

DOMINION PARLIAMENT

OTTAWA, April 28. In the House of Commons yesterday Mr. Rufus Stephenson moved the adoption of the House Committee's report, recommending the appointment of a permanent official reporting staff, and the publication of an official report daily, in newspaper form. A debate, participated in by Messrs. Jones (Lévesque), Vallée, Blake, Casey, White, (Cardwell), Plumb, and Ross (Middleton), ensued. Each of these members appeared to be willing to try the new proposal as an experiment, as the existing arrangement was admitted on all sides to be unsatisfactory. Mr. Blake added that if the scheme did not give better satisfaction than the present did he could not promise the House that he would support any further votes on this account after next session. The report was adopted. Three questions of local interest were answered by the Government, after which Sir L. Tilley moved the House into Committee of Supply.

The Hon. Mr. Mackenzie and Hon. Mr. Laurier, Mr. Holton was received with cheers by the Opposition. The resolutions on the subject of the agreement entered into with the Government by the Canada Central Railway Company in October, 1897, last year, were adopted and a Bill framed on the same introduction. The House was occupied the remainder of the afternoon in concurrence on the report of the Committee of Supply. After recess several private Bills were advanced a stage. The House was occupied nearly three hours in concurrence on supplies. On the item of \$500 to pay Mr. E. Mill, a further sum in recognition of his services in connection with the Halifax Fishery Commission, Mr. Mackenzie took exception to vote on the ground that the late Government paid Mr. Mill amply for this service. The item was voted on a division of 103 yeas, 44 nays—majority for, 59. The House went into Committee of Supply on the Supplementary Estimates for the current fiscal year, and after reporting all but two or three items, reported progress. Several Government measures passed through their final stages. The following are among the bills assented to by the Governor General on Thursday: An act to incorporate the Dominion Commercial Travellers' Association. An act respecting the Great Western & Lake Ontario Shore Junction Railway Company. An act to authorize the establishment of superannuation, provident and insurance funds by the Great Western Railway Company. An act to incorporate the Baptist Union of Canada. An act to amend and re-enact amended the act incorporating the Dominion Grange of the Patrons of Husbandry of Canada. An act further to amend the act therein cited incorporating the Canada Guarantee Company. An act to incorporate the Bell Telephone Company of Canada. An act to confirm the purchase by the Dominion of a portion of the Grand Trunk Railway Company of Canada with respect thereto. An act for the final settlement of claims to lands in Manitoba by occupancy. An act to amend the act to incorporate the Ontario & Pacific Junction Railway Company. An act further to continue in force for a limited time the Letter Prevention of the Crime Act, 1878. An act further to amend the acts therein mentioned respecting the militia and defence of the Dominion of Canada. Ottawa, May 3. The Speaker took the chair at 3.15 p.m. The supplementary estimates were submitted. Mr. Bailey moved a resolution to the effect that the responsibility as to the quality of petroleum be placed upon the vendors, and that the five test be adjusted. The resolution was adopted, and a Bill founded thereon introduced. Sir L. Tilley moved the House into Committee to consider certain resolutions as to the Dominion aiding in the building of a gravestone at Esquimaux, on the Island of Victoria. A keen discussion arose. Mr. Mackenzie contended that this was virtually giving British Columbia the sum of \$233,000 for which there was not the slightest justification, but was wrong in itself and an injustice to other parts of the Dominion. With greater justice the Government might offer to build a dock at Halifax, St. John or Montreal. Mr. Blake moved in amendment that it is inexpedient to make such a grant. After some remarks from Mr. De Cosmos and Sir John the amendment was put and lost. The House went into Committee of Supply when \$4,000 was asked to pay the continuing expenses of the High Commissioner of Canada. Mr. Blake suggested that future estimates should be prepared with a separate heading—Galt—Empire ascertained that the office of Ambassador to England, held by Sir A. T. Galt will cost the country \$10,000 a salary and \$4,000 expenses. The item passed, all other items, and the House adjourned. Ottawa, May 4. The debate on the Canada Temperance Act was resumed, when Mr. Boutilier moved in amendment that a majority of the voters on the voters' list should be necessary to secure the passage of the Act. The amendment was carried. After several motions of concurrence the House adjourned. AS AORÉ LOVER'S LOVE.—A young lady who has been engaged in the capacity of teacher at Carleton, was betrothed to an aged gentleman at Grimsby. A dispute arose about the disposition of the latter's property, which it appears were placed beyond his control by a will of his late wife. This fact and a decided opposition raised by his family against the match so weighed upon his mind, that it ended in his loss of reason and confinement in the lunatic asylum. A CURIOSITY.—The Palmerston Telegraph says:—A photograph of five generations on one card is not often seen. A few days ago Mr. S. Carswell photographed a group of five persons representing as many generations, and consisting of Mr. Thomas Hayes, aged 96; his son George aged 75; George's son Thomas, aged 50; Thomas's daughter, aged 30, and grandson of Thomas aged 12. Thomas Hayes, the great-grandfather, was born in Co. Armagh, Ireland; his son George, now of Teemesseth, Simcoe, was born in the same county as his father, and so was his son Thomas Hayes, now of con. 10, Wallace, where his daughter Ann Jane, the young lady representing the fourth generation, was born. The youngest member of the group is Reuben Ross, son of Mr. Ross, of Maryboro, who married a daughter of Mr. Thomas Hayes. The "old" gentleman, who came to Canada in 1831, has served in the Canadian Militia, and was a lieutenant during Mackenzie's rebellion, was Justice of the Peace in Simcoe Co., and has lived at the present residence in Minto for the last ten years, and never needed medical advice or medicine till within the last year. He looks younger than his son George. Mr. Thomas Hayes, jr., has lived in Wallace for 25 years.

