-While Western nations are seeking to have all international disputes settled by peaceful arbitration, in the East, the oldest nation in the world is preparing to settle its differences with its juvenile neighbor by the arbitrament of the sword. The kingdom of Corea lying on the Eastern coast of Asia is the scene of disturbance. Both China and Japan have some vested rights in this little kingdom, and as they could not agree as to the extent of their claims they are preparing to fight. Great Britain, Russia and Germany have offered to mediate between them, but their kind offices have been refused.

-Filibustering has at last succeeded in Hawaii. Much the same as Presi dent Debs of the A.R.U. proclaimed a strike in Chicago, President Dole has proclaimed a republic in Hawaii. The Queen of the Sandwich Islands has been quietly deposed, and the great American Sugar Trust has secured the elevation of its nominee Mr. Dole to the Presidential chair. There was no rioting, no disturbance of any kind. The peace loving inhabitants simply cheered, when the President finished the reading of his proclamation. All the representatives of Foreign Powers on the Islands have accepted the signation, with the single exception the British envoy, who has stated that he will inform his Government of what has taken place.

President Cleveland has addressed a letter to Congress in which he indicates, that the Senate has disregarded the voice of the people and obeyed the com mands of the combines. Our Canadian Combines compelled a revision of the tariff in their own interests, the conand iron and sugar trusts of the United States are pursuing a similar game, with what success remains to be seen. There are some however determined to resist the heel of the oppressor. The leader of the Democrats in the House of Representatives, Mr. Wilson, said, that if it be true that the Sugar Combine has announced that no tariff bill, in which its interests are not properly guarded, can pass Congress, then, he hopes that the House will not rise un-

As usual, now that the strike is over, the strike leaders are very indignant at the idea that they were in any way held by mobs during the strike. But every man of them knew before the strike was ordered that there were plenty of mer in the country to take the places of those whom they called out, and that there was no possible chance of success except by means of violence. Every man of them knows that from the day that violence was stopped by the action of the United HAMPDEN.
