The Grey Review.

DURHAM, JUNE 27th, 1895.

—Two practical lessons arise out of the anticipated scarcity of hay in this and other districts. First, that alternative crops should be cultivated. Horse tooth corn for instance, especially when the silo system is used, grows well here and rejoices in dry hot weather, and forms better winter food for cattle then hay, and much cheaper. Millet and Hungarian grass also succeed well. 2 Economy in every detail connected with the management of the farm, in avoiding waste on every hand and attention to economy in small things scrupulous care of implements and refraining from purchasing any that are not absolutely needed. Following the advice of the wise Benjamin Franklin, who advises, not to buy what one does not need, at any cost.

—The recent rains will no doubt have greatly benefited the growing crops and although in Grey as well as in many other districts of the province the crops are generally behind, and as regards hay, very seriously damaged, it is gratifying to learn that in many other districts the crops promise an abundant harvest. From Eastern Ontario it is reported that the prospects of an abundant harvest, including the hay crop, have not been more favorable for years than at the present time. In the Western section also, although the hay crop promises to be light, with that exception, the indications are that the other crops will be fully up to, if not above, the average. While in Manitoba and the North West the crop reports are more favorable than they have been for years, and so also in Quebec and the Lower Provinces, which were not affected by the May frosts and where the rains have been abundant.

—Lord Rosebery's Government has succumbed to the accumulated pressure of adverse circumstances. Taking office with a limited majority, that majority has gradually dwindled, until it was evident that under his rule the affairs of the country could not be satisfactorily carried on. It goes without saying that the great difficulty all along has been with the Irish contingent. Broken up into factions, constantly at loggerheads with one another and incapable apparently of uniting upon any definite policy for the carrying out of the great reforms contemplated for the good of Ireland, they have been a constant source of weakness to the Liberal party, and finally, have been the main factor in bringing about the downfall of the Government. It may now be taken for granted that Home Rule is dead. However, the final vote which determined the resignation of the Ministry was merely a scratch vote, and was unexpected by everybody—several of the Opposition edging in by the side doors so as to escape the notice of the Liberal whips. Lord Salisbury has been called by the Queen to form a Ministry, and has accepted the responsibility.

"HELPING OUR FRIENDS."

We have an apt illustration, in the building of the Soo Canal, of the peculiar methods adopted by the Dominion Government in the expenditure of public money, regardless of public interest, but having an eye single to the interest of their friends. The original price for earth excavation was 25c a yd, but, with the consent of the Minister's Deputy, the price was increased to 60 cents, and rock excavation increased from 35 cents to $1.40. The original price for unwatering the lower section embracing the lock was $200,000, but when the department arrived at the conclusion to increase the depth of the lock to 650 feet the price for unwatering was increased to $35,000. When it was subsequently decided to further increase the length of the lock to 900 feet the contract figure was increased by $50,000 in all $70,000 for unwatering the canal. This enormous increase for unwatering was made notwithstanding the fact that the area to be unwatered under the final plan was less than under the previous arrangement, being 25 feet by 60, as compared with 600 by 200. The contractors received .5 per cubic yard under the original contract for masonry in the lock, and $12.60 a cubic yard under the new arrangement. A rest pier has been built nearly in the middle of the great lock and practical men wondered how this could have been permitted, unsightly in itself and a permanent danger and obstruction to the navigation of the canal. It has now come out before the Public accounts committee, that this pier was built to save the Canadian Pacific Railway the expense of extending the swing section of its bridge across the whole width of the canal. It was admitted by the contractor that the bridge extension could have been built as cheaply as the pier, but, here's the rub, had the bridge been extended it would have been done at the expense of the C. P. R. but the cost of the pier will be borne by the people of Canada. Mr. Ouimet's dictum of other thing being equal finds no place here, and with such favoritism governing the expenditure of public money it is not to be wondered at that the public debt of Canada has reached the enormous sum of $38,000,000.

THE MANITOBA SCHOOL CASE.