1880. SPRING. '80. N. G. & J. McKECHNIE Are now Receiving a Large Stock of NEW and FASHIONABLE Spring and Summer Goods.

Melanchton Council. The Council met on Monday, the 19th of April. The members were all present. Communications from the County Treasurer and Mr. S. H. McKittick were presented and read. Applications were also presented from Messrs. C. J. Wheelock and Isaac Traynor, asking for the appointment of Township Surveyor. The Treasurer was authorized to accept the sum of \$9.14 from Thomas Parkins for taxes due on the N. W. quarter of Lot 23, Con. 2, C. S. for 1897. John Craner was credited on his note with four days' statute labor, and T. Reevy was credited with five days. The Treasurer was instructed to receive from B. Blair \$18.20 for taxes due on Lot 22, Con. 6, S. W. for 1879. Mrs. Armstrong was granted \$16 for the purchase of seed grain, S. McDowell being entrusted with its proper expenditure. The petition of John Kinde and thirty other owners of S. N. 6, praying for powers to drain a portion of the township was laid on the table until next meeting. The Treasurer was authorized to receive \$11.56 from Mark G. Williams for taxes due on Lot 264 and 265, Con. 1, S. W., for 1878. The election expenses incurred to fill the vacancy caused by the death of the late Reeve, amounting to \$46.20, were ordered to be paid. The Treasurer was authorized to receive from R. A. Hartley \$2.96 taxes due on S. W. half of Lot 301, Con. 2, S. W., for 1879; from Thomas Cuttill, \$14.62, taxes on Lots 282 and 284, Con. 1; Lots 280 and 281, Con. 3; and Lots 281 and 285, Con. 4, S. W., for 1879. The Reeve was instructed to issue an order for \$100, being the damages and costs in the Wiggins case. The special committee reported that the Treasurer's securities were satisfactory. The Assessor was paid \$30 on account, and the Collector's fines were returned to the 15th day of May next. The Reeve was paid \$9.50 and the Deputy Reeve \$4.50, for services rendered in the Wiggins case. The Council then adjourned to meet again on the 26th of May as a Court of Revision.

