SURVEY.—Mr. J. K. McLean, P. L. S., of Mount Forest, has recieved instructions from the Department of the Crown Lands, Ontario, to undertake the survey of the Township of Springer, at the northwest corner of Lake Nipissing, adjoining an Indian reserve in that district.

FATAL ACCIDENT.—On Monday night a young man named Paul Quinn, supposed to be under the influence of liquor, was driving along the street in Caledon East when the horse took frigat and threw him out in front of the buggy, completely tearing off one of his ears and bruising his head in a shocking manner. Death released his sufferings next morning.

The population of Montreal, if the corporation official statements are correct, is less by four thousand than it was a short time ago. There are many hundreds of houses unoccupied to-day in Montreal where five or six years ago it was almost impossible to find a house waiting for a tenant, and the rents and values of property lower than they were even a year or two ago. Yet if the N. P. could make any city in the Dominion prosperous that city is Montreal. Before the N. P. the population increased rapidly.

The right of the asbestos mine ately discovered on the property of one Loucks, in the township of Lake, has been purchased by Messers. Harney & Willson, of Hamilton, and Messers. Linton & Taylor, of Grand Rapids, Michigan. These gentlemen have been with a gang of men busily engaged during the last fortnight in opening up and developing several leads, all of which seem rich. They have taken up many very fine specimens, and have shipped several barrels to Boston and New York to be tested by experts. A large offer has been made for the mine, but has not as yet been accepted.

On Thursday evening a meeting was held in Montreal to discuss the chances of a commercial union with the United States. About 2,000 people were present, being entirely French Canadians. Mr. Perrault was the orator. He went over the old story about the lack of power of Canada to make her own treaties, showed she was able to stand alone, so far as knowing what her commerce required to foster it, and pointed out the stagnation of trade, the ruination of agriculturists, and the emigration of Canadians by the thousands. All this had been caused by mistaken legislation, and by Great Britain's selfish policy in shutting Canada out from the enjoyment of the Mother Country's commercial treaties with foreign nations. The remedy lay in a closer commercial union with the United States, and he approved of Senator Cox's plan as a basis of negotiations. The thunder storm put an end to the meeting, else other members of the Political Economy Club would have aired their views on annexation or independence.

Nothing like Leather.

The above old saying is flatly contradicted. Leather may be a very good thing in its way, but the people of Canada say there is nothing like Wilson' Compound Syrup of Wild Cherry for curing Coughs, Colds, Catarrh, Croup, Whooping Cough, &c., and the fact that they spend thousands of dollars yearly, in buying it shows that they mean what they say.

Wilson's Wild Cherry is sold by the Principal druggists and General Dealers throughout Ontario. It never fails, and it is as safe and certain for an infant as for the strongest man. In buying you will save money by getting the larger sizes, as they hold more in proportion than the small. e-116
