## REVIEW

#### Durham, March 27, 1879.

-The Legislative Council of Nova Scoti has decided, by a vote of thirteen to seve against the Bill to abolish the council. amendment, however, was passed to reduce the number of its members to Mirteen, and to reduce the sessional allowance and all official salaries twenty-five per cent.

-Ocean telegraphy like other departments of practical science is undergoing things, great improvements. Twenty-five years ago there was not an ocean cable in the world. A few short lines had been laid across the English channel, but all were in shallow water. Now there are ansover 70,000 miles of cable crossing seas and vexations it will appear to be. Instead wer occans, and lately an invention has been being protective, in the sense of protecting announced whereby at least ten messages everything and everybody, it is a most of a pf twenty words each can be sent to any cunningly devised scheme for the enrich distance over a single wire in one minute, ment of a very few and the impoverishmen while it is claimed that in half-an-hour of the many. But of all classes of word for telegrams sent during the day.

that while pine lumber and timber used i the construction of dwellings, &c., are charged twenty per cent as valorem, lumber of boxwood, cherry, walnut, chestnut, mahogany, pitch pine, rosewood, sandal wood, Spanish cedar, oak, hickory, &c. not manufactured are admitted free Verily Mr. Hay, furniture maker at Torouto, has looked out for number one supporting the Government of Sir Joh Macdonald. The hardwoods mentioned are grown in Canada, and if the readjust ment of the tarriff had been equitable, a duty should have been placed upon them. so as to shut out American woods, and thereby increase the profits of the Canadian farmer. But then Mr. Hay stood in the way. Last fall he sold himself to Sir John A. Macdonald, the quid pro quo being a heavy duty on imported furniture and duty on woods used by Mr. Hay in the manufacture of furniture.

the late elections, and was very forcibly tweeds, shawls, &c., which pay a duty week the day on which the new tariff manufacturers at the expense of the whole replied, "I was not going to pay could be more fallacious. It is not by readily imagined than described.

### DR. LANG ON REVIVALS

ery, the Rev. Dr. Lang discusses the ques- tempts at retaliation on the part of the tion of Revival and Revivalism. Dr. Lang, Government, will have the effect of exasenlooker, but while many others stood National Policy. ploof, he threw himself into the current of revivalism, took an active part in revival meetings, and defended the revival movement from the platform and in the press. It is very difficult to form a correct judgment on the good and evil in any public agitation while events are in progress, but now that several years have clapsed, since the wave of revivalism in which Mr. Moodie played so prominent a part, and i which Dr. Lang took a very lively interest. passed over Scotland, and now that the peared, it is to be expected that a calm and dispassionate judgment may be arrived : in a very candid spirit. After pointing out systems of belief which have influenced received correct ans. to "grain question" from men, that in the religious revival move. John D. Leith, Dromore, and J. R. Marshall, - nature is not outside of church order but length the nature and results of the revival morning. The deceased gentleman held movement of 1874 in Great Britain, and the position of teacher of the public school the causes of the opposition shown by many here and was well known and much re-

contended for by "Old Paths" and others. It was urged that those who go forth to 16th, Mr. Johnston Smith's steam saw mill preach should have the imprimatur of the at Elmwool was totally destroyed by fire Priceville, church, otherwise great mischief might Loss about \$4,000; insured for \$1,800. result to the cause of true religion. The cause of the fire is unknown is the conclusion to which Dr. Lang, a Pray On Monday morning about tw strong friend of revivals, has come after cold colors, a fire broke out in a baker's sh siderable experience and several years re owned by Mr. E. A. Goodeve, Hanover flection upon the subject. Indeed, it is and the fire crossed the road and burne difficult to conceive how a different opinion another store which was formerly occupie Every one will admit the necessity of or- was not any insurance in either case. ganization and a central authority in carrying forward any work, secular or religious And it is to be regretted that the spirit of

modern revivalism would seem to impel his dog, and pulled out a large lynx or wil the leaders of the movement, not only to place themselves outside of church organ ization, but above it, as we have witnessed in this town and neighborhood; and thereby, not only frustrating the cause which they profess to serve, but as Dr. Lang says, "with infinite harm to themselves and the risk of doing hurt to religion by crude and often foolish expositions of Divin

#### THE NATIONAL POLICY.

The more the Policy of the Governmen is examined the more disappointing and messages equal in variety and extent to comunity, there is none upon whom the a copy of the largest newspaper published new tariff will tell, first and fast, with in America can be sent around the globe. more oppressive force than farmers and property of the American Cable Company, country. It is an old adage that the farword for night messages and five cents a burden and ate least of the hay, and verily night.
