THE REVIEW.

Durham, October 9, 1879.

The Canada Presbyterian says that Mr. Joseph Jackson of Montreal has transferred bank stock and other securities to the value of \$4,000 to the Home Mission Fund of the Presbyterian church. This gentleman had intended bequeathing this sum to the church at his death, but lately determined to make his gift during his life. Are there not others who can follow his good example?

The Quebec dead lock still continues. The Legislative Council met on the 28th ult., and again voted down the Supply Bill, thus showing like not a few much more distinguished personages, that folly has blinded their eyes. The end of such insane disregard to the public good is not difficult to foresee. Our ancestors had a ready way of settling such cases, but in our day the means are less direct than in none the less decisive. Whether Mr. Joly will advise an immediate dissolution of Parliament or wait until the Assembly meets on the 28th inst. is not yet known.

The Rev. Dr. Topp of Toronto died suddenly in that city on Monday last of disease of the heart. The Rev. Gentleman was engaged in visiting a member of his congregation when he was suddenly taken ill and died before medical aid could be procured. Dr. Topp was born at Elgin Scoll and in 1815, and completed his studies for the ministry at the University of Aberdeen. He was licensed to preach the gospel in 1836 and shortly afterwards was chosen pastor of a congregation in his native town, which position he continued to fill for fourteen years, when he was removed in 1852 to Edinburgh. In 1858 he accepted a call from Knox Church Toronto, in connection with which he labored assiduously until his death. Dr. Topp took a deep interest in educational matters and in every reasonable scheme of social reform. That with which his name is most closely identified is the Home for Incubables, and it is only the other day that he assisted in laying the foundation stone of a new building for the accommodation of this institution. In connection with the Presbyterian Church of Canada of which he was an honored minister, he took an active interest in all that pertained to its welfare, and it may be truly said that the union of the different Presbyterian bodies in this country is largely due to the consummate tact and zeal of Dr. Topp. He was elected Moderator of the Presbyterian church in 1858 and again in 1876 he was chosen as Moderator of the United Church.

A "NATIONAL" CURRENCY. The National Policy having failed to bring about the much vaunted era of prosperity, its advocates now endeavor to launch a National Currency scheme, which they say, will certainly distribute the good things of this world more evenly than they are found to exist at the present time, and make money as plentiful as it is now scarce. This, the latest humbug, is familiarly known as the "Rag Baby," and consists of an unlimited issue of paper money by the Government and made legal tender by Act of Parliament. In the ideal Commonwealth of the future when all men will be virtuous and intelligent such a means of exchange might suit the purposes of the community, but in our day and especially in the hands of a politician of Sir John A. Macdonald's propensities, the temptation presented by an inconvertible paper currency forced into circulation by the Government renders it a scheme impracticable and dangerous if put into practice. So soon as the notes became depreciated, and they soon would be by the overplus in the market, a new issue would be forced to cover the deficit and so the depreciation would go on until as in Peru it would take two hundred dollars to buy a breakfast. The London Free Press maintains that the American people by means of a paper currency were able to put a great army into the field and bear the expenses of a great war, and the French people to pay the heavy indemnity incurred by the Franco-German War. Such reasoning is absurd. The French people were able to pay off the war indemnity in 30 short months by reason of their industry and frugality, and American statesmen have so palpably experienced the evils of a paper currency that they are returning as rapidly as possible to gold as the basis of legal tender.

TELEGRAPHIC.—The Montreal and Dominion Telegraph Companies, have lowered their rate for telegrams from 25 to 20c. as part of the Dominion. No doubt the extra amount of business will make up for the loss.

PUBLIC PARKS.

The proposal of Lord Dufferin to convert the land in the immediate vicinity of Niagara Falls into something of the nature of a Public Park has been well received, and will no doubt very soon assume a practical shape. The project being somewhat of a national one the Dominion Government will no doubt contribute its share towards the expenditure incurred, for, as well put by the Globe, while the State of New York is not far behind the whole Dominion of Canada, it would in these circumstances be scarcely fair to ask the Province of Ontario to do all the work required to be done on the Canadian side of the Niagara. But it is not only at the Falls that a public park is necessary, where every one so disposed may enjoy a few hours recreation free and untrammelled. Places of this sort should be possessed by every community and it is a pleasing feature of the age in which we live that public parks are becoming more and more common and more widely appreciated. There is scarcely a town of any pretensions that is not provided with a public park—some-times obtained by purchase but often bestowed by wealthy citizens. We need scarcely remind our readers that Durham is not yet provided with a public park, but that such is as much of a desideratum to the health and well being of our citizens as is recreation itself. At present there is no place but the commons which old or young can visit in the warm weather of summer for the purpose of spending a day in the open air and indulging in a little healthful recreation. Park lands are being rapidly bought up and put into cultivation, and by the time the railway whistle is heard in our woods it will be more or less difficult to secure any suitable sites. However there are several choice spots in the neighborhood which by a little art might be made very convenient for picnics and open air gatherings of all kinds, and if the matter is only agitated, there is no question but that there are public spirited men among us, who have lands in their possession which might be made very suitable for such purposes, who would only be too glad to exercise their liberality in this direction. They would thus be creating for themselves a lasting memorial and conferring an invaluable benefit on their fellow citizens.

