A meeting was held in the Town Hall on Friday evening last to consider matters in connection with the Toronto, Grey and agreement arrived at between that road and the Grand Trunk. The agreement is dated the 18th day of September, 1880, and contains, among others, the following provisions :- 1st. That the road shall be handed over to the Grand Trunk Company. Pair spring pigs, James Reid; 2nd, D. to be worked by them, on the first day of May, 1881. 2nd. That on or before the 31st day of December, 1881, the Grand the standard guage of four feet eight and a half inches, and otherwise reconstruct and equip it. 3rd. That to enable them to do this the T. G. & B. Company shall, on or before the 1st day of May, 1881, hand over to the Grand Trunk Co. all their right and interest in municipal debeutures granted or to be granted to the amount of \$300,000, 2 bushel fall wheat, Adam Brown; 2nd, as well as to pay over to them \$700,000 in money. It is further provided that the 2 bush, spring wheat, Wm. Reid; 2nd, Grand Trunk Co. shall not be called on to expend more than this amount, and that, Barley, William. Reid 2nd, Alex. Mc- if it is insufficient, the T. G. & B. Co. are to provide the balance. The T. G. & B. White oats, Chas. Gillies; 2nd, W. H. Co. have also an option of carrying out certain parts of the improvements, and deducting the amount paid for them from the \$700,000 aforesaid. It is also provided that the Grand Trunk Co. are to have the power of fixing the rates for the road; that Potatoes, James Swanston; 2nd, Nelson | they may take down, remove, or close any nicipality interested ; that they shall carry cordwood on the terms now fixed by Statute for the T. G. & B. Co.; and that, at the close of the term agreed upon, they shall deliver up the road and its equipments to the T. G. & B. Co. in as good a state of repair as they took it. A large number of other provisions relating to the management of the debentures and interest are inserted but are too lengthy for publication.

Perhaps the point of greatest interest to

which they are required to provide. This Potato onions, Wm. Eccles; 2nd, Arch. is a reduction of \$100,000 on the amount originally asked; and is perhaps as reasonable as could be looked for. If this sum is judiciously distributed over the municipalities interested there is good reason to believe that the great bulk of it will be voted. Squashes, James Geddes; 2nd, Moses The feeling against giving the road a reasonable assistance is not so strong now as it was some time ago, and the fact that it is passing out of the hands of a Company Citrons, James Geddes; 2nd, Nelson in which, rightly or wrongly, the people have lost confidence removes one of the Corn, David Naismith; 2nd, John Stev- strongest objections to granting it aid. True, the Grand Trunk Co, have all the foads running into this part of the country, and as such cannot be expected to compete very strongly against themselves, but the fact is that competition among railway companies is nowadays out of the question, for no matter how distinct they may be, they invariably amalgamate as soon as their interests come into conflict. The Woven coverlet, Andrew Alles; 2nd, E. Grand Trunk Railway, however, is the strongest and most enterprising road in Canada, and the people may feel confident that in extending a branch to Owen Sound, the Company mean to make it one of the strongest and most firmishing feeders of the main line. The people of this section have never yet had the benefit of a firstclass railway, and now that one is offered Pair Woollen mitts, E. Roberts; 2nd, J. them it is to be hoped that they will see it in their interst to give it what assistance Mat, E. Roberts; 2nd, Alex. Murdoch. they can. The T. G. & B. has cost them considerable already, but not as much as if they had to pay for a broad guage road in the first place, and it is scarcely fair that they should expect such a road for what they voted to the T. G. & B. It is also to be hoped that the amount asked for will be judiciously distributed over the municipalities along the line, and that those which have heretofore been most benefitted by the road; and which are now most depend-Tub butter, James Murdoch; 2nd, John on it, will be asked for the largest the different municipalities are not yet fully made known, but so far as we can learn Sarawak will be asked for \$2,000. 1881 .- The year 1881 will be a mathematical curiosity. From left to right and from right to left it reads the same ; 18 divided by 2 gives 9 as the quotient. 81 divided by 9 and 9 is the quotient. If 1881 is divided by Flennel cotton warp, Dugald McCormick, 203, 9 is the quotient; if divided by 8, the quotient contains a 9; if multiplied by 9 the product contains two 9's; 18 are 9, 8 and are 9. If the 18 be placed under the 81 and added, the sum is 99. It the figures be added thus, 1, 8, 8, 1, it will be 18. Reading Flannel, all wool, J. R. It was not, however, till 1868 that the idea was revived, and this time by Captain James McGrigor, one of the Professors of the Free College, Edinburgh. Although Dr. McGrigor is known and esteemed as a man of great learning and originality, it is doubtful if he was capable of carrying his idea into effect in the face of the difficulty Drafts issued at usual Bank rates, payable at all arising from the great size and wide spread ramifications of the churches holding the doctrines and government of the "Reformboth as to character and wisdom-one in World-fell m love (nothing else could carry them through) with the idea of seeing in their day a General Council of all the
