ABOUT SCHOOL MATTERS.

The creat excellence of the Public High School Systems of Ontario is admitt ed on all hands. Provision has been made by law for the education of the entire School population; the professional and literary qualifications of teachers have been raised step by step, and the working of the school law has been made more and more day, is, that the people themselves govern the schools through their representatives, the Trustees. And so happily do the provisions of the School Act accord with the genius of the people in this respect, that the work of ovr Schools generally, proceeds silently and harmoniously, and, we have good reason to believe, efficiently as well. How ever, the best constructed machinery will at times get out of gear.
