THE REVIEW.

Durham, June 15th, 1882.

Who Lied?

In his address to the Electors after the nomination on Tuesday last, George Jackson, Esq. accused us of lying because we said in a recent article that he was frequently absent from his Parliamentary duties.

THE NOMINATIONS.

On Tuesday last the nominations for the Dominion with a few exceptions, took place. Between twelve and one o'clock a goodly number of the electors of South Grey assembled in the Town Hall.

Local and Other Items.

TANNER has opened out his stock of cloth, etc., in Moolie's shop, which he intends trading for wool.

SULY BAKERS, Reapers and Mowers are offered at a bargain for cash at the Durham Foundry. See adv.

THE Right House for Cheap Goods, in Prints, factories, Dress goods, etc., is J. Woodland, Jr., Lower Town, Durham. See adv.

A REALLY first class article in Tea at John Cameron's, Durham. Excellent Teas and other crockery, etc., a fresh stock just received.

DUNDALK.—A brass band is to be organized in Dundalk, under the leadership of Mr. J. Ketchum. A new agricultural mill is to be built and ground to be fenced in.

TO BUILDERS.—Mr. Alex. Webster, of Pricewell, is advertising for tenders for the stone, brick, and carpenter work of a new mill which he is about building. See advertisement.

MR. JOHN PARROT, will offer several Lots for sale on Tuesday, July 4th, in this Town. On one of the lots is a good House and other buildings. Terms very favorable. H. MacKay, Auctioneer. See adv.

ONTARIO MEDICAL ASSOCIATION.—The Ontario Medical Association met in Toronto last week. We observe that Dr. Ghent of Pricewell, read a paper on the treatment of diphtheria which created considerable discussion.

PREVIEW is bound to have the biggest gala day ever held on Dominion Day in this section. Very Liberal prizes are offered, and a large number of people are going from Durham. No doubt it will be a great success if the weather is fine.

HOLIDAY Classes for Teachers at the Northern Business College, Owen Sound. Those who wish to improve themselves in a commercial course should try the above College, and we believe they would be well satisfied. Terms reasonable. For particulars write for circular to C.A. Fleming, Principal.

THE Junior Reformers challenged the Junior Tories to play a game of Cricket on Saturday last. The Reformers obtained an easy victory, the score being, Reformers 42, Tories 20 runs. According to the Chronicle doctrine this should be followed by a victory for the Reformers on the 20th June.

THE Excursion which takes place tomorrow, (Friday) from Markdale and Flesherton will be \$1.25 and not \$1 as stated by last week. There must have been a mistake made somewhere. There is an excursion to-day from Dundalk to Markdale 60c. It is a cheap excursion. See bills.

A PRESENT.—We were shown a very fine Photographic group composed of the session of Burns Church, Rocky Saugeen, to be presented to Mr. James Clark, who is now residing in Saugeen Township, but formerly of Beutnick, and who kindly led the singing at the Rocky for a number of years. The group is beautifully taken by R. York & Co., opposite the REVIEW Office.

HYMNICAL.—A very pleasant gathering took place at the residence of F. MacRae, Esq., in this Town, yesterday, on the occasion of the marriage of Miss Black Turner, Daughter of Markdale, to Mr. A. large number of guests were present. The happy couple left on the train at 10:30 on that Mr. MacRae's leg is mending rapidly.

The Irish Lake Pic-Nic.

