Fall of a Church in Hamilton.

(From the Mail.)

Hamilton, Dec. 1.—For three weeks past, the walls of the Baptist church have showed signs of giving way, and this morning the not unexpected result took place, when the tower fell in, bringing with it the upper portion of the south wall and the roof as far as the transept. About one year ago, the masonry contract was given to Messrs. Stock and White, of Waterdown, for $19,000, and this part of the work was completed a short time since, and the money paid over. Mr. James Conolly of Toronto, was the architect, and the church committee appointed Mr. William Herald, inspector, he being considered a good practical man. The church from the commencement has been most unfortunate, two accidents having previously taken place in its construction. On the tenth September last a scaffolding fell precipitating five men a distance of 40 feet, two of whom, John Sullivan and John Langdon, were killed. One month later, the 23rd October, the three men, Boone, Quartz, and Gibson, narrowly escaped being killed, while working on a scaffold at the pointing. Whether inferior material was used or not, there is, no doubt, that there was great carelessness in the masonry, as the walls were not bound, and to this is attributed to-days catastrophe. At seven o'clock this morning, the men went to their work as usual, but discovering some small stones falling inside the building, they decided to break off, and this action was not taken too soon, as, a short time after, the massive tower came crashing through the roof, bringing it and the upper portion of the north wall down. The south wall and the transept are still standing, but it is probable they will have to be removed before rebuilding. On Saturday Mr. Conolly was telegraphed for, and he arrived this forenoon. In reply to some questions put to him by your correspondent, he stated that the cause of the disaster was due to the buttresses not being tied, and that the walls gave way owing to their not being bound. He considered the masonry bad, and had spoken frequently about the inferior mortar used. In order to reduce expenses, the committee had given out, the contract for pointing and reduced his commission on this portion of the work. The edifice was to cost somewhere about $40,000 when completed, and, should the part of the walls now standing be used, the loss to the members of the church will amount to nearly 20,000. A great number of persons visited the ruins to-day, but, as yet, it is dangerous to be walk near the place, as the north-east gable is tottering, and may fall at any moment. The wonder is, owing to the inferior masonry and mortar, that the building stood so long. It appear that the inspector was not a practical man, and was superintending the work to save the church the expense of employing a qualified person for this important position.

SAD AFFAIR.—On Thursday, while Wm. Browscomb was engaged at Frink Smith's refinery in clearing a car tank which had contained crude oil, at Petrolia, and while using benzine to render the tank fit to hold distillate, he became over overed by the gas. Mr. Geo. Cook, foreman of the works sprang in and assisted in lifting him out; but, in doing so he at once became asphyxiated, and by the time he was got out, life was extinct. Cook leaves a wife and five children to mourn his loss.

MARRIAGE OF THE KING OF SPAIN.—The Royal wedding was solemnized according to the programme, at Madrid, on Saturday. The King, accompanied by Archduke Renier went to church, preceeded by eleven carriages containing the various members of the Spanish Royal family, grandees of Spain and the Court dignitaries; the bride preceeded by four carriages containing Court dignitaries and ladies of honor. The bride was richly dressed in white, and wore a diadem of brilliants and and the insignia of the Maria Louise Order. At the Church was splendidly illuminated and decorated with rich silken draperies. The diplomatic body, Spanish grandees and deputations from the Senate and the Chamber of Deputies occupied the nave. The bride was much moved during the ceremony. The nuptial benediction was given on behalf of the Pope by Cardinal Patriarch of Indies, who officiated at mass after the marriage.

MISCELLANEOUS.

The British restriction on American sheep in consequence of the foot and mouth disease has been removed.

It is stated in London that Sir A. T. Galt will be added to the Canadian Cabinet as Minister Resident in that city.

By an explosion of fire damp in a Saxony mine on Monday evening it is feared that seventy or eighty lives have been lost.

The Mayor of Barrie recently fined a man $20 and costs for giving away liquor in a raffle. The License Inspector prosecuted.

