A Scene of Terror.

Kansas City, Sept. 14 .- A fire broke out in the west end of the main hall at the Fair Grounds this afternoon. The hall was densely crowded. A panic ensued, and all efforts to quiet the excited and terror-stricken people were of no avail, and in their confusion they rushed hither and and dysentery, Pure vegetable, and always thither, trampling each other down, while reliable,—b185. shrieks, groans and cries filled the air. over the grounds, which were literally day evening. He rode a horse into the black with a moving mass of humanity. A River near the swing bridge to water him communicating with the surrounding fell off. A large crowd collected at once buildings. In an almost incredibly short and succeeded in bringing the body up in space of time the main building, with all its contents, was an unsightly heap of ashes The flames leaped across the avenue to the newspaper row and quickly swallowed up the buildings of the Times, Journal and Mail, the Secretary's office and a number of refreshment stands. They next attacked the Grand stand in which there was not less tean 12,000 people seated, watching the races. The people fled in terror before the approaching fire. Many fell and were trampled upon, and a large number maimed and mutilated. The confusion was indescribable. There were facilities for extinguishing the fire at hand, but it did not stop until there was no more material to feed upon. The fire department went to the grounds, but could not reach there in time to be of service. It is believed there was no loss of life. Loss, fifty

WALKERTON FANNING MILL

WORKS.

R. H. McKAY, Proprietor. Still and always to the Front.

While politicians have been discussing the question of Free Trade and Protection the ever enterprising proprietor of the Walkerton Fanning-Mill Works has been busy adding improvements to his already Celebrated First Prize Fanning-Mill, which has fought its way thrrough competion and difficulties to the first rank, and now stands the First Prise Fanning Mill of Ontario, and, as in the past, is warranted to separate Cockle from wheat, wild or any kind of Oats from Wheat, Chess from Wheat, Oats from Peas, and will clean Oats, Barley and all kinds of Coarse Grains, to perfection. For Chaffing, it has no equal. It will save Grass and Clover Seed per-fectly, thus enabling Farmers to furnish their own Grass and Clover Seed, which cost them so much money yearly. These improvements ought to be of the greatest importance to the farmer, more especially as all the grain he grows has to pass

will receive the highest market price; also, if well cleaned, he cleaned for seed, he grows nothing but pure grain, thus leaving good land Free from Obnoxious Weeds that cause labor and yield nothing in return. I would likewise call your attention to the late improvements which I have made for Saving Grass seed & taking Cockle & Chees from Wheat,

which I warrant it will do perfectly, thus enabling
Farmers to furnish their owen Grass Seed.
Having enlarged my Workshop and added new
Machinery, I am prepared to Manufacture extensively, either Whloesale or Retail. Orders punctually attended to, and Communical tions promptly answered.
