THE REVIEW
Durham, Sept. 27th, 1894

S. GREY EXHIBITION.

That all important factor in the success of our door display, the weather, was perfect and some thousands of S. Grey yeomanry, their wives, sons and daughters, as well as merchants and professional men rejoiced.

Better still, while big shows like Toronto are running into circus lines, this is about the best show from an agricultural standpoint yet held. Entries were numerous, nearly every class was contested and in point of quality very little is inferior. The decisions of the judges seem to give satisfaction, though of course there are some discontents. The display of roots was truly surprising for the season we have had, and the watering cans we are sure must have been faithfully used. In the hardier kind of fruit, S. Grey takes second place to none. The flower display alone was not equal to last year, though in varieties, and tasteful display, it was not insignificant. S. Patterson's collection of vegetables was well worth the first place. The judges in the grain classes had some difficulty in some cases, though in the case of the bag with some 8 or 9 inches of splendid grain covering some of inferior sort, little time was required. If we were home wearied from a journey we would like to be placed as a judge over the pie, tart, jelly, honey and pickle class. We were present when this class was being judged, and must bear witness to the evident spirit of fairness actuating the judges. The ladies work was—was—well when we get a lady editor we will try to do justice to the beautiful handiwork of beautiful women. Mr. Boulden's display got him three first prizes, and of course, with another first for his fancy pigs he is proud. Mr. Laidlaw's example might well be imitated, and if some central stalls could be erected, a very attractive 'up stairs' could be made. The Photographs, drawings, &c. were very creditable, R. Torry capturing first prize for a varied display of work.

The grounds outside presented an animated appearance. Messrs. Calder and McKinnon having some fine machinery and farm implements on display near the Hall. McKinnon had a monopoly in the musical line, the 'corner' in organs being quite attractive with fine instruments. The prize list must tell its tale as to the winners in the other classes.

The racing as usual drew the crowds to the fine hillside, and to the credit of managers of this part of the show, there was less weary waiting than usual.

It was rather cool and a trifle dusty, but the good humored crowd looked on, cheered a good race, chaffed a procession or two, and couldn't get the bicycle men to "go" worth a cent. Dr. Landerkin was moving around, but we really didn't see either of the Patron leaders.

Ronald kept faith. His engine came Tuesday. It is a superb affair, weighing 4040 lbs. A few schoolboys hauled it around and when the races were over the waiting crowds on the hillside saw the match applied. Steam was up in 6½ minutes and in 7 minutes water was playing through 500 feet of hose. Competent judges spoke highly of the performance, and the opinion of many was that it should never leave Durham.

Very likely, our readers may find some failings in this issue though we have made an honest endeavor to supply our readers with correct information and the "latest news."

Cured 2 years ago. Capt. Townsend.

"Some 8 years ago I contracted a serious constitutional blood disease. I went to Hot Springs to treat for syphilis. Mercury almost killed me. After a while the symptoms again appeared. Throat became sore, pains in limbs, pimples on face, blotches, eyes red, loss of hair, glands enlarged, etc. A medical friend advised Drs. Kennedy & Kergan's New Method Treatment. It cured me, and I have had no symptoms for five years. I am married and happy. As a doctor, I heartily recommend it to all who have this terrible disease—*syphilis*." It will eradicate the poison from the blood."

"I am 28 years of age, and married. When young I led a gay life. Early indiscretions and later excesses made trouble for me. I became weak and nervous. My kidneys became affected and I feared Bright's disease. Married life was unsatisfactory and my home unhappy. I tried everything—all failed till I took treatment from Drs. Kennedy and Kergan. Their New Method built me up mentally, physically and sexually. I feel and act like a man in every respect. Try them."

IN another column will be found an open letter from a prominent physician relating the facts of a cure of consumption after the patient had reached the last stages of this hitherto unconquered disease. The statements made are really remarkable, and mark another advance in the progress of medical science. Our readers will find the articles well worth a careful perusal.

From the number of barrels leaving McKinnon's cooperv in town there must be some apples in this country. Fruit is likely to rule high in England, as it is scarce there, and in view of an increasing trade it cannot be too often nor too strongly urged that the greatest care should be exercised in picking and packing that a reputation may be established. Shaking the trees is quicker but not best for Ontario in the long run.

WE have to thank the Secretaries of the Northern Fair, Walkerton, and North Grey Exhibition, Owen Sound for complimentary Press badges, received too late for acknowledgment last week. All events and classes were well filled up there being no fewer than 30 carriage horses to judge from. We have to congratulate Mr. Jas. Watson, of Normanby, on his sucess in this line. He secured 1st for the best double turn out, 1st for the best matched carriage team and 2nd for the best carriage horses. Good for Normanby. When we get better railway connection with the lake town, S. Grey will show them a thing or two.
