Editor Review.

last week appeared a so-called Sympathetic communication by Glenelgite who, while composing it must have been either troublelectors of South Grey at the following ed with indigestion, or else was the victim of some morbid melancholy which seriously affected his cerebral organ.

Let us briefly review this production of our Glenelg friend, and try if possible to correct false impressions which are evidently being created in the minds of some, at least, of the worthy gentlemen of that township, concerning the so-called poor boys of Bentinck. In the first place then let us notice that the "jovial young man' in question considered (according to Glenelgite's version) the obtaining of a betterhalf a "tedious task.' We hope this was not the case. But he must have been very difficult to please, or else Glenlgite is casting a serious slur on the character of the fair young ladies of Glenelg-a thing which we are by no means willing to allow.

Nevertheless we are proud to think that our Township was competent to supply deficiency which evidently could not be supplied in Glenelg.

But about the grief and lamentation caused by this beregvement to the young Bentinckites, I fail to see where it was. Glenelgite here no doubt speaks from experience, and is seemingly measuring others by his own half-bushel; probably some foreigner came to Glenelg and having found the object of his admiration, took her away, perhaps leaving poor Glenlgite himself in bitter grief and lamentation, but we pass on. Next in order worthy of comment comes the estentatious reception they received from us on their arrival in Bentinck, so far so good, but I wonder if Glozelgite knows what is really ment by ostentations, if he does, surely he did not see much os-THE Division Court held here on Tues- tentation about the Bentinck boys on that day had a large attendance-A sign of the Wedding day, although the Bentinck boys might truly say that the Glenelgites were slightly ostentatious.

Glenelgite was surprised to see the Bentinckites assembled in their "Holiday costume," what may we infer from this? but that the Glenelgites were there themselves ecasion did not warrant such display the part of the Bentinck boys.

Further, he says "had he lived in Bentinck he would show the boys there an exthe wedding as well as he could." Rentinckites, this of Glenelgite is extremely rich, just think of taking the example of a copy. Who would imagine that Glenelgite aim or his example? and yet he himself would seem to think that we "poor Beninck boys" aught to do just as he did.

Beware.

To the Editor of the Review.

The L. C's have at last a candidate in the person of Mr. Jas. Fahey, of Stratford. In their choice they have shown their usual cuteness. There is plenty of local talent in their ranks-too much, possibly-but there were none who possessed the qualifications of this Stratford editor. So, local talent good and true, must stand aside, the ne cessity of the hour demands it. Mr. Fahev will, no doubt, advocate the cause of the Stratford and Lake Huron Railway, and hus, it is supposed, will eatch the vote West Normanby.

But, Sir, his main qualification seems to be that he is a Roman Catholic and that he will thus get the solid vote of the Catholics of Glenelg and Normanby; but they are sadly mistaken. Do they imagine that we the Roman Catholies of this Riding, will be compelled to vote for their candidate. simply because he is a Roman Catholic What! are we going to bring our religion down to the level of party politics? The Record of the Mowat Government.

On the eve of the general election it is well to remind the electors what the Mowat Government has done during their term of office.
