## Durham, April 28, 1881.

ter wheat promises well in this neighbor- ing of the electorate becoming sensible hood. The keen frost which set in after the disastrious policy under which the the snows of winter had disappeared, do country is at present suffering, in the not appear to have caused much, if any, sults of the late elections, and the activity injury. And now, that the weather is of which prevails in the ranks of the Libera the most favorable character,-plenty of party, even now, in the work of organization sun with occasional genuine April showers He then dealt with the Pacific Railway -it is admitted, even by those who are bargain, the present and future evils entail apt to grumble considerably, that there is ed upon the country by the Syndicate con every reason to believe that the wheat tract, and the want of patriotism shown ! plant is in as healthy a condition as could the Government in refusing to accept be expected.

than Disraeli in life. Though not rich it is supposed that he leaves a fair fortune The remains were interred privately, as

-We have received the Annual Report to be effected, and I cannot better describe of the Chatsworth (Presbyterian) congre- in general terms the direction which that

Territory alone over 80,000 Canadians have only practical effect that the new tariff had recently settled. The reason assigned by upon them has been to raise the price to the Cleveland editor for this extraordinary the consumer, or to force the manufacturer state of things is the policy of the Domin. to sell at a narrow margin of profit. Now ion Government, adding, "that the Cana- the poor mans goods are taxed higher rela- going to have an Advance. dian Government has tried to induce those tively than the rich man's by this tariff. who wish to go West to settle in Manitoba, and this is in my opinion an objection of very shower of rain on Tuesday morning. but the people complain that the Govern- serious character. (Applause.) Cotton and its poor land there, and that they can do are taxed very much more than similar call at Grant's. better in the States." This, if nothing else articles worn by the rich. The necessaries does, should convince Sir John's followers, of life are taxed by this tariff. Our fuel is of the fatal mistake committed in dealing taxed. (Hear, hear.) Our raw material, most with North West lands as well as North essential to manufacturers. Our bread is West railways.

-No sooner has one little fracas be- there is no surplus stock, and I suppose tween one or other of the European Gov- advocates of the North West will tell you the disturbance arises between France and Farmers not expecting famine cannot ex. from the large quantity of saw mill dust at raids with Algeria. The French Colonists ernment was unable or unwilling to interscene of disorder, and having settled the have made, but I believe that it furnishes Kroumirs, the victorious little army invaded Tunis, for the purpose, it is supposed, of exorbitant protection which awards to in the meantime exercising a protectorate the refiner-I do not say refiners yet-is over the Tunisians, and possibly of about one million and a quarter dollars annexing the little State to Algeria as soon more during the last fiscal year out of the as may be found convenient. However pockets of the people than would have been Italy, who has important commercial re- the case under the old tariff, including of lations with Tunis, has pricked up her ears, course that portion they would have contriing any more territory in Africa, on the contributed. There are to be more refinerif such an occupation should take place, she will not rest until France has been driven out. What may be the outcome of this storm in a teapot is difficult to say. Little things sometimes produce great results, and it is possible that a European war may arise out of this African complication.

### Unnecessary Delay.

To the Editor of the Review; Siz:-It is time that something definite in regard to Railway matters was made public. At the general meeting of the 13th inst., an attempt was made to get behind the scenes but with the exception of a formation was elicted. Work has not been begun this spring and matters stand just as they were left last fail. A considerable The Hon. Alex. McKenzie who was pre- stange disease has appeared among the amount of money was wasted in fitting the sent, though not yet restored to his wont. sheep in the townsnip of Keppel. Two farroad so as to run it all winter and we know ed health and vigour, in replying to the mers report a loss of eighty out of their the result. It was confidently expected toast of the House of Commons, said that flocks. The disease appears to be most prethat the road would be handed over to the he would rather defer this duty until after valent along Jones' Range, but has spread the Teachers' Institutes, at such times, and under Grand Trunk immediately, it has not been the election of 1883, for the reason, that more or less over the whole township.done, and, from present appearances it may the present House of Commons had be.
