A heavy rain storm prevailed over the Dominion and a large portion of the Norbridges were swept away and railways washed out. Several trains ran into "wash outs," in some instances with fatal results. Twenty years ago in Bulgaria there was not a scho l. Now every village has one.

Even to the south of the Balkans the de sire for improvement has extended. In the province of Philippopolis there are 805 primary schools, 15 superior schools, with 356 teachers and 12.400 scholars ; 25 girls schools, with 37 teathers and 2,265

The Ameer of Afghanistan, it now ap pears, sent a conciliatory reply to the British ultimatum, in which he expressed his desire to resume his former friendly relations with Britain, and his willingness to receive a British mission at Cabul. The messenger conveying this despatch, howmy one of the parties concerned in the ever, only arrived at Ali Musjid when that tronghold was under the attack of the British troops. The Ameer, though displaying anger at this failure of his intentions, despatched a second letter to the Viceroy, which is said to be defiant in tone Shere Ali has fled from Calul into class meat consisting of Beef, Mutton, Pork, and Turkes'an, and the British troops are t sixty feet from the root. The chepper contemplating an advance on Jellalabad

> TRETH AT THE BOTTOM OF A WELL. Truth comes to us as gold is washed down the mountains of the Sierra Nevadas, in minute but precious particles, and is still truth, though it be found at the bottom of an oil well, like Carboline-the great natural hair restorer, which effectually prevents the falling out of the hair, the accumulations of dandruff, and the premature change in color due to a diseased condition

of the scalp and the glands which nourish the hair. It is well known that the most beautiful colors are made from petroleum, and by some mysterious operation of nature the use of this article gradually im-parts a beautiful light brown color to the hair, which, by continued use, deepens to a black. The color remains permanent for an indefinite length of time, and the change is so gradual that the most intimate friends can scarcely detect its progress. In a word, it is the most wonderful discovery of the age, and well calculated to make the prematerely bald and gray rejoice. Carboline is put up in a neat and attractive manner, and sold by all dealers in

drugs and medicines. ADVERTISING DODGES. We know of nothing so well calculated to put the reading public out of humor as to begin a very interesting account of some

scientific discovery, replete with interest, and just as the reader's mind is thoroughly imbued with the subject, and a gigantic effort being made to grasp it in all its bearings, away goes the author in praise of some patent medicine or new-fangled hair-renewer; for instance, CARBOLINE, which, by the way, is an article of genuine merit, and has really done wonders in the hair-producing way, as hundreds of certificates from well-known citizens amply testify. It is cleanly, and so penetrating that the disease is reached, and a radical change for the better takes place almost immediately. It contains nothing injurious; is, in fact, a natural hair-restorer, made from petroleum, thoroughly deodorized and delightfully perfumed. It is sold by all dealers in drugs and medicines, at