Local and other items.

We received the Minutes of Bentinck Council, but as short of space this week.

CONGREGATION.—In the Durham prize list, Theo. Reid should take first prize for White Russian Wheat, and James Edge for Shearling Ewes, and those whose names appear in our last issue.

S. S. ENTERTAINMENT.—On the evening of Friday, Oct. 24th, the Union Sunday School, in School Section No. 6, Bentinck, will give an entertainment. Admission free. Preparations are being made worthy of a crowded house.

WALKERS.—The Thirty-second Battalion Reserve Volunteers went into camp on Monday for 12 days' drill. The battalion consists of 8 companies of 42 men each. They are of unusually fine physique, being mostly big, strong young men from the rural districts.

LADIES, have you seen those lovely Brail Pins for the hair at JOHN CAMERON'S? Also the Popular Chiclo No. 100s, Opera Chains, Frillings from 5 cents per pair, upwards. Cyprus Wools, Singing Woods ditto, Silver Back Combs, Silk Fichus, Ties for Chairs and Sofas. The latest styles in Ladies' Jackets and Ulsters, all of which are sold at very moderate prices.—J. C.

TEACHERS ASSOCIATION.—The Teachers Association of South Grey meets to-day in this town. The session is expected to be a very profitable one as a number of papers on subjects connected with the profession of the Public School Teacher will be read. We understand also that the association have secured the services of Mr. Reid of the Mount Forest High School who will lecture this evening in the Town Hall, subject: "Milton".

SABBATH SCHOOL ENTERTAINMENT.—On Saturday evening last the annual Entertainment in connection with the Union Sabbath School, held in the Orange Hall, on the corner of Mr. R. Legate's farm took place. After those present had partaken of the good things provided by the ladies a very excellent programme of dialogues, recitations, etc. was given to the audience, Mr. Wilson, being in the chair. The reciting of the children was remarkably good in fact could not have been better, and we think it had been more widely known that such would have been the case the place would have been crowded. Misses Whitmore, Lawrence, Legate, and others fairly brought down the house. A number of the boys did very well. Rev. Mr. Hadson of Preville, and J. Townsend, of the Review, delivered short addresses. A choir enlivened the entertainment with music. At the close of the entertainment each Sabbath School Scholar received a very nice book as a prize, according to merit.

School Board.

THE SCHOOL BOARD met in the Town Hall on the 4th Oct. Present: The chairman and Messrs. Cochrane, Whitmore, Anderson and Gun. The minutes of the last meeting having been read and adopted, the Secy. laid on the table the School report for last quarter, and communications from Mr. Armstrong and Miss. Corry, when it was moved by Dr. Gun, seconded by Mr. Anderson that Mr. Armstrong be re-engaged as Principal at a salary of \$600 per annum.—Carried.

Moved by Mr. Cochrane, seconded by Mr. Whitmore, that Miss Corry be re-engaged at a salary of \$550 per annum.—Carried. Moved by Mr. Cochrane, seconded by Mr. Whitmore that the whole question of salaries be deferred until Saturday the 11th inst.—Carried.

Moved by Dr. Gun, seconded by Mr. Whitmore that the use of the Schoolhouse be given the Teachers Association of South Grey on Thursday and Friday next.—Carried. The B and adjourned.

Recent Education Regulations Approved of by Order-in-Council.

On the recommendation of the Minister of Education, amended regulations have been approved of by the Lieutenant-Governor in Council with reference to the following subjects, on which experience has shown that certain modifications and changes should be made:—

1. With reference to the Intermediate Examinations, which are now to be held yearly in July, instead of half-yearly, the passing is to be determined upon questions on each subject framed by the examiners, not with reference to any high standard for competitive examination, but solely to ascertain whether the candidate has acquired a fair knowledge of each subject, so as to be qualified or not for the upper school, having regard to his proficiency in answering questions reasonably framed for that purpose in each subject. The standard of marks is 50 per cent. on each subject, and 40 per cent. on the group. The passing of the Intermediate Examination is to be taken as equivalent to passing the non-professional examination for a third-class teacher's certificate.