This vexed question has within the last ten days been pretty well aired. In the Manitoba Legislature, the remedial order issued by the Dominion Government has been discussed. The Government of Manitoba backed by a large majority of the House, maintains its opposition to any interference with the National Schools, but at the same time they urge patience and forbearance in the discussion of the subject, and offer every assistance to any commission appointed by the Dominion Government to enquire into the facts of the case. Meanwhile, the School question has been transferred to the Cabinet at Ottawa. Some of the members, backed up a large contingent of members of the House of Commons insist upon a remedial legislation being enacted at once to be followed by dissolution, while the more cool-headed section advise delay in order to allow the monomania to cool down, and another session to be held followed by the general election, under the chilling temperature of February and March. Not only so this celebrated case has travelled far afield. Bishop Gravel, of Nicolet, has been in correspondence with the Prefect of the Propaganda in Rome, and through Cardinal Vaughan pressure is thus said to have been brought to bear upon the Judicial Committee of the Privy Council in its recent deliverance on the Manitoba Case. This piece of intelligence is held to be of so much importance that Mr. Dalton McCarthy has signified his intention of bringing it up before the House of Commons at Ottawa.

In Ontario the great religious bodies are seen holding their annual gatherings, and at these, the Manitoba School Question has received marked attention. The Baptist convention has given no uncertain sound, and deprecates any interference with Manitoba in the matter of her schools. The Methodist Conference takes similar ground. In the General Assembly of the Presbyterian church the question formed the subject of the ablest and most animated debate of the session, the resolution ultimately receiving the unanimous support of the court, being to the effect, that the Assembly deplored any interference with Manitoba in determining and regulating her educational affairs. The gist of the whole question was laid down clearly by Principal Caven, who said, that it was the duty of the State to give its citizens education enough to enable them to understand the conditions under which citizenship is maintained, but public money should not be used for religious education.

THE PRESBYTERIAN ASSEMBLY.

The sitting of the Court were continued last week. Sabbath observance came up for discussion on a report by Dr. Armstrong, of Ottawa. Mr. Charlton moved the adoption of the Report, and pointed out to those who claimed that legislative enactments were an infringement upon individual rights, that no one objected to legislation against the breaking of the sixth, the seventh, the eighth and the ninth commandments as being an infringement of individual rights and why then of the fourth, which held the central place in the decalogue. Moreover, Sabbath observance promoted material prosperity, temperance, obedience to the law and was an excellent Sanitary regulation.

The question of laymen being eligible to preside at Church Courts being brought up. Dr. Sedgewick urged that the written and unwritten law of the church was in favor of such positions being held by ministers only, and promised to bring in a resolution on the subject.

The Report on Statistics, voluminous and exhaustive, showed an increase in the work done—in the number of new stations opened and increase of membership. Am't contributed for all purposes was $2,126,987, an increase of $70,687 on the the former year,—the congregational contributions to the Home Mission and the French Evangelization showing slight decrease but those to the Colleges and Foreign Mission having been increased. The Women's Foreign Missionary Societies increased their offerings, but Sabbath School and Bible classes decreased theirs

The Presbyterian church in Canada is evidently drifting from the simplicity of the devotional part of the service, which has been so distinctive a feature of the Presbyterian form of worship. A liturgy is in the air, and and a committee has been appointed to consider the question.

Young people's societies received some attention and the new Hymnal question was postponed for a year, in view of the probability of having a uniform hymnal for all the Presbyterian Churches of the British Empire The Assembly adjourned on Wednesday to meet in Toronto next June.

—The County Council met last week. We keep a full report of the proceedings for next week, meanwhile we append Warden Binnie's opening address as reported in the "Advertiser."

"The Warden then made a short opening address, in which he welcomed the members to the June session, saying they all appeared to be in the best of spirits and ready to perform their duties. They were not there in unbroken numbers as was the case at the January session, but one member had been called away, namely, Mr. Joseph Taylor, First Deputy Reeve of Osprey. He referred to Mr. Taylor's illness at the last session, but none had expected that he would pass away so soon. Deceased had not been in the Council very long. He was certain that all welcomed Mr. Clark, the successor of Mr. Taylor. Brief reference was also made to Mr. Stark's death, who was Reeve of Derby for two years. Mr. Stark, the Warden said, was a man who could take a good view of all municipal matters and understood his position as a member of the Council. As the deceased was a trustee of the Geneva and Marine Hospital it would be necessary to appoint a successor. The Warden then referred to the damage done to fruit and grain by the recent frosts, and hoped that the season's crop would be improved by early showers. Trade in the country was improving, and the bottom of hard times had been struck. Although there were promises of prosperity unnecessary expenditure should not be made, and the Council should be specially economical in the expenditure of the people's money. Nothing had occurred since the January session to injure the county, and he hoped this pleasing state of affairs would continue for a lengthy time. During the session some school questions would be taken up. This was also the session in which the equalization of assessments took place Another question which would probably be brought before them was the House of Refuge. It deserved the consideration of the Council. A request would be made to make a grant to the General and Marine Hospital. He closed by saying that he would leave all matters in their hands, hoping that they would deal with the various questions for the benefit of the county, and perform the work in a creditable manner."

