Disastrous Fire in Markdale.

PROPERTY TO THE AMOUNT OF \$30,000 DESTROYED. Markdale, July 23rd, 1892.—About three o'clock this morning the cry of "Fire!" rang through the streets of Markdale, and on looking out it was discovered that the grain elevator at the station belonging to W. J. McFarland, Esq., was in flames.

The fire broke out in a large crowd of wood, lumber &c., who were utterly helpless as far as saving the building or its contents were concerned.

Of all the fires by which this place has suffered this is without doubt, and is firmly believed to be the work of an incendiary.

Fine Building Stone.—It is not generally known that some of the finest quality of building stone to be found in the Province are to be found here.

Excursion to Wair.—The G. T. & N. E. division of the G. T. R. is now completed to Wairon. On Saturday the Grand Trunk simply train from Stratford took up the agent and supplies for the station.

Deaths.—Deaths were recorded including Mrs. Lincoln, widow of President Lincoln, and others.

An Answer to A. M.

MR. EDITOR.—I see that your correspondent A. M., has evidently undertaken what I mean by increase, as relating to titles paid in ancient times.

I have lived most of my life in Durham or near-by, and confess that I never saw much more in the place than I got.

With your permission I will pen a few of his remarks and submit them to the consideration of the permanent residents.

Secondly he complains of a want of public spirit, both in secular and sacred things, both in the Town Council and among private individuals.

He asks a great many similar questions which, as I am not extensively travelled, I am unable to answer.

As to the communication should find favor in the eyes of the public, I will give my neighbor's suggestions as to what Durham might become, in a future letter.

Yours very truly, C. SENS.

A Terrible Crime Brought to Light. In the autumn of 1867 Captain Waddell named the Explorer, bound from Windward to the Mauritius Island having on board whiskey and mill machinery valued at \$18,000, and on which was also valued insurance.

There is great excitement among the people of Great East over the suspected murder of an old colored porter named Manna, and his wife, who mysteriously disappeared one night in June last, when the house was burned down.

Durham as it is and as it Might Become.

MR. EDITOR.—I own a house and I live in Durham, hence it is a little my own.

With your permission I will pen a few of his remarks and submit them to the consideration of the permanent residents.

The Rocky Gaugen.

ADVENTURES OF A BRANTFORD FISHERMAN. From the Brantford Expositor.

Every trout fisherman knows that this sport has found more devotees than any other in York, and also that "Fisherman's Luck" has no equal in the province.

The party that left this city on Monday morning last per G. W. R. toward the Rocky Gaugen, consisted of about twenty gentlemen.

While all this was transpiring the trout was being taken, and the shades of evening were falling. To render the outlook more favorable, a fair breeze blew from the west.

The morning glory of that evening to be remembered is when our party of about twenty gentlemen and sportsmen were seated on the bank.

Three hundred and sixty trout, weighing from two lbs. down to two lbs. of the lot was secured.

Our stay at Durham was made doubly pleasant by the kindness of Mr. McMillan, J. B. Plum, Dr. Jennison, Mr. Deane, Mr. Harvey, Mr. J. Townsend, of the Expositor, Mr. G. T. R. agent and others.

As we left Durham the air was recondensed with the stirring of the life and steam, and the Orange fruit, grapes and strawberries were seen in the market.

The British Troops Under Orders for Egypt. The Indian troops, for which warning has been sent to Simla, are the 1st Battalion Manchester Regiment (late 63rd foot); the 1st Battalion of the North Highlanders (late 72nd Highlanders); the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, and 10th, Brigades of the Royal Artillery, two battalions from the Bombay Army, three from that of Madras—two to remain at Aden as a reserve; two companies of the Bengal Engineers and two in all, 7,000 men, under the command of Sir Herbert Marshall, with General R. Hughes and Colonel O. V. Turner as brigadiers.

The Government has chartered the Duke of Buccleugh, Earl of Argyll, and other steamships, which are capable of accommodating 10,000 passengers.
