About Being Obliging. Did you ever think that a person may be very selfless and very useful at the same time? Ethel is very fond of making presents to her friends.

What is Farming. It is something more than staying on a farm. It is something more than skinning the soil. It is something more than sowing hay and potatoes and bulky crops unutilized.

How Lost Cars are Traced. The following is from an interesting article in the Philadelphia Press:— Travellers up and down any line of railway see daily hundreds of fugitive freight cars extending in broken lines along the side tracks and reaching many miles out of the city.

Notable Aspects of the Earth. III. The relation of the earth to the heavens.—There is an inter-relation among all the worlds that compose the universe. They are all bound together by the law of gravitation and dependent upon each other for atmospheric conditions.—It would scarcely be thought by most persons that the stars supply the earth with any appreciable amount of heat.