2. Candidates who, besides fulfilling the above conditions, obtain 50 per cent. of the whole number of marks obtainable, will be deemed to have passed the non-professional examination for second-class teachers' certificates grade "B," while those who obtain 60 per cent. on each subject and 50 per cent. on the group and 60 per cent. of the aggregate of total marks will be considered as having passed the non-professional examination for second-class certificates grade "A." The examiners are instructed not to extend the standard of their questions any higher than they at present attain.

3. As to first-class certificates, there is to be a non-professional examination for grade "C" separate from that for first "B" or first "A," and all candidates must take that for grade "C" before being eligible to be examined for grade "B" or "A." The subjects for grade "C" come within the departments of English language and literature, history and geography, mathematics, elementary mechanics, and physical science. Candidates for first "A" or first "B" may take options, being allowed to select any one of the following groups of subjects:—(a) English language and literature, with history and geography; (b) mathematics; (c) physical science; (d) modern languages; (e) classics; but each candidate to be examined in one of the authors in the English language course.

4. Candidates for third-class certificates must, after passing the non-professional examination, attend for one session at least at a County Model School for professional training, and pass a satisfactory examination therein, when, if proved to be at least eighteen years of age if a male, or seventeen if a female, the candidate may obtain a third-class certificate.

5. All candidates for second-class certificates must attend for one session one of the Provincial Normal Schools for professional instruction, and successfully pass the examination therein. Public School teachers who have successfully taught for at least three years before the 18th August, 1877, are exempt from this condition.

6. Candidates for first-class certificates shall attend for one year at one of the Normal Schools after obtaining a second-class certificate, and shall pass the requisite examination; but attendance at one of the Normal Schools is dispensed with in favour of a candidate who has successfully taught for two years on a second-class certificate and who has passed the required examination.

Any person who possesses the qualifications of a High School head master is regarded as qualified to be the head master of a Public School not being a Model School.

7. The inspection of County Model Schools is in future to be placed under the Public School Inspector or Inspectors having jurisdiction within the county or subdivision of the county in which the Model School is situated. He is entrusted with the duty of organizing at the beginning of the term, and he is also to direct and assist the Principal in the classification of students and in other necessary work. In cases where the County Model School is situated in any city or town the Public School Inspector of such city or town shall act jointly with the County Inspector or Inspectors, and shall have the like duties and jurisdiction. Each Model School is to be visited by the Inspector twice in each term, when he may exercise the like authority as in inspecting Public Schools, and shall receive the like remuneration, and is to report annually in December to the Education Department. In order to secure a uniform standard and systematized operation of the County Model Schools, as well as to afford special information to County Boards, the Minister may, in regard to the conduct of such schools and other matters relating thereto, the Minister of Education will, through the members of the Central Committee of Examiners, extend an oversight and supervision over County Model Schools with the express object of enabling them the better to fulfil their functions as local instructors for the training of third-class teachers.

8. The Normal Schools at Toronto and Ottawa are to be respectively inspected at least once in each of the three sessions of the academic year, and this duty is to be discharged by such two of the members of the Central Committee of Examiners as may be appointed for this purpose, who are to report to him the result of each inspection and any material circumstances connected with the working of either of such Normal Schools.

Hopeville Items. Mr. W. Irons is building a Photograph Gallery, which will be a prominent feature in the rising "Town."

The mail to Hopeville after Jan. 1st, will be run three times per week Tuesdays, Thursdays and Saturdays, and to Ventry once a week, on Fridays.

Mr. J. A. Searlet, of the Hopeville Hotel in anticipation of the large number of visitors at show on Monday, had made ample provision of the best he could procure for the table, and although a very large number partook of his hospitality, he had

plenty left. The goose was caught in time and well fattened and the turkey was in prime condition. The only thing that went wrong was the well got dry, we don't know whether the bottom fell out, or what was wrong, but no doubt it will soon be all right. The crops are all in, and the farmers are busy threshing.

East Grey and Artemesia Union Show.

