"Oh dear! to live with her own "kin agein," she and the same time making a slight sign to a not arise from his being independent of it. cabman who had stopped his vehicle to see His clothes began to wax shabby, and this circumstance, sharpened by Eve' of for "keeping himself to himself," had Jim gladly availed himself of the offer, power of observation, she saw that most of "at the worst it would not be so bad as that. Manchester, so that when his mother and entered the cab, while the peliceman stage the clothes were carefully furbished 50,000 years instead of a tew hundred, Even if I were taken, I would not be shot; Eve arrived the three became all in all to mounted beside the driver. The instant up, and were worn with a sort of defiant and after all," he added, his tone becoming each other, and entered upon a brief the door was closed Jim gave way to his jauntiness, but to female eyes that had genuinely hopeful, "if you'll help me, the period of happiness that would have been feeling of grief and desolation, and cover- seen him in the dressy Knightsford days and it was a state of affairs under which the army, and for pretty much the same impending sword that hung over him would He made no denial, attempted no defence, Mr. Stone showed to particular disadvanone in a hundred of them that is ever quite forget that he was a deserter, and known to the authorities, and he was a man who in a great degree was made by ed to death in Campbellford a few days ago taken again. England is a big place, and that accident might at any time cause the leniently dealt with. After a brief term of the coat. Wuatever imitation he had was by falling into a pail of hot water.

(TO BE CONTINUED).

The present state of trade in England

will inflict a financial blow on the Trades Unions from which they will take long to recover. It is no secret that in many of the unions the funds are almost exhausted. and that in others they are gradually disappearing owing to the heavy demands upon them. Nor is this all. The number of contributors is falling off. Men whose wages have fallen 25 or 30 per cent. find it One resides in Port Hope, another in di.ficult to continue to support the union, Bowmanville, and the third in Chicago. and they are the less inclined to do so now. Some of the artisans were foolish enough to believe that by joining a union they could ermanently maintain the price of their about above the market rate. This deludistricts it has produced a decided feeling of coldness towards the unions. Every one officials on the accession of a new Governunions should be maintained; but their economical influence has been seriously and perhaps permanently impaired.

Further reductions of wages are announc-

Velcanic Phenomena in 1878.

The year 1878, it has been said, will be

memorable rather for the bursting of

monetary bubbles, and the shock given to commercial credit, than for the volcanie eruptions and earthquakes. Nevertheless so far as the latter phenemens have yet been chronicled, subterranean forces would appear to have been more than usually notive during the past year. The contomplation of a carthquake map is by no means fitted to reassure the nervous, inasmuch as it shows that the liability to this form of terrestrial plague is well night universal, the least shanky countries, according to the map, being unfortunately Briefly put, the assistance be wanted to herself arising out of the meeting, would her savings, partly because she had heard The truly reasoning feature, however, lies those that have also been least explored from them was the looking out for him of account for her blank look of terror, her of banks breaking, and the like, and feared in the fact that there are earthquakes and the civilian civilian civilian change had left behind cowed and trembling manner. With the for her treasure, but in a greater measure earthquakes which sufficiently explains why particularly his "working" suits; and a guessed the true cause of her agitation est pleasure a'ter the long day's work was Chili so much, although during the present little money to supply his immediate and it was this that brought the smile of done, was to look at, and to handle and to century there have been as many earthwants until he could obtain employment sneering triumph to his countenance. "Oh count the money. She delighted to watch quakes in the one as in the other. A in some large town. Clothes and money oh!" he laughed, "I've fluttered the dove- the hardly - spared German professor, who has kept a record were of course instantly forthcoming, and cote, have I? I'm pretty smart, you shillings mounting up and up till they of all the known eart's quakes for a considthen after lying down for two or three hours know, Eve ; I'lay odds that if I follow could be changed for a sovereign, and she erable series of years has ascertained that pale and thin, but she was sustained by the come. It will be found, however, by under the circumstances she could possibly lippine Islands and Java which form produced a vague, but none the less op- earthquakes in 1875. Although the data wish to come in the first instance," he fact of Jim's enlistment had become known ing her former lodger had hurried after He knew where she lived, and made a agree with present statistics as to the great
