$5,500,000 award due the Dominion scheme its careful consideration, and prosof Canada on the Fishery question. The pects of aid from Hamilton are given by Newfoundland embroglio has also pro- prominent citizens of that city. And we wonderfully low prices. bably received its quietus by the unanswer- may add that some assistance, if required, able despatch of the British Government would no doubt be obtained from the town to Mr. Evarts, Secy. to the United States of Guelph, which, next to Hamilton, would Government.

-The Halifax Chronicle says that it is the construction of this line. There is thus intended to present the Hon. Mr. Mc. good grounds for supposing that within and we hope that the movement will be prescuted with vigour.

-The Hon. M. C. Cameron has been elevated to the Bench as puisne Judge in the Queen's Bench, and Chief-Justice Hagarty has been appointed Chief-Justice of the Court of Queen's Bench in room o the deceased Judge Harrison. Mr. Cameron has long occupied a distinguished place at the bar, and in the opinion of his professional brethren he is well qualified for the distinguished position which he now occupies. Mr. Meredith of London is expected to succeed Mr. Cameron as leader in the House of Assembly. Since the above was put in type we learn that Sir John is not sure as to the appointment of Mr. Cameron.

tive journal says "that it is quite probable conveniently and cheaply receive railway that the admission of Newfoundland to the service by the construction of a branch Dominion of Canada will be one of the from some point, let us suppose in the issues before Parliament at the coming township of Sullivan, on the Georgian Bay Elvidge, about half-a-mile south of Dursession." The Newfoundlanders have in and Wellington Railway, to Wiarton; or ham, in Glenelg. The chimney had been contemplation the building of a railway from Walkerton or Paisley on the main across the island, which the Free Press line of the Wellington, Grey & Bruce R.R. being very certain that the house was safe, Trustees, and your numerous other readers, anything, now wields the destinies of It is quite apparent that the completion Canada. And Sir John A. Macdonald will of this line will interfere with the public debt will be increased by a good every means to defeat it. However it should never enters into the calculations of done in the interests of the country as a scheming politicians.

THE CARRYING TRADE AND PRO-

TECTION. At the present time Canada is the sixth maritime power in the world, although speaking comparatively, born only of yesterday. Under the wise and judicious trade policy of the late Government the tonnage of our shipping has undergone rapid de velopment in spite of the hard times. No long since the neighbouring Republic was bidding fair to take the lion's share of the carrying trade of the world. However a fit of insanity overtook the Yankees, such as lately has got possession of the people of Canada; a high protective policy was put in force for the purpose, it was avowed, of making every body rich, and the result of which was that in a few years the Ocean. That this is not clap trap will be once seen by reading the following extract | number of candidates are already announcfrom a report sent lately by Mr. Mountjoy ed. In the other Townships of this Ridin the American Consul at Peru to the United | municipal matters are being talked up. In

States Government :--"The British free trade system enables England to sell by so much percentum less than the United States than is levied by tariff and internal revenue on manufactured articles in the latter country. thing to be sold and where everything can be bought, with whom all exchanges are made and who is the world's banker against om all bills are drawn, whose freights are cheaper, and whose communication is rapid, whose long-established mercantile commission agents time to make sales an

No one can gainsay the correctness this opinion. Mr. Mountjoy is remonstrating with his Government on the suicidal We will take \$1 in payment for policy they are pursuing. Yet the people each back yearly subscription, of Canada, with this example before their when accompanied by next eyes, have embarked upon the same sea o

THE GEORGIAN BAY & WELLING

TON RAILWAY. In another column will be found a report of a meeting of the Hamilton Board Trade on the 14th inst., at which a deputaion appeared from the A. above Coy. Priceville. The position and prospects of this Company were stated by Messrs. McKechnie and McMullen, the President and Vice-President of the Company, and by other gentlemen who were present. Mr. Adam Brown, nember of the Board of Trade, who has always shown a lively interest in any railway project which may connect the county of Grey with the city of Hamilton, then spoke strongly in favour of any assistance Hamilton could give the scheme in question. Other gentlemen followed in the same strain, and finally a deputation was appointed to bring the matter before the notice of the City Council.

It will thus be seen that the W. &

G.B. railroad is no shadowy project, but that it has become a reality. A large sum

perhaps be the most largely benefited by reasonable time the first section of the \$7000 per mile are on hand, will be built praise cannot be given to Messrs. Mc-Kechnie, McMullen, Parker, and other gentlemen, for the success which has crowned their efforts so far. But a great Owen Sound is the objective point on the hat overtures have been made privately to | Holstein

MUNICIPAL MATTERS. - The coming municipal matters are beginning to exercise the minds of the electors. In Glenelg a Proton there will be a keen contest for the offices of Reeve and Deputy-Reeve, but it will be a sturdy candidate that defeats the present Reeve. Mr. Samuel Fleming, who has been in the Council a number of years. will again be a candidate for Deputy-Reeve. In Melancthon, some new blood will likely be introduced, as Mr. N. B. Allin, will be run forCouncillor, and probably the present Reeve and Deputy-Reeve will be re-elected. as the Council this year has given much better satisfaction than the one last year did. In Osprey, Artemesia, and Euphrasia

"STOP MY PAPER!"

That the disinterested advocacy, by the "REVIEW," of sound principles of government, should have provoked the attacks of our opponents, is only what might be reasonably expected. These attacks we have borne with the greatest magnanimity. and have combated as best we coul But to stifle expression of enlighten opinion, can only be attempted by the Robespierres of society - those whose notions of political economy rise no higher than the fees of a pettifogging attorney's office. We have lately been favoured with peremptory orders from two individuals to STOP MY PAPER!" The one came from a renegade radical, who was, no doubt, conscience stricken with the plain truths which have appeared from time to time tributed to the programme of the evening, in the columns of the REVIEW; and the other from a newly fledged M.P. not quite thirty miles from our office, who has lately, by some singular accident of fortune, been at Ottawa has appointed Wednesday, 4th transferred to a seat in the House of Com- December, to be observed as a day mons - a transition for which nature national thanksgiving throughout evidently has not fitted him, and whose Dominion. As a last resort, he writes to the been built too far from Durham. The speaker recapitulated the statistics submitted for the consideration of Attorney-General Mowat, published in to-day's Globe, and closed with the hope that Hamilton would assist the scheme.

Mr. Hunter, M.P.P., said that the people of his section of the country had always nocently enquiring "Are you the Chairman Hamilton, but their efforts had hitherto

and throws himself upon the resources of the several other members of the deputation successfully, for the higher-priced butter winds for comfort. When last seen he had having expressed themselves on the sub-

> Mr. Adam Brown said he was very strongly in favour of any assistance Hamilton could give the scheme in question, material or otherwise. He dilated upon the benefit the line would be to the city, and hoped it would be supported. As far as he was individually concerned he would do all in his power to further the project. He believed that farmers in the section indicated would strenuously support the Georgian Bay Line, which, in his mind, would be a good thing to Hamilton

> Messrs. James Turner, A. Hope, D. Mc-Innes, and Brown, all spoke favourably of the scheme, and hoped the city would give it every encouragement.

It was then moved by Mr. A. T. Wood, seconded by Mr. John Stuart, and after
