AN OLD FASHIONED.—The Globe, in its Art edition of Saturday last, illustrated Bowmanville. We were pleased to have our attention directed by the Rev. Chas. Cameron, to the name of John Mackay, one of the successful business men of that town. Mr. Mackay, in the sixties was in business in Priceville for a short time and the following complimentary notice will be read with pleasure by his friends. A cut of his mills and residence is also given.

One of the best of the busy spots in Bowmanville is that known by the world as the mills of John Mackay. These mills have been running continuously now night and day (Sundays excepting) for five years, and so great is the demand for the products of the mill that Mr. Mackay has completed his arrangements for doubling the size of the mills. Mr. Mackay's, the genial and enterprising proprietor, was born in Boston, Sept. 26, 1826, and served his time (the faithful seven years) at the business of which he has made such a success. He manufactures put and pearl barley, split peas and several grades of buckwheat flour, as well as a top of all kinds.

TO THE EDITOR OF THE REVIEW.

SIR.—As this is the last month of the year it is about time that the electors began to size up their town fathers, and they intend to re-elect them. Allow me to set the ball rolling. Now let us begin, not in a general manner, but come to particulars at once, taking a subject quite fresh in the mind of all, that of Fire Protection.

Early in the agitation, a resolution of which was that no engine be purchased until after a public test was given here, at the Manufacturers' expense. This was voted down, by 7 to 3.

At a Public meeting, called by the Mayor, it was moved and seconded that a By-law be submitted by the Council to a vote of the electors, providing for the issue of Debentures for a fire engine, the chairman, fitting head of a council so autocratic that several of them declared they would not submit a By-law, as they had the power to purchase the engine and the fire engine.

This could have been avoided had not the council assumed the "high and mighty" position of masters and tyrants, instead of servants of the public. Tests by the Engines were given, notwithstanding the majority vote against such a thing, and as a last resort a By-law had to be submitted by the council, which was carried, and the engine purchased.

A RACKING COUGH.

Cured by Ayer's Cherry Pectoral. Mrs. T. D. HALL, 217 Genesee St., Lockport, N. Y., says: "Over thirty years ago, I remember hearing my father describe the wonderful curative effects of Ayer's Cherry Pectoral. During a recent attack of La Grippe, which assumed the form of a catarrh, soreness of the lungs, accompanied by an aggravating cough, I used various remedies and prescriptions. While some of these medicines partially alleviated the coughing during the day, none of them afforded me any relief from that spasmodic action of the lungs which would seize me the moment I attempted to lie down at night. After ten or twelve such nights, I was unable to sleep, and had about decided to set up all night in my easy chair, and procure what sleep I could in that way. It then occurred to me that I had a bottle of Ayer's Cherry Pectoral. I took a spoonful of this preparation, and a little water, and was able to lie down without coughing. In a few moments, I fell asleep, and awoke in the morning, greatly refreshed and feeling much better. I took a teaspoonful of the Pectoral every night for a week, then gradually decreased the dose, and in two weeks my cough was cured."