The Agricultural Show, for East Grey was held on the societies ground, at Flesherton, on Thursday and Friday last, on the first day all the articles in the inside department were arranged and judged. No many visitors were present at the day was showery. Friday was a beautiful day, and the turnout was even beyond the expectation of the Directors. The live stock and implements were on the ground. Mr. Robert Black, of Proton, had eight head of cattle and succeeded in taking a number of prizes, as will be seen by the list. H. J. Midgah, of Durham, exhibiting a fine span of carriage horses, and Dr. Spry, of M. P., showed a span of carriage horses, which took 1st prize. Mr. S. Stokes, took 1st prize for brood mare, and also a special prize, and 2nd for filly. Mr. St. K. has as fine a span of horses as can be seen almost anywhere, and have only to be seen to be admired. The show of horses generally was very good. In cattle there is room for improvement, throughout the cattle being conspicuous by their absence. The show of Sheep was very good. Mr. Ed. Shaw, of Collingwood Township, showed three pens of fine sheep, and from the large number of prize tickets he had displayed he must be a veteran prize taker, as well as a benefactor to the County. Mr. Shaw took 6 1st, 2 second, and 1 third prizes at this show, for sheep. Mr. Joseph McMorris, of Oprey, showed some very fine sheep, same as were at Durham, and took 5 1st, 2 second and 1 third prize, for Cotswolds. A number of other good sheep were on exhibition. Eggs were much better represented than at Durham. Fowles were well represented. Mr. R. McFarlane, of Durham, had some fine varieties present—Heavy wagon, Denmark, 2 buggies, and cutter, he did not get any prizes, and no wonder he did not from the partial manner in which the judges in this department acted, they never inspected his wagon at all, and one was heard to say "there is some good work here, but I would rather go for my own Town," or words to that effect. It is a great grace to appoint such men as judges at award prizes on the merits of the articles exhibited, they have no right to act as judges, and such partiality will only bring discredit on the show, and will ultimately tend to injure it. Mr. T. Swan, of Mount Forest, had the same lot of buggies, etc., as were at Durham, but only received 1 prize for cutter. For the rest of carriages, etc., they will be found in the prize list.

INSIDE SHOW.

The display of ladies work, print, vegetables, roots, grain, dairy produce, etc., was excellent, and the show altogether was in advance of last year. Mrs. Milner, of Proton, who is an industrious exhibitor of ladies work, took a large number of prizes. The fall wheat was good, particular one bag of Arnold's Victor, the rest of the classes of grain were well represented. Dairy and pigs being very good. As usual there was a large display of butter. Potatoes were remarkably the aid clean. The show of vegetables, flowers, was up to the mark, a nice lot of beans were shown. W. P. Doll, had on exhibition a very nice case of jewellery and plate. Several pairs of nicely made boots and shoes were shown, and some well made broods. Bag masts, quilts, shirts, mits, socks, home-made flannel, embroidery, braided work, Berlin work, etc., were very fine, and well represented, there were four very nice hair wreaths, seven handsome cushions, several pairs of worked slippers, three feather wreaths, etc. Mr. Bulmen, of Flesherton, showed a very nice assortment of Photographs.

The entries have increased from 600 in 1875, first year of East Grey Show, to 1,104 entries this year. The receipts at the show in 1877, were \$145; in 1878, \$153.78, and at this show \$170. This speaks well for the prosperity of the society. There must have been several thousand people on the ground the second day.

THE DINNER.

The judges, after they were through with their duties, sat down to an excellent table, provided by A. Munshaw, Esq., and after doing justice to the good things provided adjourned to another room. T. Kells, Esq., President, occupied the chair. The President, made a few remarks on the prosperity of the society, and S. Dannde, Esq., the obliging Secretary, gave some interesting statistics in regard to the society. H. J. Midgah, Esq., of Durham, criticised the judging of the horses, and was vigorously replied to by several of the judges, Mr. J. G. Blyth, of the Expositor, made some remarks in regard to the show. We have to thank Mr. Dannde for his courtesy. The following is the

Proton Show.

On Monday last the Proton Show was held at Hopeville. The day was all that could be desired, consequently the turnout of the youth as a beauty of Proton and the neighboring townships was very large. There were present a "Merry-go-round," which did a flourishing business, "Fortune Tables," (2) etc., as were at most of the other shows. The exhibition of cattle, horses, sheep, pigs, fowls, etc., took place in a field belonging to Joseph McArdle, Esq., the very obliging Secretary, and Mr. W. W. Hall kindly gave up the use of his blacksmith's shop, for the display of grain, roots, ladies' work, etc. The show of horses, cattle, sheep, and pigs was very good. Messrs. R. Black, A. Dingwall, S. Stokes, S. Fleming were extensive exhibitors. Mr. R. Oliver, of Artemesia, showed a number of good sheep. The show of implements was entirely wanting. Mr. J. McArdle showed a splendid aged boar.

INSIDE SHOW.

The inside show was pretty fair but there was not a very large display of grain, there being only a few entries in each class. Several pieces of filled cloth and home-made flannel were good. There were some nice specimens of ladies' work, a number of mitts, etc. Mrs. Milner had several articles at this show. There were eight rag mats, two feather wreaths, etc. The first and second prize onions were very large. Turnips were pretty good for this season. Some very nice apples were shown, and some nice crab apples. Plums, tomatoes and pears were represented. Some nice looking home-made bread was shown. The butter and cheese were good. The potatoes were very large and made a good display. Cabbages, parsnips, beets, garden carrots, etc., were represented. For the names of the owners of superior articles see
