Edge Hill.

The first regular meeting of the Edge Hill Mutual Improvement Association was held in the Grange Hall on Tuesday ever ing, November 29th. Although the road were bad there was an attendance of fift; of the youth and beauty, with a sprinkling of the older members of the Society to help direct affairs. The meeting was called to order about seven o'clock—the President i the chair. After the Secretary had read the minutes of the inaugural meeting, there followed an interesting and useful debate on stock and grain :- "Which is more profitable for the farmer to make a specialty?" The President gave his decision in favor the stock side, and he then received a vote of thanks for the gentlemanly and able manner in which he conducted the debate. It was then determined by the meeting that the ampire for the next debate be James Edge, and that the subject to be discussed be as fellows :- "Does success depend more upon the farm or the farmer ?" For the next debate the Captains appointed are Robert Edge and Rob- prevails. ert Moffat. After singing "God save the Queen" the meeting dispersed, every one being more than satisfied with the proceedugs of the evening.

T., G., and B. Change Gauge.

The progress of Canadian railways du number of new roads have been con pashes. The office of D. McWil. few years ago all the roads were in a very bad condition and many of them were assumed. The intrinsic loss to the broad and narrow gauge. As the country he sustained, the loss of many articles which was that the companies had to change the he prized as being memoratice of his late gauges and make better arrangement.

Projected by Mr. George Laidlaw, the first portion of the Toronto, Grey, and Bruce road, extending from Totonto to Bolton, was opened in 1871. Another section to Orangeville was opened the tollor, The "Change of Gauge" has given the ing spring. The Owen Sound branch was Gordon was the first President of the road then followed Mr. W. H. Beatty, and now the line is under the able management of

> THE CHANGE OF GAUGE The improvements which commence last May imply almost an source reconstruction of the road, for new ties were laid over the line, and the grading, which was very bad, has been improved, beside the shortening of the road by the removal of a number of curves. All wooden bridge over twenty fert of a span, have been re placed by iron and masoury ones, and the abnuments of wooden superstructures have been built of stone. The old iron rail have been replaced by steel ones, weighing 60 lbs, to the lineal yard, between Torout and Owen Sound, and 56 lbs. to the line yard between Orangeville and Teeswater The construction of the iron bridge over the Humber delayed the change of gauge nearly three weeks.

All the stations along the line have been stantial new building, the second story of overhauled, thoroughly renovated, and rewhich will be used for a hall by the A. O. painted. In some instances where the stations were too small, wings were erect ed. New freight sheds have also been built, and old ones repaired.

During the summer the following quar Christmas. If any one wants a "bit of a from the Grand Trunk works at Montreal -Eight Baldwin locomotives, four passenger coaches, two postoffice cars, three conductor's vans, five cattle cars, and sixty An Oyster Social was given at Mr Peter five box cars. With these additions the Company will have 150 box cars and 150 flat cars, all in good condition. Eleven of the old engines will be coverted into standard gauge, and these added to the thirteen the Company now has will be sufficient for present use. Some of the engines will be changed at Montreal, and the remains er at the Parkdale works, but they will all be ready in two months.

The construction of a new elevator at Owen Sound has been postnoned on account of the nowillingness of the people to vote a bonus, but the Company expects to make extensive wharfage improvements there next summer, and thus a share of the Canada Pacific business may be counted

The last train run over the road on Satur day morning was drawn by engine No. 12. in charge of driver David Weeks and conductor Wm. Lewis. Both men have been employed on the road since the day it opened. Last Friday orders were issued noon on Saturday 220 cars had been brought to the city. The last train that went over the road had a board attached this they immediately began to alter the switches. At six o'clock on Saturday was despatched to Toronto. At 12 o'clock on Saturday notice was received at the hend office here that the gauge had been changed north of Orangeville, Mr. John Gordon had charge of the work between Toronto and Teeswater, and Mr. H. Bagnall between Orangeville and Owen Sound, Mr. Preston, locomolive superintendent, has charge of changing the gange
