perature for August was slightly lower

FALL EXHIBITIONS

Industries gives full information on the and Ottawa counties, where there will be Sastures and live stock; of the root and of the new crop of clover and the praspecthe preparations for sowing fall wheat; and grown at all, are scarce, and prices high. the honey produce of the year: The Be- Grapes are a fair crop. port is prepared from information furdish. Roots are fairly good in all section ed by a large staff of correspondents in the Province excepting the counties of each county of the Province, the great Grey and Simcoe, on Georgian Bay, and majority of whom are real; practical farm-Haldimand and Welland, on Lake Erie.

With the exception of occassional fields those counties were very unfavorable to of late oats and peas; barvesting operations fly has been a troublesome enemy to turwere pretty generally concluded by the fly has been a troublesome enemy to turlet of September. The heavy rains which Hips: But the rains of August have greatprevailed almost universally throughout ly improved the general prospect, and Western Ontario in the settler part of Aug.

tanta not only made the harvest season an annusually long and tedious one, but ser
affected by rot; but so far no serious damlously impaired the quality of the grain age has been done. It was doubtless due cope, and especially fall wheat and bar to the heavy fains: A large breadth of fall wheat will be

greater and of fall wheat will be even sown this year, But; owing to the prolongports; but a commated in former Re- ed hatvest season; seeding will be fully two and rust and sprouting prevaled adition, interfered with the cultivating and harlocalities.

In the Western peninsula barley is very seed, Sondition for the teception of the generally discoloured, though the grain is The reporlarge and plump, and the yield fully as tisties; embracing the miscellaneous, stalarge as was anticipated. In Lennoz; Ad: of hay and clover, the age and produce dington, and Prince Edward Island; how. Srops, buckwhest; beans, flax, to of root ever, where this grain is so largely sown, fruit; and the year's produce of maple sugthe harvest was favored by the finest ar. Following are the figures for the whole weather, and the crop was garnered in ex. Province; and for the county of Grey; Eastern Ontario generally the faitners ec. Meddow and Clover, caped the almost continuous rains which Meadow and clover, rendered harvesting operations so uncertain in the West, and as a result the crops tons of produce... have been better saved, though the yield was not se heavy.

Many correspondents report that the Other Boots, scree in apring wheat has been badly injured by fust and midge; while in more limited lo-Buckwheat, acres in calities it stiffered from the rainy weather Beans, acres in crop which followed so closely on a reason of Hax, acres in crop... drought. On the whole, it is less than an Orchard and Garden,

Oats were late in ripening, and in some of the western counties shelled badly in Maple sugar, pounds harvesting, but they will be fully an avermade this year age crop. on the threshing machine records of their

Peas are rather a light crop, partly owing to the ravages of their unfailing enemy the bug, and partly to unfavourable weathduce of fall wheat in the Province is bushels; of narley, 23,545.059 bushels;

A large quantity of fall wheat has been threshed, but very little has yet been sent to the market, and prices are unsettl-

The damage done to the grain crops by the copious rains of August will be fully balanced by the luxuriant pastures they helped to produce, and the consequent benefit to live stock and diary interests. Correspondents almost unanimously report that the pastures were never better, that hve stock are in excellent condition, and than the temperature for August last year, that the year has been a most prosperous At one station in Essex the total for the one for dairymen. The supply of store month was 5.19 inches, and at one in

eattle, largely on account of the prevailing Lambton it was 7.18 inches. At Gravenhigh prices, is small; and, owing partly to hurst, in Muskoda, the total was only 1.24 the same cause and partly the ravages of inches. the pea bug, pork promises also to be a rather scarce article. "Pink-eye" is reported from the county of Essex, some horses having died there of the disease, and a considerable number having been disabled BENTINCE At Hanover on Sept. 21st and 22nd. PROVINCIAL.—At Kingston, from September 18th for work.

WESTERN.-London, Sept. 25 to 29. Owing to the "heaving of the plants last winter, the crop of clover seed will be much below the average throughout the Province. The most favorable reports in the west come from some of the Lake Erie ARTEMESIA-At Priceville, on Tuesday, Oct. 3rd. counties, where the prospect is said to be EGREMONT.—At Holstein, on Wednesday, Oct. 4th. nance of dry weather and the absence of Proton,-At Dundalk, on Thursday Oct. 5th. frost. In some of the eastern counties Alstke clover is extensively sown, and it stood the winter well. Of timothy seed there will be an adequate supply. From all quarters correspondents report that the

August transformed the prospect; warm

days and genial showers did wonders for

the corn, and the reports of correspondents

this month are greatly altered in tone.

The crop as a whole will scarcely reach an

average, and there are many poor fields,

but it is a very great improvement on the

promise of a month ago. In Essex and

Beans are fairly good on high and well-

drained ground, but on low-lying fields

reports. The trees though shorter

signs of recovery, have still an unhealthy

Holland-At Chatsworth on Tuesday, Oct. 10th. During the past 3 weeks 5 barns have been destroyed in the vicinity of Niagara Falls by incendiary fires. The farmers new seeding has had a splendid "catch" talk of organizing a vigilance committee for -the very best in many years-and there the defence of their property. is a fine prospect for an abundant crop next The corn crop has had much to contend with this year. Owing to the cold and wet once and get a bottle of Mas. WINSLOW'S SOOTH. with this year. Owing to the cold and wet weather of May it was planted late, and

the soil was in the worst possible condition to promote its growth. The low temperature of June and July, was scarcely less unfavorable, and many fields were replant.

At the end of July the outlook was cheerless in the extreme, and the most sanguine of correspondents in the best corn-growing counties did not look for Oils, Paints more than half a crep. But the month of
