Preserving Harness.

The first point to be observed is to keep the leather soft and pliable. This can be done only by keeping it well charged with oil and grease. Water is a destroyer of these; but mud and saline moisture from the animal are even more destructive. Mud, in drying, absorbs the grease and opens the pores of the leather, making it a ready prey to the water; while the salty character of the perspiration from the animals injures the leather, stitching and mounting. It, therefore, follows that, to preserve a harness, the straps should be washed and oiled at intervals as required. To do this effectually, the straps should be all unbuckled and detached, then washed with warm soft water and crown soap, and hung by a slow fire or in the sun until almost dry, then coated with a mixture of neatsfoot oil and tallow and allowed to remain in a warm room for several hours, and when perfectly dry rub thoroughly with a woollen rag. The rubbing is important, as it, in addition to removing surplus oil and grease, tends to close pores and give a finish to the leather. In hanging harness, care should be taken to allow all the straps to hang their full length. Light is essential to the care of leather, and when the harness closet is dusk the door should be left open at least half of the time during the day. All closets should be well ventilated, and, when possible, be well lighted. To clean plated mountings, use a chamois with a little tripoli or rotten stone. But they should be secured as little as possible, —*Harness Journal.*

CANADIAN ITEMS.

Hay has advanced to $13 per ton at Belleville.

A paper mill is to be erected at Rat Portage in the spring.

Marmora township has this year made 160,000 lbs of cheese.

Alex. Steel, B. A., late Head Master of the High School, Aylmer, has been engaged to take charge of the Owen Sound High School, at a salary of $1,200.

The number of vessels calling at Kincardine during the past season was: 30 barges and brigs. 90 schooners, 10 tugs, 100 screw propellers, and 40 paddle wheel steamers.

Mrs. Bernish, wife of the sexton of the Methodist church at Weston, died on Sunday morning from lockjaw, brought on by a nail running into the sole of one of her feet.

Mr. John Harvie, traffic master of the Northern Railway, has left for Scotland to take possession of a large estate to which he has fallen heir through the death of his brother.

Peter McKerracher, Kincardine, who has been missing since the 5th inst., has not yet turned up, and it is believed he has fallen into the harbour and been drowned.

The opening up of the 600 feet level at Silver Islet, has resulted in the discovery of a grade of silver equally as rich as any found in that wonderfully rich formation heretofore.

Corner loafing has become such a prevalent nuisance in Guelph that the Police Magistrate has instructed the police to arrest all loafers and bring them before him under a vagrant act.

Mr. Gray, manager of the Bank of Commerce at Walkerton, has been promoted to the more important post of manager at Stratford. Mr. Dewar, formerly teller at Walkerton, returns as manager, in Mr. Gray's place.

The Rev. Dr. Stewart, formerly of Hamilton as pastor of the Baptist church, and now residing in California, south of San Francisco, for the benefit of his health, writes that he is considerably benefited by the Californian climate.

Last Thursday night intelligence was received that a railway accident had happened at St. Therese and two lives had been lost, the victims being Mr. J. Henry, Pangnam, President of the Laurentian R. R., and a baggageman named Lemay.

The New Westminster, B. C., *Herald* says:—It is gratifying to learn that on the Lower Fraser the crops this year have been a good yield, and for the most part well harvested. In Sumas District Mr. Vedder took upwards of three thousand bushels of grain from fifty-seven acres, and off a five-acre field he got 220 bushels of wheat.

A short time ago a mad dog went through Clifton, N. S., to Princeport, where he died. He bit a pair of young oxen in Clifton, both of which died, and quarrelled with all the dogs he met on his way to Princeport, where he bit a pair of horses, both of which have since died. A number of the dogs have gone mad, and in their turn have bitten other dogs, sheep and cattle, so that a general slaughter of dogs and farm stock is now the order of the day.

REMEDY TO REMOVE CORNS.—Take some small bits of beefsteak; soak in strong vinegar through the day; and bind a piece on each corn at night; drawing a stocking on to keep them in place. The same pieces of beef can be used the next night. A week or ten days is sufficient to remove any ordinary corn.

CUTTING STEEL BY MEANS OF AIR.—The *Engineer* gives an account of Reese's fusing disc, by means of which a bar of steel is cut in two by a currant of air. The disc is 40 inches in diameter, of 3-16 inch soft steel, and has a peripheral velocity of 2,500 feet per minute. The round (it must be round it seems) bar of steel is also caused to revolve in the same direction, at the rate of 200 revolutions per minute; thus the opposing faces travel in opposite directions, and if the disc touched the steel it would no doubt cut it, as steel rails are sawn off by a soft iron saw. But it has been demonstrated that the disc does not touch the bar, and it is clear that the latter is burned through by the air set in motion by the disc. The latter, which is 3-16 inch thick, "cuts" a groove 5-16 inch thick, and has ½ inch clearance in front of the edge. The machine is actually at work in the United States.

Suicide is fearfully on the increase in New York in particular, and in the United States in general.

On a homeward bound Charlestown car a jolly looking Irishman was saluted with the remark: "Tim, yer house was blown away." "Deed, thin, it isn't, for I have the kay in my pocket.

A gentleman, after getting a soda water, was retiring from a railway station refreshment bar. "Recollect, sir," said the polite barmaid, "if you lose your purse, you did not pull it out here."

Professor.—"Can you multiply concrete numbers together?" The class are uncertain. "What will be the product of five apples multiplied by six potatoes?" Pupil (quite triumphantly), "Hash.",

A nobleman who is in the habit of speaking to soldiers in an affable manner was amused when a guardsman said to him in a hearty and genial way—"I like you, my lord, There's nothing of the gentleman about you."

Yellow Oil is the great pain panacea, magical in its power over pain and inflammation. It cures Rheumatism and Neuralgia. Lame Back and Spinal Affections, Contraction of Cords and Muscles. Used externally and internally. For sale by all dealers.

An old woman, who went to sleep in church, half awoke when the minister referred to a chapter in Genesis, and, forgetting where she was, said loud enough to be heard during the pause, "Tuts! I never heed what Jenny says."

THE STORM'S RAVAGES.—The steamer Emerald, of the Georgian Bay Transportation Company's line arrived at Owen Sound at 3 a. m. from Sault Ste. Marie and local ports with a good passenger list and general cargo. Capt. Footes reports having experienced a very stormy trip, strong gales of wind, and severe snow storms. The schooner Canadian, that ran ashore on Cape Robert on the 4th inst., has broken up with the recent storms. Scarcely a fragment of the wreck is now to be seen.
