----THE NOMINATIONS.

The nomination of Municipal Councillors took place on Monday last throughout the Province, and in another column will be found a list of the numerous candidates for Municipal offices, in the neighbouring Municipalities. That there should be such an excess of candidates is very much to be deplored, for it indicates a spirit of restmo doubt at the year's end be out of pocket the sympathy of the community in their many imagined it was easy to preach and from twenty-five to thirty per cent than directly, independent of the great loss sad affliction. which he must inevitably sustain by neglest of the farm or the shop : and there ne possibility of his being recouped. Let us ask how many of the Candidates car afford this loss? We have heard Councillors in the county of Grey, who, a the time of the spring freshets, made point of watching the bridges lest, for sooth, they might pass down stream, and then charging the Township for many days duty thus performed; and still further, of councillors who having a sum of money to expend, would contrive to have distributed over the ward in jobs of a de lar a piece. But let us hope that the race to which those worthies belonged is extinct, and that should any specimen still survive, that the ratepayers will, once for all give hum the quietus.