There was a Pic-Nic held under the auspices and in aid of the R. C. Congregations of Pricewell and East Glenelg, at Irish Lake in the Township of Artemesia, on Thursday the 8th inst. It was a grand success as far as the crowd was concerned, and was large and orderly, the tables were well supplied with all the good things the season afforded, the weather was all that could be desired, although it looked rather murky in the morning, but cleared off towards noon and continued bright throughout the day. Very good music and a splendid program had been prepared, for those who wished to enjoy themselves in the mazy dance, and a goodly number evaled themselves of the opportunity offered. There were also a number of competitors in the Athletic sports, in fact the whole affair was well carried out, and reflects credit on the Rev. Pastor and those who assisted him. A canoe was put up at about 8 o'clock p. m., to be given to either of the two Candidates now contesting the Riding of South Grey, the canoe was presented to Mr. Jackson the Conservative Candidate by the Rev. Father O'Connell of Mount Forest, the number of votes was 1600 and Dr. Landerkin 182 there was no proportion between the amount of votes given the respective Candidates, and their popularity with the crowd assembled as a person could vote as often as he wished, and it counted a vote every ten cents he liked to contribute. The sympathy of the majority of the crowd was in Dr. Landerkin's favor, as was easily seen by the ovation given him when he spoke. Mr. Jackson entered into a defense of the course he had taken in Parliament, and spoke for some time on the fiscal policy, the Dr. in reply did not enter into a political discussion at all, but confined his remarks to the social feelings of the people, thereby showing his good sense. His brilliant and humorous address was many times cheered to the echo, and nothing was more plain than that a large majority of those present were his warm supporters. There were few Gentlemen from Owen Sound, Markdale and Durham who came with a fair supply of funds to invest in the canoe, but whether they were agents of Redpath, the Syllivester, or expelled with "acorns" from the meeting of Manufacturers lately held in Toronto, we cannot as yet say but will wait further developments.

The not a Stick nor a Stone Theory.

Sir John Macdonald is in the habit every other day of declaring himself a "great constitutional lawyer." But a police court attorney would be ashamed to father the Premier's assertion that "Not one stick of timber, one acre of land, one lump of lead, iron, or gold" in the disputed territory will ever belong to Ontario, even when the Award is confirmed. Sir John has repeated this statement at several places. He always couples it with another—a true one—to the effect that the lands and minerals would not go to Manitoba in the event that Province setting the land. Sir John's object plainly is to let those who hear him imagine that in this respect, Ontario and Manitoba stand on precisely the same footing.

Sir John and the Boundary Award.

The best evidence one can possibly have of the uncomfortable position the Tories occupy on the Boundary Award is furnished by the constantly shifting positions they take with regard to it. In fact the only possible thing to which we can liken Sir John is a will-o'-the-wisp, always uncertain and ever fluctuating. The position he takes one day there is no authority for believing will be the position he occupies the next. When the question first came up in Parliament he coincided with the Government of Mr. Mackenzie as to the proper way, in fact the only way, this matter could be finally and satisfactorily determined. At least that is what we judge from the Hansard report of 1875, which reads as follows: "Sir John Macdonald contended this question should be settled. The Dominion had purchased the whole of the Northwest and it belonged to Canada, and therefore the whole Dominion should know exactly what their property was, how far it extended, and what was the boundary of their farm in the first place. That being once determined it might be well, at all events it would be expedient, that wherever the line was to be fixed according to this arbitration, there should be a boundary defined as the legal boundary between the Northwest and Manitoba. He hoped that the award of the arbitrators, whatever it might be, would not be final, but would be subject to the ratification of the Government." Here we have no word of repudiation, no sign from this great constitutional lawyer that by any other method could be legally disposed of. The jealousy of the Quebec Elites was not then brought to bear. Mr. Masson had not refused to enter the Cabinet unless that award were repudiated, and the Chief Justice spoke his own convictions. He knew that no question of this kind had ever been settled otherwise than by arbitration. He knew that method had been taken of fixing the line between New Brunswick and the old Province of Lower Canada, when disputes arose in reference thereto. Sir John and his followers are not fond now of recalling that incident, and so we shall take the liberty of turning their attention to that authority. By reference to an unquestioned document, we find the following extract in the Governor-General's speech on opening Parliament:—

South East Glenelg.

On Monday evening the 12th inst., a large and influential Reform Meeting was held in McCuaig School House, south line, Glenelg. Mr. Neil McConnell, was appointed chairman. J. H. Hunter, M. P. P., South Grey, then in an able and masterly manner explained the evils caused by the N. P., and dealt in general with the great questions at stake. The meeting was almost unanimous, there being only one or two votes in the House. A vote of thanks was tendered to Mr. Hunter for the manner in which he addressed the meeting.

East Grey.

We observe that Mr. Christie is making a valiant fight in East Grey. He had an excellent meeting at Shelburne on Monday afternoon. On the same evening Dr. Sproule held a meeting in Dundalk which was addressed by himself and Mr. J. W. Simpson and Mr. Jury on behalf of Mr. Christie.