THE EXAMINATION WORLD.

To a large class every year Examinations are of great interest. Step by step from the lowest rungs of the educational ladder one must rise by examinations. The exultation of victory as well as the humiliation of failure is felt alike by the "barefoot boy" and the University student. We question if the student as he steps out into life with the coveted parchment and the honorable B. A. feels more exquisite pleasure than the little boy or girl whose exultant "I passed" is dinned into loving ears, and happily, to the young, though failure does come, the depression is in the most cases a passing cloud.

By the courtesy of Insp. Campbell, who, in a manner lives and moves in an examination world we are enabled to present the date of the various examinations.

The Commercial Course is being conducted this week, 31 pupils from Durham, 3 from Mr. McPhee's school, Bentinck, and 1 each from the academies of Mr. Jno. Whelan and Mr. Jno. Kerr are facing the music.

The Entrance and P. S. Leaving begins to-day. A remarkable increase this year in the number writing on the P. S. Leaving. This is in the line of more culture, coming as it does at the end of the 5th class course, while the "Entrance," somewhat of a misnomer now, is at the end of the 4th class. Insp. Campbell presides in Durham, where the numbers are Ent. 45, P. S. L. 7. Mr. Mills presides at Hanover, 19 and 11; Mr. R. W. Bright of Markdale at Flesherton, 24 and 23; Mr. H. Glendinning, of Dundalk at Markdale, 31 and 10; Mr. W. Irwin, Flesherton at Dundalk, 19 and 16; Mr. J. W. Brown of Hanover, at Neustadt, 10 and 0.

The Primary Exam. begins on the 4th of July and continues into the next week. Messrs Irwin and Blakestone, of Priceville will preside in Durham. Mr. Campbell going to Meaford where he will also conduct the Junior Leaving.

We are very glad to congratulate our old associate Mr. Allan on his appointment as Associate Examiner in Book keeping in Toronto, where his duties begins on Tuesday next week, and will continue for a week or two. This is a step we have always urged and voted for, that P. School men should have a share in this work, which has hitherto been almost entirely in the hands of High School men.

A carload of Manitoba flour, Hungarian process, just to hand, at Laidlaw's.

Principal Allan contemplates a visit to the North West during holidays, which will brace him up after his recent illness.

GLENELG COURT OF REVISION.

The Council met June 1st and organized as a Court of Revision, Mr. Staples in the chair. The Assessment Roll was revised and changes made as follows: W. L. Falkingham, assessment reduced to $300; lot 15 con. 4, S. D. R., reduced $50; John Dalgish and Donald Johnson entered as tenants for lot 3 of 7, con. 1 and east half of 16, con 4, N. D. R., respectively. The names of John McArthur, Mathew J. Allan, Alexander Campbell, Samuel J. Ireton, Joseph Firth, Peter Morrison, Abel Wright, P. McCulloch, Wm. L. Young, Thomas Welsh and Donald McKinnon were entered as owners. John McLeod's name was struck off as owner. The assessments of McDermid Bros., Joseph Sharp and Dan McDougall were allowed to stand.

On motion of Messrs. Binnie and McFadden the Roll was passed as finally revised and the court rose.

J. S. BLACK, Clerk.

After the Court of Revision the council met for general business, all the members present. The Reeve in the chair. Minutes of last meeting read and confirmed. Communications read as follows: From Dr. Roseburgh, aid for prisoners; from the Treasurer receipts and payments; from C. Ramage and C. W. Rutledge relative to township printing, from George Russel relative to By-law 345, from Dr. Hutton, an account.

McFadden—Arrowsmith—That the Assessment Roll as finally revised by Court of Revision, be received and adopted, and that the assessor be paid $85 as his salary.—Carried.

Lamb—McFadden—That the publisher of the GREY REVIEW be awarded the township printing for the present year, he being in the opinion of this council most entitled to the same.—Carried.

