DR. HUGH McNEIL, of Chicago, in refuting the hopelessly expressed of the hope that we may never be called upon to face each other with muskets. The Dr. is an enthusiastic Scot and at present, as President of the Highland Society engaged in the peaceful task of preparing for a reunion of the "boys of Burns' birthday on January 24th.
SPECIAL SERVICES.—The clergy of the town decided to present the Lenten services to two weeks. Consequently meetings have been held every night. Tonight everything is put aside for the Rally of the B. Died at Glenora, the beloved wife of Mr. Jas. McGee, aged 51 yrs. The deceased leaves a family of 5 sons and 2 daughters, also two brothers, one living in Glenora, on the Concession, the other in Mantoloking. [NOTE.—The above notice is in time for last issue, but, by an oversight in filing we regret was omitted.—Ed.]
MOVEMENT OF FODDER.—Never in the history of this county was there anything of the kind. The extraordinary demand for fodder which exists owing to the disastrous drought of last season. Every day loads of hay, straw or chop can be seen moving out, one day last week was an extraordinary one when 40 or 50 loads could be counted on the street at one time. We hope this extensive purchasing is not controlled as much by pressing present necessity as by prudent looking forward. An early spring will be a welcome one.
FIRE ALARM.—An Upper Town chimney on fire on Sunday afternoon last caused the ringing of the firebell. A momentary excitement and the usual feverish anxiety as to the locality followed, but before the engine could be got out, it was learned that danger was past. The incident calls for some needed changes. In the manipulation of the bell should be adapted to some one where the fire is in Upper or Lower Town, east or west, etc. Citizens would then know just where to run. 2nd. A team should be spoken for to furnish power to take the engine up the hill in winter anyway, as 40 or 50 men would be needed under some conditions of the road. 3rd. The approach to the engine house should be kept clear of snow.

There is a good deal of talk here as elsewhere about war. There is no lack of patriotic singers. We are taking it up here and there. A result of this war has come to us and we do not want to close our eyes to it. Canadians love their country just as much as other nations love theirs. Capt. Murray is ready to go to the front if he is needed. We have no doubt the members of No. 4 Co. would follow, to a man. If there was a spare rifle in the country it is dead and we hope buried for ever.

THE BEST ENGINEER

Keeps his eye always on the track ahead. If he is tried he is conductor baggage and all there would soon be a smash. If fifty other departments engaged my attention I would not today be the leading eye specialist of this city. With singleness of purpose I give my entire thoughts to the one matter of completely restoring the needs of this city and country.
Beware of watchmakers "Jack" all trades—good at none—who claim to be opticians. Have your eyesight tested by me and I will convince you of the superiority of my glasses over "Jack" of all trades' watchmakers. Write for my 50 page book on the eye. All free.

PROF. CHAMBERLAIN, "EYE SPECIALIST,"

OF 87 KING ST. EAST, TORONTO, ONT., will be at McFarlane's Drugstore, Durham, Ont., soon. Watch for date. Write for large book on the eye, can be mailed to you free.
DROPPED ON THE STREET.
That was What Happened a Well Known Resident of Union, B. C., Who Had Been in Declining Health.
From the News, Union, B. C.
A little over a year ago the reporter of the News while standing in front of the office, before its removal to Union, noticed a man carrying Mr. J. P. Davis, the well known florist and gardener into the Courthouse. The reporter, ever on the alert for a news item, at once went over to investigate the matter, and learned that Mr. Davis had had a slight stroke of paralysis. A note of the circumstance appeared in the News at the time and nothing further was heard of it. Last spring Mr. Davis was observed to be frequently in Union bringing in flowers, later vegetables for sale, and the reporter meeting him one day the following conversation took place—"Glad to see you looking so well, Mr. Davis," said the reporter, "how are you getting on?" "Yes," said Mr. Davis, "I did have a pretty rough time of it. I was troubled by my heart, having severe spasms, and shortness of breath on slight exertion. I had also a swelling of the neck which was to be gotten. Two years ago I came up from Nanaimo and took the Harvey ranch hoping a change

of scene would do me good but in this I was disappointed, and seemed to be steadily getting worse. I had three doctors at different times, but they appeared not to understand my case. At last I got so low that one day I fell down on the street, and those who picked me up thought I was dead. They hurried me to take Dr. Williams' Pink Pills, and almost from the outset they helped me and after the use of about half a dozen boxes I was as well as ever." "Do you still take Pink Pills?" asked the reporter, "yes," was the reply, "I still keep them about me and once in a while when I think I need a tonic I take a few, but as you can see I don't look a man who requires to take medicine." On this point the reporter quite agreed with Mr. Davis, as he looks as vigorous and robust a man as you could wish to see. After parting with Mr. Davis the reporter called at Mr. Williams' Pink Pills store, where he corroborated what Mr. Davis had said regarding the use of Dr. Williams' Pink Pills, and further stated that he believed his case was in two places, one in the world which gave the name of several who had found remarkable benefit from the use.
A depraved or watery condition of the blood or shattered nerves are the two freest causes of almost every disease that afflicts humanity, and to all sufferers Dr. Williams' Pink Pills are offered with a confidence that they are the only perfect and unfailing blood builder and nerve restorer, and that where given a fair trial these pills will suffer from no ill effects, and will be sent by mail on receipt of 50 cents a box or \$2.50 for six boxes, by addressing the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y. Beware of imitations and always refer to "trusty substitutes," priced to be "just as good."

PRICED TO BE "JUST AS GOOD."

Mr. Blyth led the League meeting of last week, which was largely attended. The subject was "How to begin the New Year." This was followed by a social and coffee, but some of them can't look an oyster straight in the face.
John McLeod was down to Stayner with a load of his luggage last week. He is quite a number of years ago having commenced their married life at Mr. Brander's wood to the Station.
John McLeod, North Line, received a severe cold on the 14th of the month. There is quite a number on the sick list at present. We are pleased to hear that Miss Simpson is able to go on.
There is quite a number of people who are keeping very well. Chas. McDonald has had a very cold. Miss Minnie McLaughlin has been hard up for the past few days. We hope she will get well soon.