Captain Andrew McKenzie, arrested for the murder of Andrew Russell on the barge *Wallace* last Friday morning at Buffalo, has made a full confession of the crime.

Aged People.

To pass from poverty to wealth is only changing misery, but to pass from illness to health is like flying from this world to paradise. Many aged people who are troubled with derangements of the urinary organs would find relief by using Victoria Buchu and Uva Ursi, which is prepared expressly to meet their cases and cure diseases of the secretory system. $1 per bottle.—b94

On Sunday last a Mrs. Evans was buried in the Township of Murray, whose weight sometime before her death was 475 pounds. Her coffin was three feet high, and three feet seven inches across, and a hole had to be cut between the front door and the window to get it out. Death was caused by fat around the heart. The deceased lady was only 34 years of age, and a large concourse which assembled at her funeral showed the respect in which she was held. She leaves a son who is not yet six years old, and who turns the scale at 175 pounds. Last year the parents were offered $2,000 by a travelling showman for the privilege of putting this boy on exhibition.

The Home Rule meeting in Liverpool on Saturday was attended by 20,000 people, and Parnell made a strong speech against the Government and in favour of the land law reforms which the Home Rule party is demanding for Ireland. The Pope is said to have written to the Catholic bishops of Ireland, asking them to interpose between the people and the Government, and to give assurance that the rights of the people will be respected.

Thursday was generally observed throughout the United States as the national Thanksgiving Day, and business was suspended.

CANADIAN ITEMS.

The Welland Canal will close for the season on Friday—nine days earlier than last year.

The Arthur *Enterprise* has passed into the hands of Messrs. E. J. O'Callaghan and R. J. Marchant.

Grading was commenced last week near the Palmerston station for the Stratford and Lake Huron Railway.

The delegates of the Great Western Railway who recently visited America report the completing of a fair'y satisfactory traffic arrangement with the Wabash road, and that improved returns are anticipated.

It is understood in Orangeville that the Dufferin controverted election case has been settled by the resignation of Dr. Barr. The doctor will not be a candidate for re-election. His resignation will be handed in at once.

Fort Garry is to be demolished, and thus one of the most remarkable points of interest in the Northwest will disappear. Around it clusters many historical associations, from its foundation, about the beginning of this century, to the murder of Thos. Scott. Nothing can give a better idea of the progress of Manitoba than the removal of this fort, which a very few years ago was regarded as the key to the Northwest.

Edward Cox was hauling cedar from Charles Masson's farm, Eramosa, for the Elora curling and skating rink. A number of the school children got on to his waggon for a ride, among them Minnie Hoggan, a girl of about 13. At the school house Minnie was accidentally knocked off the waggon by others while trying to get on, and the hind wheel passed over her head, inflicting dangerous if not fatal injury. At latest accounts she lay at the house of Mr. Lynett in a critical condition, and her life was despaired of. This sad mishap should be a warning, alike to people in charge of waggons, and also to children who may feel disposed to cling on to passing vehicles for the purpose of getting a ride.—*News-Record.*

Last Monday night a daring robbery was perpetrated at Cold Springs, a village half way between Cobourg and Rice Lake. The victim, Mr. Alexander Hoskins, is a man of small means, who, previous to his opening business in the village, travelled around the country peddling a small stock of goods. Having by hard labour and industry made a few dollars, he settled down in Cold Springs and started a small store in a general way. The robbers cut the lock off the front door of the store, and once in, they collected all the goods the poor man had in the world, consisting of dry-goods, boots and shoes, and other things, amounting to about $1,000, and carried all of them away in a waggon. When Mr. Hoskins came down to business in the morning, the same as usual, he was thunderstruck to see that all the shelves were completely empty, only a very few groceries and a small amount of glassware being left.

The Price of Wheat.

The value of Wheat in the Canadian Market is controlled to a great extent by the foreign demand. If crops are short in Russia, France and India, England must buy more Canadian Wheat, and the price consequently advances.