Staples—Lamb—That this council purchase 12 steel road scrapers from Chas. McKinnon at $7.50 each.—Carried

Lamb—McFadden—That the several road commissioners be awarded $2.00 each to be expended on roads and bridges in their several divisions.—Carried.

By-laws 345 closing an original allowance for road, 346 establishing a Deviation for road, and 347 appointing Township Officers were passed and ordered to be engrossed on By-law Book.

The name of Hugh McDonald's wife was placed on the list of indigents.

Further cheques were issued as follows: Jas. H. Rutherford, advertising Road Notice, $8.13; Chas. Ramage, advertising Road Notice, 43 cents; John O'Hearn, land for road, $50.00; the Clerk, on salary, $15.00; Dr. Hutton, medical attendance on indigents, $4.25; John McKinnon, repair of bridge lot 1 of 16 con 1, $17.37.

The Council adjourned to July 8th at 10 a. m. J. S. BLACK, Clerk.

GAINED A POUND A DAY.

A LANARK COUNTY FARMER'S REMARKABLE CURE.

Taken with Bilious Fever the After Effects of Which Brought Him Almost to the Grave—He Gladly Speaks for the Benefit of Other Sufferers.

Smith's Falls *Recorder*.

Mr. Joseph N. Barton, who lives about a mile from the village of Merrickville, is one of the best known farmers in the township of Montague. Up to the spring of 1891 Mr Barton had always enjoyed the best of health. At that time, however he was taken with a bilious fever, the effects of which left him in a terribly weakened condition. When the time came around to begin spring operations on the farm he found himself too weak to take part in the work, and notwithstanding that he was treated by an excellent physician, he was constantly growing weaker and his condition not only greatly alarmed himself but his friends. Having read so much concerning Dr. Williams' Pink Pills, he determined to give them a trial, and without consulting his physician he began their use. He only used one box, and, not feeling better, he discontinued the use of the pills. This is where he now admits he made a serious mistake as he not only fell back to his former weakness, but became worse than before. He could not do work of any kind, and the least exertion left him almost helpless. Life was a misery to him and he

I gained a pound a day.

was on the point of giving his case up as hopeless when a friend strongly urged him to again begin the use of Dr. Williams' Pink Pills. He agreed to do so, and by the time he had used three boxes there was a marvelous change in his appearance, and he felt like a new man. He still continued to use this life-saving medicine, with astonishing results. During his illness he had fallen in weight to 135 pounds, but he soon increased to 180 pound. In fact, as he says, the increase averaged about a pound a day while he was taking the pills. He is now able to do any kind of work on his farm, and it is needless to say that he is not only a firm believer in the efficacy of Dr. Williams' Pink Pills, but loses no opportunity to sound abroad their praises, with the result that others in his locality have benefitted by his experience and advice.

To those who are weak, easily tired, nervous, or whose blood is out of condition, Dr. Williams' Pink Pills come as a veritable boon, curing when all others fail, and restoring those who give them a fair trial, to a full measure of health and strength. They will be found an absolute cure for St. Vitus dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effects of la grippe, loss of appetite, headache, dizziness, chronic erysipelas, scrofula, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness. In the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature. Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper (printed in red ink,) and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y. at 50 cents a box, or six boxes for $2.50

Suffered for Over 30 Years—Tried Everything and Employed Two or Three Doctors.

A well known farmer says: Lot 232, Thorold Township, Welland P. O.,—"For over 30 years my wife had been a sufferer from most dreadful headaches; at times they were so bad she could neither sit or lie down but her head seemed as if it would split. She tried everything she could hear of and was attended by two or three doctors, but could not find relief until we got Stark's Powders for headache, biliousness, costiveness, neuralgia and the liver. Since then she has been free from suffering, and any tendency to pain Stark's Powders remove immediately. They are the only medicine she ever got that has been of benefit."—JONATHAN PAGE.

Price 25c a box, 5 boxes $1, at all medicine dealers. Nice, immediate and permanent. June 6th.

Park lot No. 2, at present occupied by the Rev. Chas. Cameron is for sale. This is a very desirable location for a retired farmer. Apply to J. P. TELFORD.

RHEUMATISM CURED IN A DAY.—South American Rheumatism Cure, for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by McFarlane & Co.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
