Wreck of the Steamer "Simcoe."

A private despatch was received on Saturday afternoon at Collingwood, from Captain Rish, of the "Canadian," from Chebeygan, to Thomas Long, Secretary of the Georgian Bay Transportation Company, to the effect that he had passed a pilot-house and portions of wreckage of the steamer "Simcoe," and also picked up the captain's desk, containing books, papers, etc., off Michael's Bay. The "Simcoe" left Chicago last Friday, the 10th, laden with grain, pork and oatmeal. The steamer is now overdue three days, and the owners think the report is correct. The following are the names of the officers and crew, as far as is known at the present writing:—Master, Captain R. Hill; first mate, Captain Parsons, of Goderich; second mate, —McNab; first engineer, Jas. Nesbitt; second engineer, Jas. McAnally; porter, George Patton; Stewardess, Miss Gibson; Cook, Miss Williams; deck hand, Thos. O'Hare. It is supposed that Ben Milwood was on of the wheelmen. No additional tidings have been received since Captain Rish's message. It might be said that that the "Simcoe" was almost a new steamer, having been rebuilt last winter at Collingwood, and was valued at \$24,000. She is insured for \$12,000.

Fatal Collision.

SPEZZIA, Nov. 25.—The steamer One'e Joseph sank almost immediately after a collision yesterday. Two hundred persons are known to be drowned and fifty saved. The fate of the other fifty is uncertain. Heartrending scenes followed the collision, as the One'e Joseph was wanting in means to save the lives of the large number on board. Eye-witnesses of the collision say they cannot satisfactorily explain the manner and cause of the occurrence. The passenger list of the One'e Joseph shows total number of persons on board of 264, and the sailors numbered 33. Her cargo consisted of eighty tons of merchandise. At the roll-call of the survivors 35 passengers and 23 sailors only answered to their names. The captain also perished. The One'e Joseph was an iron screw steamer of 823 tons, and the Ortiga of 1,832 tons burthen.

PANS, Nov. 25.—Great uneasiness is felt in English and American circles here, as it is feared many Englishmen and Americans were passengers on board the steamer One'e Joseph.

The passengers aboard the steamer One'e Joseph were emigrants for South America. The captain of the Ortiga states that the night the collision occurred d was pitch dark. The One'e Joseph ran across the Ortiga's bow. The crew of the Ortiga did their utmost to save life.

AQUATICS.—The Boat Race between Ross of New Brunswick, and Trickett of Australia, on Monday over the Thames course, resulted in favor of the latter, but as a foul was allowed the race will be rowed over again on Saturday next. But a race of greater importance is the one between Hanlan and Lavecock, of Australia, which is to come off on January 17th over the Thames for £500 a side.

A HABE CRANE.—Any one having a good horse, spring wagon, single or double set of harness to exchange in whole, or part, for a new first-class Cabinet Organ or Piano, or a second hand Organ, should send their address to one to J. W. Simpson, Owen Sound.—143.

The explorer, Joseph Ruren, has been tracing a road from the Des Pins Rapids on the Red River up to above Lake Nominique, in the Province of Quebec. Two-thirds of the land where this road passes, he reports, is suitable for cultivation; but there is nothing to be compared to the Lake Nominique region, and to all that vast portion of land circumscribed by Lake Nominique, the Nation, Du Lievre, and Kiamaki rivers, which forms about sixty square miles of fine, fertile lands, offering grand opportunities of success in colonization.

By Universal Accord, ATHERTON'S GATHARTIC PILLS are the best of all purgatives. They are the result of the prolonged, laborious and successful clinical investigation, and their extensive use, in physicians in their practice, and by all civilized nations, proves the best and most effective medicine that medical science can devise. But they are so safe, no person can arise from their use. In intrinsic value and corrective powers, no other pills can be compared with them, and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and in every action the whole machinery of life. Millions of people throughout the world are especially adapted to the needs of the digestive apparatus, arrangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild but effectual cathartic is required.

In Memory of Louise.

For the Review.
Where Ontario waters, a bold shore lave With ripplin' and smooth tumultuous wave Louies in childhood romped gaily there, In childlike glee without fear or care.
Amidst Muskoka's lakes and verdant isles, Where dame Nature dons her brightest smiles, Her childhood thoughts drift in the scenes With joyous hopes and youthful dreams.

In Jamaica's Isle where Southern seas Are swelling to rage with torrid breeze, Her wifehood bliss and mother's joy Were blest with a dear girl and boy.
Alas! in that Isle under perpetual bloom Of tropic flowers, lies Louie's tomb, But those who mourn her from afar, Will see her in each southern star.