But the price of Wilson's Compound syrup of Wild Cherry never changes. A twenty-five cent bottle will cure any ordinary Cough or Cold and give marked relief in old standing cases of Bronchitis. In hundreds of cases 50 cent bottles have cured Coughs and Colds, which have been proof against all other remedies, and the proprietors positively claim that a $1 Bottle will ensure a large family against any danger from Croup, Whooping Cough, Bronchitis, Catarrh, Loss of Voice, Coughs and Colds, and all kindred diseases, for a whole season.

This is no empty boast, but a fact which already has been proven by thousands of Canadian Families to their entire satisfaction.

The Massey Manufacturing Co., which employed thirty families have closed their premises at Newcastle.

A stock company has been formed at Winnipeg with $100,000 capital to build a telegraph line from that city to British Columbia.

Certificate as to Purity and Efficacy.

LABORATORY, UNIVERSITY COLLEGE,
Toronto, December 4th 1872.

To the Victoria Chemical Co.

Gentlemen,—I have examined the articles employed in the Victoria Chemical Works, in the preparation of the Victoria Syrup of Hypophosphites. The several Hypophosphites used are *chemically pure*, and the Syrup is also *quite free any impurity*. Your Syrup of Hypophosphites will undoubtedly prove a *very valuable* medicine.

HENRY H. CROFT, Professor of Chemistry, U.C.

It is said that his Holiness the Pope has appointed the Right Rev. Timothy O'Mahony, of Cork, coadjutor Bishop of the diocese of Toronto. The reverend Father was Bishop of Arnadale, Australia, in 1863. It is said that he comes to this diocese with administrative powers.

THE WEEKLY GLOBE

GREAT IMPROVEMENTS IN 1880.

THE BEST! THE LARGEST! THE CHEAPEST IN NORTH AMERICA.

NEW PRESSES—NEW TYPE—INCREASED SPEED IN PUBLICATION.

On the 2nd of January, 1880, **THE WEEKLY GLOBE** will take another of those upward strides in the march of improvement that have maintained it for nearly forty years in its high position as

THE LEADING FAMILY NEWSPAPER OF BRITISH AMERICA.

The increasing necessity for great variety of reading matter in each week's issue, so as to include the news from all sections of the Dominion and meet the varied tastes of its numerous readers, has rendered expedient the enlargement of THE WEEKLY GLOBE much beyond even its present large dimensions. Commencing with the first week of the New Year, therefore, the form of the paper will be changed from that of an 80-column paper to that of a 96 column paper; and the length of each page will also be so extended as to give, in all, an increase of reading matter in each week's sheet of nearly 32 columns beyond its present size.

This vast addition to the capacity of the paper will enable a bill of fare to be presented weekly probably more varied and interesting than was ever before accomplished in any weekly journal. The literary matter will be much increased; more space will be devoted to Household and social affairs; and the Agricultural Department will be rendered more efficient than ever before.

Notwithstanding the great enlargements and improvements to be made the annual subscription to THE WEEKLY GLOBE will remain as heretofore, only

TWO DOLLARS PER ANNUM,

sent *postage free* to all parts of Canada and the United States, payable invariably in advance. The

CLUB RATES FOR 1880

WILL BE AS FOLLOWS:

For	4 Copies and up to 10		$1 90	per copy.
"	11 "	" 20	1 80	" "
"	21 "	" 30	1 70	" "
"	31 "	" 40	1 60	" "
"	41 "	over	1 50	" "

Any one is at liberty to get up a club on his own responsibility.

Each club paper may be addressed separately, and may be for any Post Office.

Retail to parties getting up clubs will be supplied with specimen copies of the paper gratis, on application.

THE WEEKLY GLOBE will be sent free of postage to any Post Office in Great Britain for $2.20—or nine shillings sterling.

Remittances may be sent by P.O. money order, bank draft, registered letter, or by express at our risk.

Orders and remittances to be addressed to the

GLOBE PRINTING COMPANY, Toronto.

All subscriptions sent in between this date and the 1st of January, 1880, will entitle the subscriber to receive THE WEEKLY GLOBE *from date of subscription to 31st December, 1880.*