East Grey Electors vote for Peter Christie, a true Liberal.

The Tories do not deny that they gave a contract to Ouderdonk at \$209,000 above the tender of Macdonald and Charlevoix, responsible Canadian contractors who had before executed extensive works!

Vote early for Dr. Landerkin.

The Tories do not deny that they gave a contract to Ouderdonk at \$209,000 above the tender of Macdonald and Charlevoix, responsible Canadian contractors who had before executed extensive works!

Those in Grey who do not wish to deprive Ontario of her rights, nor to countenance Political Tyranny of the worst kind will vote for the Liberal Candidates.

Shall Ontario be reduced in size till she is less than one half the size of Quebec less than two-thirds the area of Manitoba, less than one-fourth the size of British Columbia, and less than one half the size of fifteen or sixteen new Provinces hereafter to be created?

Let every Liberal voter in South Grey go to the poll and record his vote for Dr. Landerkin and thus teach Political Tricksters a practical lesson, by defeating their champion in this Riding.

BLACKSMITHS make up one class of workmen whose market has not been extended under the increased tariff. In a blacksmith's shop which has two forges twelve tons of hard coal at least are consumed every year. Now, surely the consumers of the N. P. will not claim that the blacksmith would be worse off if he were saved the six dollars duty on his coal, if he were to save the \$50 or \$60 duty on iron shoes, &c., or that he could not live better if the duty were lowered on the necessities of life.—Mercury.

The Real Issue.

The N. P. is not the main question to be decided in this contest. The real question to be submitted to the electors of this Province on the 20th instant is: Shall Ontario have her rights? The N. P. in many respects is bad enough, but mere fiscal questions are matters of minor importance compared with the momentous issues which the electors of Ontario will have to decide at the polls. The issue in regard to the Boundary Award is: Shall Ontario be robbed of 97,000 square miles of territory or 62,000,000 acres? In other words, shall we give up one half the Province to please the Tories of Quebec? Another most important question to be settled is: Shall we manage our own local affairs or shall they be managed by Quebec Tories, who had their heads on our neck before Confederation? There are but few who have not a deep interest in the North West. Another issue to be settled at the polls is: Shall this noble heritage for which we paid a large sum of money be governed by a grinding monopoly or by a constitutional Government? Compared with these momentous issues a change in the tariff is a small matter. Let us decide whether we are free men and then talk about fiscal questions.—Stratford Beacon.

Give them a Wide Berth.

There are a number of men in this Canada of ours who do not need to work; they are living on the prejudices of the creeds and nationalities into which our people are broken up. They pretend to control the votes of classes and creeds. There are men who draw money from governments for alleged services of one kind or another, who get print and advertising to do, and who line their pockets in other and questionable ways. They say they can fix the Orange vote, the Catholic vote, etc. These men should be given a wide berth, and the parties interested—the voters who they intend to sell like sheep at so much per head—should repudiate the impertinence. Let every voter "fix" his own vote with his own conscience; don't let the schemer do it for you.—Toronto World.

Reports from Victoria.

The water is still rising, and it is now above the 1876 mark. Great damage has been done to roads and railway works, and numerous bridges carried away.

To the Electors of Melancthon.

MR. EDITOR.—You will oblige by allowing space for a few remarks on the way we have been represented by our present member Dr. Sproule.

The stand he takes in the Redistribution of seats in the House of Commons was disgraceful. He never raised his voice to show the County of Dufferin was justly entitled to be set apart as a separate Riding and to send a representative to that House.

But he supported the Gerrymandering Bill, and Dufferin with her population of 25,000 souls is now deprived of a Representative and as such, black corruption and the standing of our county in the Province of Ontario.

Brother Farmers resent the insult. Our party spirit, disgraceful to any Premier and Representative man.

Sproule may tell of representation by the following Counties and population set apart as Ridings: South Westworth 16,000 Brockville 15,000, Leeds and Granville 12,400; yet Dufferin with nearly double the last mentioned place was deserted by what we call our representative when the Redistribution of Seats Bill was passed. I will leave it now to the intelligence of the Electors to give their judgement on the Election Day.
