We were glad to welcome Mr. Mal. McFee, of Normandy, in our sanctum last week. He is one of Normandy's dep. reeves, a position won by a valiant fight, and retained by valuable services.

We would call the attention of our readers to the card of Dr. C. H. Bird, who has settled in Durham. He is from Toronto and has won distinction, notably being the first to take honors at the Medical College of Ont. in twenty five years. He has also had considerable experience in eye and ear troubles, and general surgery.

DR. A. B. DEYNARD, of the Manhattan, Eye and Ear Institute, New York, will be at the office of Drs. Jamieson & Wells, Durham, on Thursday and Friday 1st and 2nd of Nov. Any person suffering from eye or ear troubles, or who may wish sight properly tested for glasses should not miss this opportunity of consulting Dr. Deynard, eye and ear specialist.

In the death of Ferguson Wright, Priceville loses one of her old and respected citizens. Mr. Wright taught for many years in the country, and in the subject of mathematics in which he was very proficient, took great delight. Mrs. D. Hutson is one of his daughters also, and two of her sisters having also once been in the teaching ranks. His son Samuel Wright has achieved considerable fame as an artist, some of his paintings having taken a high place. We extend our sympathy to the family.

We had an agreeable call on Monday last from an old Bromore boy, Dr. J. D. Leith, who has settled in that prosperous little village, and of course wants the REVIEW. He is associated with Dr. Park of this town, and intends to do his share in relieving suffering. We congratulate J. D. whom we have known, boy and man for over 20 years, on being able to write M. D. C. M. to his name, having passed with honors at his final examination. He is also a member of the C. P. & S. Ont., and has been for some time resident Physician at Sudbury Hospital, where he had considerable practice.

THE Foresters' Concert at Laminah, last Friday was a successful affair. How could it be otherwise when in addition to bright local talent they had a plan-lan from Durham. There was our own Johnson family, whose performances are always excellent. Mr. A. W. Paterson, who gave the brethren some information and inspiration in a song of Forestry, while Miss Eva Paterson gave a song and recitation, both of which were well received. The Court is to receive some new members soon, and no doubt will benefit by their concert.

ATROCIOUS MURDER - A murder of more than ordinary brutality committed near Listowel on Saturday last. A young girl of some fourteen years, Jessie Keith, while walking home from school, was attacked by a man, who was afterwards found to be a well-known person, and killed. The body is supposed to have been dragged to a neighboring field to a strip of woods near by, was then denuded of the clothing, mangled in the most horrible manner and then left partially covered with leaves and moss, when it was found by the father of the girl and some of the section men of the railway who had gone in search of the missing girl. The clothes of the poor girl were found also torn and bloody. Altogether, the circumstances so far as known, of this foul deed were a most brutal character. Suspicion has fastened on a tramp who was seen on the railway track about the time the girl, Jessie Keith, disappeared. An inquest is being held when the additional light may be thrown on this sad affair.

PROGRESS OF THE TOWN.

As the open season for building operations has been so long, it has occurred to us to sum up the improvements that have been going on in our town during 1894.

The subject of fire and its destructive consequences has been so much before us that it will do us good to glance at the opposite picture, and though we have nothing to contemplate which we can call a boom, yet what we see is far removed from stagnation, and we have no doubt that 1895 the first year in which Durham had fire protection, will see increasing evidences of faith in the future by just such building operations as we are about to chronicle. In the meantime we have room for a more itemized list, on which we may expand in a future issue.

W. Cahler, a brick block, cost in the neighborhood of \$300, two stores and Society hall added, Hugh McDonald, Ritchie Bros. Woodwork, W. B. Vollett, Plastering, Hugh McDonald, Painting, C. McDougall.

Considerable improvement is made this fall by way of clearing up swampy land burnt over by the summer fires.

The feat in bicycling has been wheeling across Asia. Two young men of St. Louis Allen and Sachtleben, left New York in June 1890 and in three years, lacking twenty days, they reached New York from the West.

The true bicycle journey began opposite Constantinople, wheeling through Armenia they passed Ezerorum into Persia and then across Russian Turkestan into China. The journey across the Chinese Empire was accomplished without any hindrance or danger so far as the natives were concerned. Everywhere the travellers were treated with courtesy by the authorities, while the people were troublesome only by their curiosity. The bicyclists turned out to be their best supporters and excited unbounded astonishment, some calling them flying machines, foreign boys etc. etc. On reaching Shanghai they sailed to Japan and thence to San Francisco making the journey across Arizona, New Mexico and Texas to New York by the wheel.