The United States public debt decreased during April \$12,079,070. The debt statement shows a total debt of \$2,167,779,147.89; debt, less cash in the Treasury, \$1,968,314,753.72. The only two countries in the world that have a surplus and have been able to remit duties and reduce taxation during the past three years are the two great Republics of France and the United States. Hope for All.—When the oxyhydrogen microscope was first exhibited in Edinburgh, a poor woman, whose riches would never hinder her ascent to the kingdom above, took her seat in the lecture room where the wonders of the instrument were shown, and which were for the first time to meet her sight. A piece of lace was magnified into a salmon net, a flea was metamorphosed into an elephant, and other like marvels were performed before the eyes of the astonished dame, who sat in silent astonishment staring, open mouthed at the disk. But when at length a milliner's needle was transformed into a poplar tree, and confronted her with its huge eye, she could "hold it" no longer. "My goodness!" she exclaimed, "a camel could go through that! There is some hope for the rich folks yet!" Hope? Yes—There is absolute certainty that there is relief to be had from the effects of Burns, Scalds, Frost-bites, Sprains and Bruises. But do not look for this relief from any other source than by using Haggard's Yellow Oil.

Over 45,000 immigrants arrived at New York during the month of April. There is scarcely any disease in which purgatives and opening medicines are not beneficial, and much sickness and suffering might be prevented were they more generally used. For this purpose the NATIONAL PILLS are convenient, mild in action, and certain in their effects. They cleanse and invigorate, purifying the blood without hindrance to occupation. Sold everywhere by druggists and dealers. Price 25 cents. Sir Garnet Wolseley left Durham, South Africa, on Wednesday, on his return to England. Dr. Abernethy's Women Candy is put in two colors, one containing a purgative and one without, which combination no other Candy has. This alone makes it very valuable in case your child requires an opening medicine. It is the most effectual worm destroyer known, pleasant to the taste, and as they contain no mineral, may be administered to the most delicate constitution. Full directions accompany each box. Price 25 cents, or 5 for \$1. It is stated that Edison is building a railroad at Menlo Park, on which he proposes to run an engine by electricity. TO LADIES ONLY.—The strength, durability and brightness of the hair is produced by Mrs. FARRER'S NEW POMADE. Price is almost incredible. The process being so clean and simple there appears no reason why every lady should not be her own dyer, by beginning her experiments in a ribbon or piece of cloth in a small earthen crock or basin of larding water, and proceeding afterwards to larger articles of dress or utility. They are put up in envelopes with full directions. Price 15 cents for all colors except Magenta, which is 10 cents. Over 7,000 iron workers are on strike in the north of England. Similar troubles threatened in the Lancashire cotton district.

Woman's Rights. A great deal has been written upon this very delicate subject, and still there is a great diversity of opinion as to what the ladies have a perfect right to say, do and think. There is not the slightest doubt, however, about the fact, that when a lady enters a drug store and asks for a bottle of Wilson's Compound Syrup of Wild Cherry, she ought to get it at once; and it is no part of a druggist's duty to undertake to convince a customer that they want something other than that which they are asking for. For Cough, Croup, Whooping Cough, Wilson's Wild Cherry is the quickest and most reliable cure. It contains no Opium, and can be given with the same safety and effect to an infant of three months as to an adult person. Sold by all druggists.—d-112

TORONTO MARKETS. Toronto, April 30, 1880. Fall Wheat, per bush. \$1 20 to \$1 23 Spring Wheat " 1 20 to 1 23 Barley " 60 to 65 Oats, " 40 to 41 Peas, " 60 to 66 Dressed Hops, per 100 lbs. 7 00 to 7 75 Butter, rolls, per lb. 20 to 21 " tub dairy, " 17 to 18 Eggs, per doz. 11 to 12 Potatoes, per bag. 0 85 to 0 90 Turnips, per bush. 30 to 40 Hay, per 100. 00 00 to 15 00

HARDWARE AT COST! To close out the balance of my Hardware, I will sell at Wholesale Prices the following Articles: Hand, Tenon & Compass Saws; Chisels, Angers, Bitts, Planes, Spoke Shaves, &c., &c. C. L. GRANT. Durham, April 22, 1880.
