REVIEW

Durham, June 5, 1879.

York, yesterday.

-The Londonderry Iron Works of Nova Scotia, have been closed as a direct consequence of the working of the N. P. The duties on iron and coal have increased the working expenses so as to render the carry ing on of the works unprofitable.

-In the report of the Chief Engineer the Dominion Government, lately issued, Mr. Sandford Flemming states that on carefully considering the commercial and engineering features of all the routes proposed for the western extension of the Canada Pacific Railway from the Rocky Mountains to the seaboard, the conclusion was forced upon his mind that the Railway itself would be least difficult to construct, that when constructed it would be easiest operated and that general interests would be most consulted by following the route to Burrard Inlet. From the Report we learn that the whole of the Railway between Fort William and Selkirk in Manitoba is under contract. The length of this line is 410 miles, and the estimated cost \$18,000,000.

great Irish Bard, Thomas Moore, was cele- Railway Company. And in this he did brated con amore in most of our large what he was called upon, as the Representowns and cities. In Montreal, Toronto tative of the whole Riding, to do, and noand London the evening was devoted to thing more. That the wire pullers of the music and song, as it should be on such an | Conservative party can take any exception occasion, and the audiences if not very large to his action in this matter only shows would appear from the newspaper reports how ignorant they are of the duties and to have been very appreciative. Mr. Moore responsibilities of members of Parliament, it to the deputy-returning officer, and see was a native of Dublin, and very early in and that the spirit of tyranny is as genuine life began to rhyme. In 1813 he commenc- a characteristic of the Conservatives of toed writing lyries for the ancient music of day as it has always been of their Tory his country, and in 1817 produced "Lalla ancestors. Rookh." This is the most elaborate of his It is to be observed that the above docudown to posterity as the author of the Irish in the West of Normanby and Bentinck ry of Scotland.

-William Lloyd Garrison, the great abolitionist, is dead. Born at Newburyport, Massachusetts in 1804, he became a printer by trade, at the age of eighteen, and soon after contributed largely to the columns of several newspapers devoted to temperance and the abolition of negro slavery. In 1071 he commenced the publication of the Liberator in Boston which was begun for the purpose of advocating the cause of the the poor slaves and was continued until the abotition of slavery rendered its continuance no longer necessarv. Mr. Garrison was a man of one idea him in the great work of rousing his fellow out of the land, but only one is now left-Wendell Phillips, who the other day followed the remains of William Gerrison to the grave.

-Mr. E. H. Lowe, of Nottingham has written to the London Times stating that from a long series of observations he has come to the opinion the weather cycle recurs every eleven years. Thus he says that every eleven years drought and heat are experienced of about three years duration. If Mr. Lowe's opinion prove to be a 1879 to be similar to that of 1868, which was one of great drought The science late years, and on strictly scientific obserto Ontario Mr. Lowes' forecast of the passions and prejudices of the electors The members of the S. Grey Teachers' Aser correct it may be as regards the remaining part of the summer.

CHAFF TO CATCH FOOLISH BIRDS. The following document is being indus triously circulated just now in Durham and the Townships of Egremont and Glenelg:-

The following is a true copy of Mobilein. eircular now being distributed in the West Dromore. of Bentinck and Normanby :

Having heard that certain rumours are being circulated to the effect that I am op- making diligent use of the Mechanics's Inposed to the construction of the Stratford | stitute Library. & Lake Huron Railway, I take this means of saying that such is not the case .- My position on this questien is as follows: be municipalities interested in the con struction of Railways through this County are widing to tax themselves, by granting sufficient bonuses to lay a sound financial basis, I, as your Representative, shall use of support given to Mr Hunter are such as t -The Duke of Argyle arrived at New my best endeavors to secure the Govern-

I Remain Yours, &c.,

Durham, May 27th, 1879. This is one of the silly election dodge. by which the wiseacres of the Conservative party seek to predjudice the minds of foolish electors. Do these persons ever consider the question whether Mr. Hunter has been the representative of Durham, Glenelg and Egremont, of Normanby and Bentiuck, or whether he has been the representative of the whole Itiding? If of the whole Riding, as every reasonable being must admit, then he is bound to deal even-handed justice to all sections of it, and to place all railway and other projects in which the people are interested, on an equal footing. This, Mr. Hunter has done. And the fact that during his tenure of office he has shown no sectional bias whatever, is of itself a very strong claim for a renewal of the confidenc of the electors. He introduced the deputation of the Stratford and Lake Huron Railway to the Goverment, and placed their scheme before them as fully as he was able to do. A similar duty he performed for the deputa--On the 28th ult., the Centenary of the tion of the Georgian Bay and Wellington

We would take this Assembly pronounced the benediction and opportunity of again urging upon the question whether they are not throwin stores of knowledge which lie on so far as they are concerned. It appeared from the Report that a very small propertion of the young men engaged in the various trades are members of the Institute This is not as it should be. The Institute was founded for their special benefit, and there is no doubt but that the spare hours which they all have could not be spent any way more conducive to securing healthy mind in a healthy body than

THE CAMPAIGNE.

Meetings have been held during the pas week, and were well attended, not withstand the unfavourable weather. The promise leave no doubt of his election.

Form of Ballot.

that used in either Dominion or Municipal on June 5th. elections. The most conspicuous difference is that which requires the name of each candidate to be printed in a different color. In the coming contest in the South Riding Mr. Hunter has selected red as his color, and his name will appear on the ballot paper printed in red ink. The names the candidates being arranged in alphabetmode of marking are as follows :--

FAHEY. AMES FAHEY, of the Town of Stratford in the County of Perth, Journalist.

HUNTER.

JAMES HIL HUNTIR, of the Town of Durham, in the County of Grey, Merchant. The ballot, as above, is marked with

X by the voter, in the margin to the right of the name, and in favor of Mr. Hunter. Remember that Mr. Hunter's name be printed in red. After marking your ballot clearly and plainly with the pencil in the blank space, opposite the red line, fold it so as to show the back only ; hand that it is put in the ballot box before you

The Conservative candidate, Mr. Fahey, has chosen blue as his color.
