traversed by foreign exhibitors will, no back than the beginning of the present doubt, militate against the success of the century. In ancient times the treatment authorities of the Province are making barous character. In the early days of Bedevery preparation to make the Exhibition a success.

-The Government of Sir John Macdonald has been very busy since 17th of September in bestowing offices upon its friends-in many cases discharging old servants in order to make room for the new comers, and in others creating partment has the increase been greater than in the office of official assignee. our own county several new assigned have been appointed-not indeed in South Grey, for reasons well known to all parties concerned-but in North and East Grev However, we learn that Mr. Coiby, a sup porter of the Government has given notice of a Bill to abolish the Insolvent Act, by Official assignee will cease to exist. Globe in commenting on this says, that it is another illustration of Sir John ready method of dealing with troublesome office-seekers.

ADULTERATION OF FOOD.

We have received the Report on the these five institutions last year was 2,546, Adulteration of Food for the year 1878. being an increase of 505 over the previous It appears that 813 samples have been year. This forms the large proportion of 1 as adulterated, and 19 as of doubtful purity, | portion of females is slightly in excess of As to the adulterants, it is satisfactory to know on the testimony of the analysts. that they are generally of a harmless the larger proportion is furnished by farmcharacter. Still it is very unjust to the ers, domestic servants and labourers whereconsumer, and morally very reprehensible as the various trades furnish a small in the manufacturer, that the practice of portion comparatively. The causes of inadulteration should be allowed to attain sanity are very important and offer a wide the gigantic proportions which it has done and profitable field for investigation to the in our day, and in this country. In Great statesman as well as the physician, but Britain where the Adulteration of Foods the classification of causes given in this Act is rigidly enforced, the practice is Report is very defective and is of very reduced to a minimum, and we hope the little use. This is the only defective porlike result will soon be reached in Canada.

Sugars, especially heavy brown, are often adulterated, though generally they have been found pure. The adulterants were ject. For instance heredity is admitted on sand, iron, water, flour and glucose or all hands to be a most powerful factor, if not grape sugar. The former are of course injurious, and the admixture of them fra: - disposition to insanity. But the report here yet. dulent, but as to glucose, its presence is not simply gives the number of patients, whose injurious, and may be only incidental as in | ancestors we presume, were themselves the process of manufacturing sugar it may be afflicted with meanity, -and of these there generated by various causes. However, was the large proportion of 1 to 44-without when it reaches the proportion of over ten giving any clue to the diseases to which per cent. there is good reason for supposing their ancestors were liable. Again there that it has been intentionally added to the is no information as to the diseases to which sugar for purposes of fraud. And should the patients were liable before admission the Government adopt the drawback policy This is to be regreted, for a knowledge of on exported sugars, the Report for 1880 the previous disease, which together with will certainly show a very free admixture the hereditary predisposition form the pre- Thornbury, had her leg broken one day of glucose in the manufacture of sugar. disposing causes, would throw much light lately, by being run over with a sleigh load-Glucose is cheap, easily manufact on the nature of the insanity and its treattured from potatoes, starches of all ment. The Report contents itself simkinds, and even saw dust, and as it posses- ply with giving in a rough and ses a somewhat sweetish taste and re ready fashion a list of moral and resembles cane sugar in several respects, it physical causes. From this table we is difficult of detection.

Teas of a high price-black, green and domestic trouble-a most indefinite and Japan-are seldom adulterated. On the unscientific term - Religious excitement other hand, low priced teas are innocent and business anxiety, were the chief ex. Crockery, etc., which he is offering at ex entirely of the presence of the tea citing causes of the attacks of insanity dur- tremely low prices. Council adjourned to meet at the Revere House, Markdale, on the 10th of March

Covernor-General

At its last meeting, the County Council of Grey very properly resolved to send an address of welcome to the new Governor-General. The address was graciously received, and the following reply was sent to the Warden:

To the Members of the County Council of the County of Grey

Mr. Warden and Gentlemen,-My sincere and grateful acknowledgments are due to you for the message conveyed to me by you on behalf of the County of Grey, telling me as it does of the wish on the part of the inhabitants of your County to renew afresh the pledge which they at all times have been ready to fulfil, of loyalty and were your fathers to sustain at all times the liberty, the civil and religious freedom, and the love of order and obedience to the law, which it has been the boast and glory of our constitution to maintain to the fullest, causing these blessings to find in Can-

ada an abiding home. Her Majesty the Queen has heard with emotion the manner in which throughout this country the people have testified their sympathy in her recent grevious loss, and I thank you that in alluding so kinds to my entry on the duties of the high offer which has been entrusted to me, you have taken the opportunity to offer to Her Majesty your condolence

I shall have the honour to traffsmit the words of your address to the Queen, and I thank you for the good will you have expressed towords the Princess and myself.

There are now twenty-eight prisoners in the Guelph goal. Four Bowmanville brothers by the name of Hobbs, have fallen heir to £100,000 in

The steam flouring mills owned by Wildon, Lunn & Liven, situated near the crossing of the Canada Southern Railof way, St. Thomas, were destroyed by o'clock. The loss is supposed to be about J. H. EASTON. \$8,000.
